Los Angeles County Office of Education (LACOE)	C9495	07/01/25 – 06/30/30	General Funds (100%)	$950,000

Approval of a sole-source contract for annual maintenance charges for the Business Enhancement System Transformation (BEST) Advantage Financial System, provided by the Los Angeles County Office of Education (LACOE).

As the fiscal oversight body for school districts, LACOE is legally required to review and examine the District's financial records, interim reports, budget, unaudited actuals, and annual audits. In fulfilling these responsibilities, LACOE reviews the District’s disbursements and manages daily cash and investment balances through the BEST system interface. Additionally, LACOE monitors the District’s compliance with the Standardized Account Code Structure (SACS) as mandated by the California Department of Education. The BEST Advantage System, is provided by LACOE, and use by all Local Education Agencies (LEAs) in the County of Los Angeles is mandated.

On November 19, 2024, the Board of Education ratified a one-year contract with LACOE for the same services, with a term beginning on July 1, 2024 and ending on June 30, 2025 (Board Report No. 078-24/25). Since then, LACOE has updated their processes to support a five-year contract term for this mandated system.

This action aligns with the District’s Strategic Plan Pillar 4: Operational Effectiveness by integrating Payroll, Business Intelligence, Financials, Budget Development, and Human Resources. This integration enables users to enter data accurately, timely, and in a usable format. Additionally, the system allows the data to be downloaded to Excel, eliminating the need to wait for LACOE to generate and send reports.

HUMAN RESOURCES DIVISION **$600,000**

CONTRACTOR	IDENTIFI-CATION NO.	CONTRACT TERM	SOURCE OF FUNDS	AMOUNT
Teach for America, Inc.	C9444	07/01/25 – 06/30/30	General Funds (100%)	$600,000

Approval of a single source contract to recruit and retain annual cohorts of 40 new teacher candidates in hard-to-staff subject fields as identified by the District. This enables the District to support teacher cohorts in their first two years through credentialing coursework, individualized mentorship, and targeted support designed to retain them in their roles as teachers of record beyond their initial two-year commitment to Teach for America (TFA).

The District has been partnering with TFA for over 20 years to provide recruitment and support services. This partnership is both longstanding and incredibly productive. This contract could not be competitively bid because there were no comparable vendors who provide the same level of service. The contract with TFA supplements the District's robust teacher recruitment efforts (representing less than 5% of overall recruitment). Approving this contract action means providing placement of well-prepared and well-supported teachers over the next five years to teach in high-needs schools.

Program participants are required to stay with the District for two years. There are 45 TFA teachers (18 in year 1 and 27 in year 2) currently teaching at 40 District schools, including 27 Priority Schools. Their content areas include, but are not limited to secondary math, science, English, Special Education, and multiple subjects at the elementary school level

This action aligns with the District's Strategic Plan Pillar 1: Academic Excellence and Pillar 5: Investing in Staff by providing diverse, qualified, and well-supported teachers who can provide high-quality instruction and world-class academic experiences for our students.

Authorization to increase capacity of formally competed bench of 56 master services agreements by $36,000,000, to support work orders through the remainder of the calendar year for consolidated IT services. These master services agreements have been utilized to modernize District applications such as the Parent Portal, Principals' Portal, iFieldTrip, and eLibrary, and to implement school network system upgrades (not originally contemplated). The capacity increase will enable the District to retain current and onboard new resources to support various initiatives, including enterprise reporting and enterprise resource planning (e.g. Ariba, Whole Child, Focus Reporting, and Parent Portal), and network infrastructure projects. The authority to increase or decrease the amounts of these contracts will be limited to the updated aggregate value of $204,000,000.

Los Angeles County Office of Education (LACOE)	C9469	07/01/25 – 06/30/28	General Funds (100%)	$360,000

Approval of a sole source contract with the Los Angeles County Office of Education (LACOE) to pay administrative costs required by the California Department of Health Care Services (DHCS) for processing invoices and reviewing LAUSD's School Medi-Cal Administrative Activities (SMAA) program. In accordance with California Welfare and Institutions Code, LACOE is the agency responsible for the administration of the SMAA claims on behalf of the DHCS. LACOE collects fees from the District to cover their obligation to DHCS for oversight of the District's program. The fees are collected via a front funding source where the Medi-Cal reimbursements are deducted by LACOE prior to the reimbursement being sent to LAUSD. This contract action covers the District's participation in the SMAA program during fiscal years 2025-2028.

LACOE is the largest regional education agency in the country. It provides a range of services and programs to support Los Angeles County's 80 school districts and functions as a crucial link between the representative school districts and the California Department of Education.

This contract is aligned with Strategic Plan pillar 2B: Joy and Wellness by promoting whole-child well-being through integrated health, nutrition, and wellness services. Attending to the well-being of the whole child lays a solid foundation for learning and development.

Licensed professionals are authorized to transact business globally to secure coverage from carriers offering various lines of risk, such as liability, property, and workers' compensation. It is a priority of the District to implement sustainable budgeting practices to ensure appropriate allocation of funds and services. The services provided by these vendors are crucial to maintaining required insurance coverages, and will help transition toward a value-based, multi-year budget and investment plans. This approach will better direct funds to support student outcomes, resulting in more efficient and equitable distribution of school and District budgets. Ultimately, the District will benefit from lower costs, greater control over coverage and claims, and more efficient and effective management of its unique risk management needs. The authorization to increase or decrease the amounts of these contracts will be limited to aggregate value of $5,000,000.

Los Angeles County Office of Education (LACOE)	C9346	05/01/25 – 06/30/27	Revenue	<$3,718,994>

Approval of a revenue contract to build capacity infrastructure for reimbursable mental health services. Funds will support costs associated with building an infrastructure for the Children and Youth Behavioral Health Initiative Fee Schedule project within LAUSD. Funding obtained through this agreement will pay for the electronic health records system, staff positions, and professional development training for staff to ensure all reimbursable services are tracked and reported, and that the District is capitalizing on critical health services delivered to students through school-based and clinic providers.

The District was selected as one of the first 47 Local Education Agencies (LEA) approved by the Department of Health Care Services for meeting the readiness review requirements. This review assessed factors such as: Medi-Cal enrollment, service delivery infrastructure and capacity building, data collection and documentation, and billing infrastructure. Approval enabled the District to participate in the statewide, multi-payer school-linked fee schedule (Fee Schedule) and provider network for school-based behavioral health counselors. The Fee Schedule establishes a standardized set of behavioral health services and reimbursement rates that Medi-Cal and commercial plans must pay to LEAs. Attaining fee schedule readiness ensures that one-time funds are leveraged to support long-term sustainability.

LACOE is the oversight agency of all Local Education Agencies (LEAs) in the County of Los Angeles.

Board approval of these contracts is critical to continuing this effort. Without approval, FSD will not be able to provide these fresh and local-sourced products, and they will no longer be available on school menus. This would significantly limit the variety and nutritional quality of produce offered to students.

The FSD remains committed to enhancing the student dining experience by incorporating fresh fruits and vegetables into daily meals, encouraging healthy eating habits, and supporting lifelong wellness. Continued success with farm-fresh produce not only supports student health and nutrition but also offers valuable exposure to fresh food that many students may not otherwise experience.

Eighteen proposals were received, and eight proposals were deemed qualified. The source selection committee was comprised of five FSD staff members. The proposals were evaluated based on the following criteria: price; Good Food Purchasing Plan/Social & Environmental Responsibility; product, quality and formulation; experience and financial responsibility; customer service/ satisfaction and responsiveness; delivery implementation plan; safety plan; Work-Based Learning Partnership (WBLP) plan; and Small Business Enterprise (SBE) participation. The five vendors recommended for award received the highest scores across the evaluation criteria.

Aziz Farms has been doing business with the District since 2023. Dickinson Family Farms and Fiery Ginger have been doing business with the District since 2024. Gold Star Foods has been doing business with the District for over 30 years. Ag Link is a new vendor with the District.

This action aligns with the District's Strategic Plan Pillar 2B – Whole-Child Well-Being Joy and Wellness. Approval of two (2) formally competed contracts, procured through an Invitation for Bid (IFB) process, to replace and upgrade network equipment at 110 schools in order to deliver modernized school communication infrastructure. This contract is part of the School Network Systems Upgrade Project, approved by the Board on January 23, 2024 (Board Report No. 118-23/24). The authority to increase or decrease the amount of these contracts will be limited to the aggregate value of $39,138,000. The authority to increase or decrease the amount of these contracts will be limited to the aggregate value of $39,138,000.

The upgrades will include the replacement of network equipment such as switches, access points (APs), associated AP controllers and fiber cabling. It will replace the existing obsolete, end of life Local Area Network (LAN) and Wireless Local Area Network (WLAN) equipment with current technology and replace the outdated fiber cabling. ITS expects to attain and sustain reliable LAN and WLAN services for the one-hundred and six K-12 schools to meet internet connectivity and operational and emergency communication needs. Additionally, approval will also enable completion of projects that will upgrade existing obsolete, end of life and failing Private Branch Exchange (PBX) and Public Address (PA) systems with IP-based telephone and PA systems in offices, classrooms, and administrative support areas.

Approval of a formally competed contract procured through an Invitation for Bid (IFB) process, to provide a Districtwide content filtering solution for approximately 365,000 District-issued Chromebooks. The GoGuardian content filtering solution, provided by CDW Government LLC, is essential for ensuring compliance with the Children's Internet Protection Act (CIPA) and supports District-wide efforts to promote safe, responsible, and effective technology use in the classroom.

Three bids were received for this solicitation, and one was deemed qualified. The evaluation committee was comprised of staff from Information Technology Services. CDW Government LLC (CDW-G) was the lowest, responsive, and responsible bidder.

CDW-G has been doing business with the District since 2013. Examples of other clients are Clark County School District and the New York City Department of Education. CDW-G has extensive experience partnering with K–12 school districts to enhance technological infrastructure and improve educational outcomes.

This action aligns with the District's Strategic Plan Pillar 4: Operational Effectiveness. Under Priority 4B – Modernizing Infrastructure, it states it is a priority to modernize facilities and technological infrastructure. Content filtering allows blocking of all sites or pages deemed inappropriate by the District.

Approval of a formally competed contract procured through an Invitation for Bid (IFB) process, to replace and upgrade network equipment, fiber, and related services needed to deliver modernized school communication infrastructures at 106 schools. This contract is part of the School Network Systems Upgrade Project, approved by the Board on January 23, 2024 (Board Report No. 118-23/24). By approving the contract now, we will ensure we meet the filing deadline for E-rate funding, allowing the District to leverage the E-rate Program to offset costs. Any E-rate reimbursements received will enable the bond funds associated with these projects to be returned to the ITS bond program to support projects, therefore allowing the District to further maximize its local bond dollars.

The upgrades will include the replacement of network equipment such as switches, access points (APs), associated AP controllers and fiber cabling. It will replace the existing obsolete, end of life Local Area Network (LAN) and Wireless Local Area Network (WLAN) equipment with current technology and replace the outdated fiber cabling. CONTRACTOR	IDENTIFI-CATION NO.	CONTRACT TERM	SOURCE OF FUNDS	AMOUNT
Cal/AMP, dba Synovia LLC	C9329	07/19/25 – 07/18/27 includes a one-year renewal option	General Funds (100%)	$765,000

Approval of a single-source contract for Global Positioning System (GPS) services. The contract will provide real-time student busing location tracking services for the Transportation Services Branch.

Global Positioning System (GPS) services play a critical role in the daily operations of the Transportation Services Branch (TSB). GPS services are essential to providing TSB with the ability to ensure student safety by monitoring a vehicle's real-time location tracking, speed, and stops. In case of emergencies, real-time tracking assists with quick response times. TSB can also analyze historical driving patterns as deemed appropriate and necessary, such as when investigating traffic accidents and other related incidents.

The vendor is being selected as a single-source procurement because they are the District's current GPS service provider. The vendor will perform interim services until the incoming GPS vendor (Zum Services, Inc., Board Report No. 268-23/24) can complete their hardware installation and software implementation process, which is estimated to be completed by December 2026.

Cal/Amp has been doing business with the District since 2023, Cal/Amp's client portfolio includes organizations such as Orange County Public Schools, Cobb County School District, United Parcel Service (UPS), and Federal Express (FedEx).

Authorization to increase capacity of nine (9) formally competed contracts by $70,000,000, to provide pupil transportation services on a regular and as-requested basis. There are separate contracts based on bus capacity and whether the bus services are required or on an as-needed basis. The authorization to increase or decrease the individual amount of these contracts will be limited to the updated aggregate value of $230,740,400.

Without approval, the District will not have sufficient resources to provide mandated and other transportation services for the remainder of the initial term of the contracts (through June 30, 2027). The contracts support 203 mandated bus routes primarily for Special Education students, and as needed, may support up to 202 additional routes (total of 405 bus routes).

This action aligns with the District's Strategic Plan Pillar 1, Academic Excellence, as it shall provide transportation services so students can get to schools to improve their academic achievement. The item also aligns to Pillar 4, Operational Effectiveness, as it shall support the Transportation Services Branch's ability to sufficiently cover the bus routes.
