## Board of Education Report

---

**File #:** Rep-036-24/25, **Version:** 1

---

### **2024 CCEIS Action Plan Amendment**

**September 10, 2024**

### **Division of Special Education (DSE)/Comprehensive Coordinated Early Intervening Services (CCEIS) Program**

#### **Action Proposed:**

Approve Division of Special Education's 2024 CCEIS Action Plan

#### **Background:**

A Local Education Agency (LEA) must develop a CCEIS Action Plan to identify and address the factors contributing to the significant disproportionality in the LEA for the identified category. Los Angeles Unified School District (LAUSD) was found significantly disproportionate in the identification of African American/Black students as eligible for a special education eligibility of emotional disability.

Under the Individuals with Disabilities Education Improvement Act, if an LEA is identified as significantly disproportionate, the LEA must create an action plan to address this significant disproportionality. This action plan outlines activities, support, and services that are for both students who currently receive special education services and students who do not currently receive special education services.

The following attachments are included in this Board Report:

- Attachment A - 2024 CCEIS Action Plan
- Attachment B - School and Student Selection Criteria
- Attachment C - School Roster and Grade Levels, Approximate Number of Students Impacted, Board District, and Priority Status

#### **Expected Outcomes:**

The DSE expects that 2024 CCEIS Action Plan will support LAUSD's transition out of being significantly disproportionate in the identification of African American/Black students as eligible for special education based on the criteria for emotional disability.

#### **Board Options and Consequences:**

LAUSD's submission of an approved 2024 CCEIS Action Plan will comply with the California Department of Education's (CDE) requirements and align with 34 CFR Section 300.646.

If not approved and/or submitted, LAUSD will not be able to implement the 2024 CCEIS Action Plan and will be out of compliance with CDE requirements.

#### **Policy Implications:**

Not Applicable

**Budget Impact:**

The DSE must reserve 15% of its IDEA grant funds to address factors contributing to the significant disproportionality and this action plan ensures all funding is fully expended and appropriately allocated for activities that support students.

**Student Impact:**

Approval of the 2024 CCEIS Action Plans aligns with the following Strategic Plan Pillar: Pillar 1: Academic Excellence "Eliminating Opportunity Gaps". This alignment is through a reduction of the emotional disability eligibility rates of students that are African American/Black. This action plan will impact over 2,000 students across over 70 schools, including early education centers, in Regions West and South.

**Equity Impact:**

| Component                      | Score     | Score Rationale                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--------------------------------|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Recognition</b>             | <b>4</b>  | The LAUSD CCEIS team used a Four-Phase Programmatic Improvement Process for Significant Disproportionality in drafting the 2024 CCEIS Action Plan. A cultural lens was applied throughout these four phases and overall outcomes and activities were based on qualitative and quantitative data measures using a multitude of data sources.                                                                                                                                                                                                                        |
| <b>Resource Prioritization</b> | <b>4</b>  | CCEIS Action Plan activities were developed to address the following key root causes of disproportionality directly: • Systemic racism and cultural dissonance. • Lack of fidelity to discipline policies, procedures, and practices • Inconsistencies in the SSPT processes. • Lack of consistent interventions and practices for students impacted by trauma. • Lack of authentic partnership with African American parents and families. • Lack of cohesive and universal supports to proactively monitor, target, and disrupt disproportionate areas of focus. |
| <b>Results</b>                 | <b>4</b>  | Implementing the 2024 CCEIS Action Plan will result in closing opportunity and success gaps. When fully implemented, the action plan contains activities and outcomes that directly connect to the significant disproportionality rate of the number of African American/Black students as eligible for a special education eligibility of emotional disability.                                                                                                                                                                                                   |
| <b>TOTAL</b>                   | <b>12</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

**Issues and Analysis:**

The Federal requirements for submitting the amendment for the 2024 CCEIS Action Plan are set forth in 34 CFR Section 300.646 and informed by the California Department of Education.

**Attachments:**

Attachment A - 2024 CCEIS Action Plan

Attachment B - School and Student Selection Criteria

Attachment C - School Roster and Grade Levels, Approximate Number of Students Impacted, Board District, and Priority Status

**Informatives:**  
Not Applicable.

**Submitted:**  
09/03/24, Revision # 1

## 2024 Continuing CIM for Sig Dis Addendum and Budget

Compliance and Improvement Monitoring for Significant Disproportionality  
(CIM for Sig Dis)

Local Educational Agencies (LEAs) who have been approved by the California Department of Education (CDE) to continue their 2023 CIM for Comprehensive Coordinated Early Intervening Services (CCEIS) Plan as a 2024 Continuing CIM for Sig Dis Addendum, should complete this document and submit by October 10, 2024, to the CDE via email: [SigDisp@cde.ca.gov](mailto:SigDisp@cde.ca.gov).

|                                                                                                                                                                |                                     |

| Significant Disproportionality Indicator(s)/Element(s): Students with disabilities identified as having an emotional disability and are African American/Black |                                     |

### CONFIRM COMPLETION OF POLICIES, PRACTICES AND PROCEDURES REVIEW

The Policies, Practices and Procedures (PPP) Review for significantly disproportionate LEAs shall be completed annually. Please list the date of the last Review and note when/how revisions to the PPP were publicly shared.

|                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Date of Last Policies, Practices and Procedures Review: June 2023                                                                                                                                                                                                                                                                                         |
| Method/Date PPP Revisions Shared: The review for the 2024 CCEIS Action Plan was conducted in June 2024. The Policies, Practices, and Procedures Review Matrix <sup>1</sup> tool was used by correlating LAUSD documents with the listed review policy on the Matrix tool. Please see Appendix A for a summary and recommendations related to this review. |

### NEW OR ADDITIONAL DATA

LEAs with additional areas, and/or race and ethnicities identified as significantly disproportionate in the current Annual Determination Letter, must include an analysis of any relevant data. The LEA must demonstrate how the Educational Partners Team reviewed and discussed this data, and its relationship to contributing factors of disproportionality.

<sup>1</sup> [https://spptap.org/wp-content/uploads/2024/05/PPP\\_Review\\_Matrix\\_Questions\\_Blank\\_2024\\_CIM4SigDis\\_FINAL\\_508.docx](https://spptap.org/wp-content/uploads/2024/05/PPP_Review_Matrix_Questions_Blank_2024_CIM4SigDis_FINAL_508.docx)

Focus groups were conducted to gather qualitative data and inform the development of the 2024 CCEIS Action Plan. The focus groups aimed to understand the experiences of African American/Black students in LAUSD from the lens and perspective of multidisciplinary team members. The file review process consisted of 255 files and revealed patterns of systemic disconnect in addressing student needs, particularly for African American/Black students, who are disproportionately found eligible for special education under the eligibility of an emotional disability.

Key themes included overreliance on emotional disability eligibility classification and non-public school placements, inadequate assessments and interventions, and a disconnect between observed trauma and early interventions. There was also a lack of alignment between behavioral goals, Individualized Education Programs, and culturally sensitive practices in working with parents, families and caregivers. Participants expressed concerns about the current system and emphasized the need for a more student-centered approach that prioritizes early intervention, addresses root causes of behavioral challenges, and involves parents as partners in the process.

Recommendations for improvement included conducting more thorough assessments, focusing on early identification and intervention, building trust and communication with families, reassessing emotional disability eligibility criteria, providing ongoing professional development for staff, and exploring alternative placement options. The patterns and themes that emerged from this file review are in alignment with the root causes identified in previous CCEIS action plans. A potential additional root cause points to the need for monitoring district-wide efforts and putting systems in place to create greater cohesiveness between existing siloed efforts. Please see Appendix B for a summary and recommendations related to this review.

## **IDENTIFY TARGET POPULATION FOR CCEIS SUPPORTS**

Individuals with Disabilities Education Act (IDEA) funds reserved for CCEIS are for students in the LEA who are, "particularly, but not exclusively, children in those groups that were significantly over-identified, including children not currently identified as needing special education or related services but who need additional academic and behavioral support to succeed in a general education environment and children with disabilities." (See 34 *CFR* Section 300.646(d)(2).) "An LEA may not limit comprehensive CEIS...to children with disabilities." (See 34 *CFR* Section 300.646(d)(3).

Please list the LEA selected criteria for the students that will be provided CCEIS with the 2024 CCEIS budget. Include the disaggregated breakdown of the target population by race and ethnicity. When including the criteria, please be clear and concise in the description of the target population.

Criteria for Identifying an Early Education Student as a CCEIS Scholar:

- Step 1: Students will be selected from schools with 18% or more of students representing the indicator student group.
- Step 2: The Desired Results Developmental Profile (DRDP) - If a student has an average score that falls within either the Responding or Exploring ratings for at least one of the following domains they are identified as a CCEIS Scholar: 1) Approaches to Learning Self-Regulation; 2)

Social and Emotional Development; and/or, 3) Physical Development-Health.

- Step 3: The Ages and Stages Questionnaires (ASQ-3) and the Ages and Stages Questionnaires: Social Emotional-2 (ASQ:SE-2) - For students that have an incomplete score profile in one of the three DRDP domains outlined above, the CCEIS leadership team will leverage the ASQ-3 and then the ASQ SE-2, as applicable. Targeting the ASQ-3 domain of Personal-Social, the CCEIS team uses a cutoff score of 26.60, to determine the need for a review of the ASQ:SE-2. For students that require a review of ASQ:SE-2, a monitor cutoff score of 70 or above is used as criteria for CCEIS Scholar status.

Criteria for Identifying a UTK-12th Grade Student as a CCEIS Scholar:

- Step 1: Students will be selected from schools with 18% or more of students representing the indicator student group.
- Step 2: A student must be a Probable Standard English Learner.
- Step 3: A student is required to exhibit a minimum of three of the following indicators:
  - One or more discipline referrals in 2023-2024<sup>2</sup> school year
  - One or more suspensions in 2023-2024<sup>3</sup> school year
  - Chronic absenteeism or 10 or more days absent during the 2023-2024<sup>4</sup> school year
  - Formative Reading Assessment Results:
    - i. DIBELS: Below or Well-Below Benchmark
    - ii. i-Ready: Approaching Grade Level or Needs Improvement
    - iii. Renaissance: Level 1 or 2

Criteria for Identifying a Student for Universal CCEIS Supports as a CCEIS Scholar:

- Step 1: School must have had at least three discipline referrals in the previous two school years.
- Step 2: A student must be a Probable Standard English Learner.
- Step 3: Student selected must exhibit a minimum of two of the following indicators:
  - One or more discipline referrals in the previous two school years
  - Student has not had a Student Support and Progress Team meeting in the 2023-2024 school year
  - Student is a part of the student indicator group
- Step 4: Student selected must exhibit a minimum of one of the following indicators:
  - One or more suspensions in the previous two school years
  - Chronic absenteeism or 10 or more days absent during the previous two school years
  - Student began the initial referral process but has not yet been found eligible for special education
  - Formative Reading Assessment Results:

---

<sup>2</sup> The school year was updated to ensure current student impact. Previously, the school year was 2022-2023. This resulted in updated student counts.

<sup>3</sup> Ibid.

<sup>4</sup> Ibid.

- DIBELS: Below or Well-Below Benchmark
- i-Ready: Approaching Grade Level or Needs Improvement
- Renaissance: Level 1 or 2
- Step 5: Students will be selected from schools with student enrollment of at least one student representing the student indicator group.

**Criteria for Identifying a Student for the Accelerated Learning Academies:**

The criteria for the Accelerated Learning Academies will be adjusted to ensure full CCEIS Scholar impact and that students representing the indicator student group are predominately served. The new process will be as follows:

- Step 1: Students will be selected from schools with 18% or more of students representing the indicator student group.
- Step 2: Student qualifies as a CCEIS Scholar
- Step 3: Prioritize CCEIS Scholar representing the indicator student group
- Step 4: Review Formative Reading Assessment Results:
  - DIBELS: Below or Well-Below Benchmark
  - i-Ready: Approaching Grade Level or Needs Improvement

If any seats remain at the Accelerated Learning Academies after the selection process above, the Accelerated Learning Academies team will allocate remaining seats for CCEIS Scholars and focus on students who exhibit Tier 2–3 literacy challenges, with a particular emphasis on phonological awareness skills.

Complete the table below **using estimates from current student data**. Actual numbers of targeted students served will be provided on the Quarterly Progress and Expenditure Reports.

| Estimated Number of Students to Receive CCEIS <sup>5</sup>                                                                                                                                                                                                                                                   |                                                                                                                           |                                                                                                                       |

| After a careful review of the CCEIS data, there is a need to shift to a cohort model to assist the CCEIS leadership team with identifying the impact for CCEIS Scholars of CCEIS programmatic support and resources. In addition, moving towards a cohort data analysis model, the CCEIS leadership team can |                                                                                                                           |                                                                                                                       |

<sup>5</sup> Sub-groups: Native American (5), Asian (17), African American/Black (1,702), Hispanic (828), Multiple Ethnicities (80), Pacific Islander (4), and White (132).

track the progress and outcomes of specific student groups, observe a group of students over multiple years to assess the long-term impact of CCEIS supports, and identify trends/tailor interventions by cohort of students. Additional cohorts will be established and identified in future quarterly and progress expenditure reports.

- **Cohort A:**

- This cohort represents the total of 2,768 CCEIS Scholars<sup>6</sup>.
- Students in this cohort are either identified previously as a CCEIS Scholar, a new student captured under Universal CCEIS Supports, a new student from the Early Education Centers, or a new student at CCEIS schools that met the 2023-2024 school year criteria for CCEIS Scholar status.
- 36% of K-12 students received a discipline event or suspension during the 2023-2024 school year.

- **Cohort B:**

- This cohort represents 713 CCEIS Scholars<sup>7</sup>.
- Students in this cohort include those that qualify for CCEIS Scholar status under the criteria for Universal CCEIS Supports.

- **Cohort C:**

- This cohort represents 394 CCEIS Scholars<sup>8</sup>.
- Students in this cohort include those that qualify for CCEIS Scholar status under the criteria for an early education student.

- **Cohort D:**

- This cohort represents 141 CCEIS Scholars<sup>9</sup>.
- Students in this cohort include those that were included in the original dataset and remain identified as CCEIS Scholars.
- These students have received CCEIS support the longest.
- 100% of all Cohort D CCEIS Scholars received a discipline event or suspension during the 2023-2024 school year.

- **Cohort E:**

- This cohort represents 400 CCEIS Scholars<sup>10</sup>.
- Students in this cohort include those that were added to the CCEIS Scholar roster after the "refresh" of data.
- These students have not previously received CCEIS supports.

---

<sup>6</sup> Sub-groups: General Education (1,934), Special Education (834), Native American (5), Asian (17), African American/Black (1,702), Hispanic (828), Multiple Ethnicities (80), Pacific Islander (4), and White (132).

<sup>7</sup> Sub-groups: General Education (429), Special Education (284), Native American (0), Asian (0), African American/Black (342), Hispanic (370), Multiple Ethnicities (0), Pacific Islander (1), and White (0).

<sup>8</sup> Sub-groups: General Education (315), Special Education (79), Native American (1), Asian (17), African American/Black (151), Hispanic (13), Multiple Ethnicities (80), Pacific Islander (0), and White (132).

<sup>9</sup> Sub-groups: General Education (97), Special Education (44), Native American (0), Asian (0), African American/Black (108), Hispanic (33), Multiple Ethnicities (0), Pacific Islander (0), and White (0).

<sup>10</sup> Sub-groups: Special Education (118), General Education (282), Native American (2), Asian (0), African American/Black (295), Hispanic (101), Multiple Ethnicities (0), Pacific Islander (2), and White (0).

- 100% of these students received a discipline event or suspension during the 2023–2024 school year.
- **Cohort F:**
  - This cohort represents 1,120 CCEIS Scholars<sup>11</sup>.
  - Students in this cohort include those that no longer qualify for CCEIS Scholar status after the “refresh” of the data. However, given the recent nature of the refresh, CCEIS will continue to provide support to this cohort and monitor their outcomes.
  - 12% of these students received a discipline event or suspension during the 2023–2024 school year.

## IDENTIFY CCEIS TARGET SCHOOLS

To maximize the effectiveness of targeted CCEIS support, there will be no modifications to CCEIS schools for the 2024 CCEIS Action Plan and the selection of 77 targeted CCEIS schools will remain. However, as the CCEIS leadership team has added a new priority focus area, Universal CCEIS Supports, the CCEIS leadership team will be leveraging the work of disproportionality on a newer and larger scale across many systems already in place. As a result, positions with a new universal focus on disproportionality will be partially funded commensurate with the additional time focused on disproportionality. In addition, schools with students that qualify under the criteria for universal CCEIS support will also have access to professional development led by CCEIS. This ensures a focus on the structural and logistical support needed to implement and sustain the expectations of a universal emphasis on disproportionality and addresses the sixth root causes developed for this action plan, lack of cohesive and universal supports to proactively monitor, target, and disrupt disproportionality.

Looking ahead, adjustments to CCEIS schools, CCEIS Scholars, and/or universal support in future action plans, amendments, or quarterly progress and expenditure reports may be considered, based on the most recent demographic data and cohort analyses. These adjustments will ensure that LAUSD’s efforts remain focused and impactful, particularly on the students representing the indicator student group.

### **RATIONALE FOR ANY CHANGES TO THE MEASURABLE OUTCOMES AND ACTIVITIES**

For the new 2024 budget, describe the rationale of any continued, revised, and/or new measurable outcomes and activities listed below.

For the 2024 CCEIS Action Plan, the LAUSD CCEIS leadership team made nine key modifications from the 2023 CCEIS Action Plan that will improve the impact of the CCEIS program<sup>12</sup>. The following is a summary of changes outlined in this action plan:

- Modification 1, Improve Programmatic Goal of CCEIS: An integrated outcome encompasses the original 2023 CCEIS Action Plan goals while emphasizing the interconnectedness of the CCEIS program's overall priorities and supports. A consolidated outcome simplifies the measurement and evaluation process and ensures tracking towards a single, comprehensive outcome, which is more straightforward and provides a clearer picture of the overall impact of the CCEIS program.
- Modification 2, Organize Activities Under Six Priorities: The attainment of the CCEIS outcome will be achieved through targeted activities aligned with six strategic priorities. Expanding the 2024 CCEIS Action Plan into six distinct priorities is a strategic move aimed at enhancing the CCEIS program's overall impact and effectiveness. This approach will focus on bolstering early education interventions, enhancing UTK-12th grade student supports, fostering family and community engagement, strengthening professional development and coaching, and advancing universal support.
- Modification 3, Clarify Building Bridges Supports at Early Education Centers: To strengthen Tier 1 and Tier 2 supports in early education, the Building Bridges program has been further developed. In collaboration with LAUSD's Student Health and Human Services/School Mental Health team, the CCEIS program has expanded the original intent of Building Bridges to provide comprehensive, culturally sensitive, strength-based prevention services to increase protective factors and promote socio-emotional well-being for CCEIS Scholars at Early Education Centers. In addition, the Building Bridges program will assist with building capacity for parents and educators to build a bridge to a strong start on their educational journey within the UTK-12 grade system.
- Modification 4, Clarify Behavior Supports at CCEIS Schools: To increase intentional and robust behavior interventions for CCEIS Scholars at CCEIS schools, the Behavior Support team will pilot a regional support model to provide high-quality support, coaching, and professional development centered on evidence-based strategies and approaches. Increasing behavior interventions and supports will aid in building a unique skill set capacity for educators and staff members who directly support CCEIS Scholars and serve to decrease behavior referrals and suspensions.
- Modification 5, Refresh CCEIS Scholar Criteria: Establishing precise criteria is crucial for ensuring consistent, high-quality services and equitable support for all students in need.
- Modification 6, Adjust Criteria for Accelerated Learning Academies: To ensure the impact on CCEIS Scholars, the CCEIS leadership team revised the Accelerated Learning Academies qualifying criteria and will continuously monitor the student demographics within the Accelerated Learning Academies, adjusting criteria as needed to ensure each criterion identifies and supports predominately students representing the indicator student group. This may include relocating Accelerated Learning Academies to different schools, as necessary.

---

<sup>12</sup> Draft modifications were presented for feedback and input at the April 25, 2024, and August 6, 2024, CCEIS Educational Partners meetings.

- Modification 7, Create a Cohort Model for Measuring CCEIS Impact: After careful review of the CCEIS data, there is a need to shift to a cohort model to assist the CCEIS leadership team with identifying impact of CCEIS programmatic support and resources. In addition, moving towards a cohort data analysis model, the CCEIS leadership team can track the progress and outcomes of specific student groups, observe a group of students over multiple years to assess the long-term impact of CCEIS supports, and identify trends/tailor interventions by a cohort of students. Additional cohorts will be established and identified in future quarterly and progress expenditure reports, as needed.
- Modification 8, Codify List of CCEIS Schools: To maximize the effectiveness of targeted CCEIS support, there will be no modifications to CCEIS schools for the 2024 CCEIS Action Plan. However, as the CCEIS leadership team has added a new priority focus area, Universal CCEIS Supports, the CCEIS leadership team will be leveraging the work of disproportionality on an expanded role across many systems already in place.
- Modification 9, Align Infrastructure to Support CCEIS: As an additional root cause was added, and to maximize the impact of CCEIS Action Plan activities and ensure the incorporation of CDE feedback on LAUSD's staffing model, the CCEIS staffing infrastructure will be adjusted and redefined to disrupt disproportionality on a universal scale, while ensuring a more targeted approach to CCEIS schools.

## 2024 CONTINUING CIM FOR SIG DIS ADDENDUM – 2024 CCEIS BUDGET

Please provide any needed changes to the approved 2023 CIM for CCEIS Action Plan to indicate the activities that will be funded with the 2024 CCEIS budget. Including:

- If needed, adjust measurable outcomes and activities based on data from implementation of the 2023 CIM for CCEIS Plan
- As appropriate, adjust the contents of the 2023 CIM for CCEIS Action Plan to reflect the July 1, 2024–September 30, 2026, CCEIS budget period (update timelines, responsible staff, target population, activities, etc.)
- Continuation Key:
  - **DEEP:** Adding new resources to the 2023 activities with the same students
  - **MOD:** Modifying activities of the 2023 activities with the same students
  - **EXP:** Expanding the students served (e.g., new schools, different grade) with the same target population
  - **EXT:** Extending time of current services to the same group of students through 2026
  - **ADD:** New group of students **or** new activities with the same students due to a new indicator or additional contributing factors unable to address with 2023 CCEIS budget

|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Measurable Outcome        | By September 2026, CCEIS Scholars will experience a comprehensive improvement in their educational environment, demonstrated through a 10 percent decrease in suspension/discipline rates, a reduction in behavior referrals by 20 percent, and an increase in school attendance rates by 10 percent.                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Indicator(s)/Element(s)   | Students with disabilities identified as having an emotional disability and are African American/Black.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Root Causes <sup>13</sup> | <ol style="list-style-type: none"> <li>1. Systemic racism and cultural dissonance result in a culture lacking meaningful student relationships and culturally responsive practices evidenced by explicit and implicit biases.</li> <li>2. Lack of fidelity of discipline policies, procedures, and practices has created a direct pathway to special education.</li> <li>3. Inconsistencies in the Student Support and Progress Team processes result in an inconsistent pre-referral process.</li> <li>4. Lack of consistent interventions and practices for students impacted by trauma.</li> <li>5. Lack of authentic partnership with African American/Black parents and families leading to strained relationships and distrust.</li> </ol> |

<sup>13</sup> See Appendix B for additional detail related to data supporting these six root causes.

## 2023 CCEIS BUDGET AMENDMENT

The 2023 CCEIS Budget does **NOT** need to be amended.

Due to changes in the 2024 Addendum, the 2023 CCEIS Budget will be amended as follows.

| 2023<br>Budget Line Items | Brief Description of<br>2023 CCEIS Activities                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Amount for Each<br>CCEIS Activity |

<sup>14</sup> In the ongoing evaluation and refinement of the CCEIS APEIS role, we recognize the importance of maintaining staff roles and FTEs, especially as it pertains to our efforts under the CCEIS program. However, we also recognize that the CCEIS APEIS position will need to continue to have its role modified for the 2024 CCEIS Action Plan. This will ensure direct and sustained CCEIS Scholar and CCEIS program impact and support an additional focus strand for elementary schools across LAUSD. As the CCEIS team modifies the CCEIS APEIS position, the team will ensure that this position plays a pivotal role in the implementation and expansion of CCEIS Scholar supports and provides a universal mechanism to monitor, target, and disrupt disproportionality. This will ensure that the APEIS role not only meets the objectives of CCEIS but also adapts and grows in response to emergent CCEIS Scholar needs.

\*Services for the same vendor are capped at \$25,000 in the 5800 Budget Line. The remainder must be moved into the 5100 Budget Line.

## 2024 CCEIS BUDGET ALLOCATION

Provide the Fiscal Year 2023–24 allocation awarded for Resource Codes 3310 and 3315.

| 2023 Resource <b>3310</b> Allocation | 2023 Resource <b>3315</b> Allocation |
|--------------------------------------|--------------------------------------|
| \$140,964,635                        | \$5,134,298                          |

Provide the Fiscal Year 2024–25 allocation awarded for Resource Codes 3310 and 3315. Provide the 2024 allocations the Special Education Local Plan Area provided to the identified LEA for resource codes 3310 and 3315. The 15 percent set-aside for CCEIS expenditures will be determined from these two resource codes.

| 2024 Resource <b>3310</b> Allocation | 2024 Resource <b>3315</b> Allocation |
|--------------------------------------|--------------------------------------|
| \$140,964,635                        | \$5,134,298                          |

In the box below, indicate the 15 percent set aside for each of the Fiscal Year 2024–25 allocations the LEA was awarded for resource codes 3310 and 3315:

| 2024 CCEIS Resource 3312<br><b>3312 = 15% of 3310</b> |             | 2024 CCEIS Resource 3318<br><b>3318 = 15% of 3315</b> |               | <b>Total 2024<br/>CIM for CCEIS Budget<br/>(3312 plus 3318)</b> |
|-------------------------------------------------------|-------------|-------------------------------------------------------|---------------|-----------------------------------------------------------------|
| \$21,144,695                                          | <b>plus</b> | \$770,145                                             | <b>equals</b> | \$21,914,840                                                    |

The above 15 percent set-aside amounts will be the 2024–25 CCEIS allocations for resource codes 3310 (CCEIS Resource Code 3312) and 3315 (CCEIS Resource 3318) and should be expended and reported accurately in quarterly CIM for Sig Dis Progress and Expenditure Reports.

## 2024 ALLOWABLE COSTS BUDGET

Please use the Total 2024 CCEIS Budget indicated above to complete the 2024 Allowable Costs Budget. Complete the table below to reflect the **Total 2024 CCEIS Budget** (for CCEIS expenditures) as reported on the 2024 Budget Allocation. CCEIS expenses for 2024 must conform to the U.S. Office of Special Education Programs (OSEP) IDEA Part B Regulations Significant Disproportionality (Equity in IDEA). For detailed allowable CCEIS expenditures, please refer specifically to Questions C-3-1 through C-3-10, pages 19 through 24, on the U.S. Department of Education Web page at <https://sites.ed.gov/idea/files/significant-disproportionality-qa-03-08-17-2.pdf>. The 2024 CCEIS budget period is July 1, 2024, through September 30, 2026. The CCEIS 15 percent set-aside must be fully expended by September 30, 2026.

<sup>15</sup> Two to three hours per week of sustained disproportionality work equates to 5–7% of an APEIS' workweek. Up to 7% of approximately 225 Assistant Principal, Elementary Instructional Specialists (APEIS) FTEs (out of a total of 315) equate up to 15.75 FTE. By adding a disproportionality focus to APEIS roles (approximately 5–7% of weekly time) at schools that qualify for Universal CCEIS Supports, these APEIS staff will act as essential connectors across different educational settings. In elementary settings, they will champion the CCEIS mission, advocating for early and effective intervention strategies that can alter the trajectory of a student's educational journey. As students transition to secondary education, these APEIS staff will help to ensure continuity and consistency in support, helping to mitigate the common challenges that can arise during such transitions. Further, these APEIS staff will serve not only as implementers of the tenets of the CCEIS program but also as spokespersons and liaisons, bridging the gap between school staff, district policy makers, and the broader educational community. This dual function facilitates a more integrated approach to CCEIS and intervention services across LAUSD.

## **Appendix A**

### **Summary and Recommendations Related to the Annual Policies, Practices and Procedures Review**

The review for the 2024 CCEIS Action Plan was conducted in June 2024. The SPP-TAP PPP Matrix tool was used by correlating the LAUSD documents with the listed review policies on the Matrix tool.

Out of the 22 policy documents reviewed, the Technical Assistance Facilitator team recommend the following policy documents be reviewed with an eye towards disrupting disproportionality:

1. Nonpublic School (NPS) Placement Policies and Procedures for Individualized Education Program (IEP) Teams, BUL-5757.3 – Ensure document language addressing NPS certification and that the NPS complies with the district's policies, practices, and procedures.
2. A Multi-Tiered System of Support Framework for the Student Support and Progress Team, BUL-6730.1 – Review universal impact of the Student Support and Progress Team and its overlap with significant disproportionality.
3. Development of the Final Individualized Education Program (IEP) for Students with Disabilities, REF-073512.0 – Ensure inclusion of the Alternative Diploma for students with significant disabilities.
4. Discipline Foundation Policy: Multi-Tiered Systems of Support for Behavior and Social-Emotional Well-Being using Positive Behavior Interventions and Supports/Restorative Practices (PBIS/RP), BUL-133307 – Include changes that address the elimination of suspensions for willful defiance.

## Appendix B

### Summary of Findings and Support for Root Causes

#### **Root Cause #1: Systemic racism and cultural dissonance result in a culture lacking meaningful student relationships and culturally responsive practices evidenced by explicit and implicit biases.**

African American/Black students are identified when they are young. The majority of the students were identified as having a special education eligibility of emotional disability in the 2nd–6th grades. Once identified, many are placed in a nonpublic school or a residential treatment center, which is a restrictive setting with no access to general education curriculum or peers. Nearly 60% of the males and 51% of the female students had attended these types of settings. The grades which students are identified and placed indicate students are placed at the time of eligibility or shortly thereafter. Students were placed in nonpublic schools across all grades with the highest number of placements in the 2nd–6th grades. Once students are placed in a nonpublic school setting, they typically remain in this restrictive setting. The largest numbers of students have or had attended nonpublic schools for 4–6 years.

#### **Root Cause #2: Lack of fidelity of discipline policies, procedures and practices has created a direct pathway to special education.**

The findings indicating 169 students did not have a Functional Behavioral Assessment along with those which indicated students are not always provided counseling interventions for a sufficient amount of time. In addition, family trauma is not considered in many cases, which might lead to fast tracking of students into special education assessments, eligibility, and placements in more restrictive settings.

#### **Root Cause #3: Inconsistencies in the Student Support and Progress Team processes result in an inconsistent pre-referral process.**

#### **Root Cause #4: Lack of consistent interventions and practices for students impacted by trauma.**

The reviewers indicated the following supports for Root Causes #3 and #4:

- Students are not always provided with pre-referral interventions prior to assessments to determine if these supports will be successful.
- Trauma is not always taken into consideration and counseling is not provided to address the social emotional needs as a pre-referral intervention.
- Attendance and behavior concerns are not always addressed prior to assessment for special education.
- Student Support and Progress Team is not gatekeeping and students are fast-tracked into special education.

#### **Root Cause #5: Lack of authentic partnership with African American/Black parents and families leading to strained relationships and distrust.**

The reviewers found the parent voice or participation was minimal in 40–62% of the cases for the

following:

- Initial IEPs
- Current IEPs
- Identification of student as an emotional disability
- Re-evaluation of student

The following is a quote from one of the reviewers: "There is a significant stigma associated with [Los Angeles County Department of Children and Family Services] involvement within the African American community. Parents may fear being judged or labeled as unfit, which can deter them from seeking further assistance, even if it is beneficial for their children." -CCEIS File Reviewer, July 2024

**Root Cause #6: Lack of cohesive and universal supports to proactively monitor, target, and disrupt disproportionate areas of focus.**

Supporting data from file review process:

- Risk ratio continues to exceed 3.0 (target set by the California Department of Education).
- Fifty-three of the respondents indicated the type of school or could not find the information in the file.
- There is a need for a universal system that is adequate to increase parent involvement, monitor the process and ensure students have pre-referral interventions, are not assessed prematurely, are not misidentified as having an emotional disability, and decrease placements in restrictive settings.

**SCHOOL AND STUDENT SELECTION CRITERIA**

Criteria for Identifying an Early Education Student as a CCEIS Scholar:

- Step 1: Students will be selected from schools with 18% or more of students representing the indicator student group.
- Step 2: The Desired Results Developmental Profile (DRDP) - If a student has an average score that falls within either the Responding or Exploring ratings for at least one of the following domains they are identified as a CCEIS Scholar: 1) Approaches to Learning Self-Regulation; 2) Social and Emotional Development; and/or, 3) Physical Development-Health.
- Step 3: The Ages and Stages Questionnaires (ASQ-3) and the Ages and Stages Questionnaires: Social Emotional-2 (ASQ:SE-2) - For students that have an incomplete score profile in one of the three DRDP domains outlined above, the CCEIS leadership team will leverage the ASQ-3 and then the ASQ SE-2, as applicable. Targeting the ASQ-3 domain of Personal-Social, the CCEIS team uses a cutoff score of 26.60, to determine the need for a review of the ASQ:SE-2. For students that require a review of ASQ:SE-2, a monitor cutoff score of 70 or above is used as criteria for CCEIS Scholar status.

Criteria for Identifying a UTK-12th Grade Student as a CCEIS Scholar:

- Step 1: Students will be selected from schools with 18% or more of students representing the indicator student group.
- Step 2: A student must be a Probable Standard English Learner.
- Step 3: A student is required to exhibit a minimum of three of the following indicators:
  - One or more discipline referrals in 2023-2024 school year
  - One or more suspensions in 2023-2024 school year
  - Chronic absenteeism or 10 or more days absent during the 2023-2024 school year
- Formative Reading Assessment Results:
  - DIBELS: Below or Well-Below Benchmark
  - i-Ready: Approaching Grade Level or Needs Improvement
  - Renaissance: Level 1 or 2

Criteria for Identifying a Student for Universal CCEIS Supports as a CCEIS Scholar:

- Step 1: School must have had at least three discipline referrals in the previous two school years.
- Step 2: A student must be a Probable Standard English Learner.
- Step 3: Student selected must exhibit a minimum of two of the following indicators:
  - One or more discipline referrals in the previous two school years
  - Student has not had a Student Support and Progress Team meeting in the 2023-2024 school year

- Student is a part of the student indicator group
- Step 4: Student selected must exhibit a minimum of one of the following indicators:
  - One or more suspensions in the previous two school years
  - Chronic absenteeism or 10 or more days absent during the previous two school years
  - Student began the initial referral process but has not yet been found eligible for special education
  - Formative Reading Assessment Results:
    - DIBELS: Below or Well-Below Benchmark
    - i-Ready: Approaching Grade Level or Needs Improvement
    - Renaissance: Level 1 or 2
- Step 5: Students will be selected from schools with student enrollment of at least one student representing the student indicator group.
