Define and Approve Three Athletic Facilities Upgrade Projects and Amend the Facilities Services Division Strategic Execution Plan to Incorporate Therein
August 22, 2023**Facilities Services Division****Action Proposed:**

Define and approve three projects to upgrade athletic facilities at Bell High School, Eagle Rock High School, and South Gate High School as described in Exhibit A and amend the Facilities Services Division (Facilities) Strategic Execution Plan (SEP) to incorporate therein. The total combined budget for the three projects is \$35,371,820.

Authorize the Chief Procurement Officer and/or the Chief Facilities Executive and/or their designee(s) to execute all instruments necessary, as legally permissible, to implement the projects including budget modifications and the purchase of equipment and materials.

Background:

On August 24, 2021, the Board of Education (Board) adopted an update to the School Upgrade Program (SUP) to integrate Measure RR funding and priorities into its operational framework. The updated SUP framework and the Measure RR Implementation Plan help guide the identification of sites and development of project proposals, which meet the goals of and priorities for Measure RR.

Pursuant to the Board Resolution, Modernization, Upgrade and Development of High School Athletic Facilities, adopted on June 22, 2021, funding has been prioritized within the SUP to modernize, upgrade, or develop new high school athletic facilities in each Board District. Projects to upgrade high school athletic facilities within each Board District fall under the SUP category of need for School Upgrades and Reconfigurations to Support Wellness, Health, Athletics, Learning, and Efficiency (WHALE). Funds are targeted for each Board District based on each Board District's proportionate share of high school enrollment and number of sports teams. Proposed projects are identified by Board offices in consultation with stakeholders and developed by Facilities staff.

The proposed athletic facilities upgrades will support each school's physical education program, athletic programs, and allow schools to practice for and/or host athletic events, which contributes to student athletic achievement, school pride, and a positive school culture.

The proposed projects are located in Board District 5 (Jackie Goldberg).

Bond Oversight Committee Recommendations:

This item was considered by the School Construction Bond Citizens' Oversight Committee (BOC) at its meeting on August 10, 2023. Staff has concluded that this proposed Facilities SEP amendment is in alignment with BOC recommendations and will facilitate the successful implementation of the Facilities SEP.

Expected Outcomes:

Define and approve the proposed projects and amend the Facilities SEP to incorporate therein. Approval will authorize staff to proceed with the implementation of the proposed projects and expenditure of Bond Program funds.

The upgraded athletic facilities, once completed, will provide modern high-performance athletic facilities that support physical education programs, student athletic achievement, and athletic programs. The projects will also decrease demands for repair and maintenance, alleviate the burden on custodial staff, and benefit the local economy by creating tax revenue and new jobs.

Board Options and Consequences:

Approval will allow staff to further develop, design, and construct the athletic facilities upgrades.

If staff's proposal is not approved, the proposed improvements will not commence, and the schools will continue to operate without upgraded athletic facilities and/or continue to use athletic facilities that are deteriorating and do not comply with current standards.

Policy Implications:

The proposal does not impact Los Angeles Unified policy. The proposal supports the implementation of the Modernization, Upgrade and Development of High School Athletic Facilities Board Resolution. The proposal is consistent with the District's long-term goal to address unmet school facilities needs and significantly improve the conditions of aging and deteriorating school facilities as described in the District's local bond measures K, R, Y, Q, and RR. The proposed action advances Los Angeles Unified's 2022-2026 Strategic Plan Pillar 4 Operational Effectiveness Modernizing Infrastructure by upgrading athletic facilities at schools.

Budget Impact:

The combined project budget for the three athletic facilities upgrade projects is \$35,371,820. The projects will be funded with Bond Program funds earmarked for school upgrades and reconfigurations to support wellness, health, athletics, learning, and efficiency, and more specifically from the amounts allocated for upgrades to athletic facilities in Board District 5.

The project budgets were prepared based on the current information known, and assumptions about each project's scope, site conditions, and market conditions. The project budgets will be reviewed throughout the planning, design, and construction phases as new information becomes known or unforeseen conditions arise and will be adjusted accordingly to enable the successful completion of the projects.

Student Impact:

The proposed projects, once completed, will provide new and improved athletic facilities that support physical education programs, student athletic achievement and athletic programs to benefit approximately 6,300 students. The athletic facilities upgrades will also allow schools to practice for and/or host games and other school community events, which builds school pride and enhances opportunities to create a positive school culture.

Equity Impact:

Funds are allocated for each Board District based on each Board District's proportionate share of high school enrollment and number of sports teams.

Issues and Analysis:

Staff will implement all opportunities to minimize construction impacts on school operations and existing athletic programs. As necessary, the temporary use of local parks, neighboring school athletic facilities, and other opportunities will be utilized to reduce impacts to the existing athletic programs at each school.

The Office of Environmental Health and Safety (OEHS) will evaluate the proposed Projects in accordance with the California Environmental Quality Act (CEQA).
