FY24 Capital Facilities Fund (School Impact Fees) Annual Accounting Report

December 10, 2024

Office of the Chief Financial Officer

Action Proposed:

Adopt the attached resolution (Attachment A) regarding the Capital Facilities Fund Annual Accounting Report (Attachment B) in accordance with Government Code Sections 66000 et seq.

Background:

Education Code Section 17620 allows school districts to assess fees on residential and commercial construction within their respective boundaries when a reasonable relationship exists between the need for new or reconstructed school facilities and resident, commercial, and industrial development. These fees are paid by property owners and developers to school districts to mitigate the impact created by new development within a school district's boundaries on the school facilities.

School impact fees may be used only for the (a) construction and reconstruction of school facilities, (b) costs associated with conducting any study, finding, needs analysis or determination required as part of the process to adopt the school impact fees, (c) costs for administering the fee, and (d) costs associated with conducting the meeting(s) required for levying a fee. Education Code section 17620 clarifies that the "construction or reconstruction of school facilities" does not encompass: (a) regular maintenance or routine repair of school buildings and facilities, (b) the inspection, sampling, analysis, encapsulation, or removal of asbestos-containing materials except where incidental to school facilities construction or reconstruction, or (c) or deferred maintenance.

Per policy (Board Report No. 240-23/24), once the costs related to administering the school impact fees and fulfilling the required analysis and reporting duties have been subtracted, the adjusted school impact fees shall be used on permissible projects that have already been approved by the Board of Education. These projects and associated funding shall be incorporated into the Facilities Services Division (Facilities) Strategic Execution Plan (SEP) unless the project's budget does not include bond funding.

Attachment C lists the FY24 expenditures for construction and reconstruction of school facilities expenditures on permissible projects that have been approved by the Board and incorporated into the Facilities SEP.

Per Government Code section 66000 et seq., a school district that collects school impact fees is obliged to provide an annual financial report of fees collected, including starting and ending balances, collected fee amounts, and interest earned. This report must be submitted within 180 days after the conclusion of each fiscal year (refer to Attachments B and C).

File #: Rep-133-24/25, **Version:** 1

Expected Outcomes:

The District shall be in compliance with Government Code Sections 66000 et seq.

Board Options and Consequences:

If the Board does not adopt the resolution regarding the annual accounting report, the District shall be out of compliance with the requirements of Government Code Sections 66000 et seq. This may negatively impact the District's ability to assess school impact fees or require the refunding of unspent school impact fees proceeds.

Policy Implications:

In accordance with the School Impact Fees Policy, the Chief Financial Officer is presenting the annual accounting report of the Capital Facilities Fund's beginning and ending balances, fees collected, interest and other income received, expenditures by project and refunds made for fiscal year 2024.

Budget Impact:

None.

Student Impact:

School impact fees assessed upon new residential, commercial or industrial development projects located within District boundaries are used to provide funds for construction and reconstruction of school facilities to accommodate students generated from new development projects. School impact fees are only allocated to permissible projects that have already been approved by the Board. These projects are incorporated into the Facilities SEP unless the project's budget does not include local bond funding. Projects funded in full or partially by School Impact Fee revenue, may provide additional capacity to accommodate an increase in students in a certain neighborhood(s) and/or provide reconstructed/modernized school facilities to ensure schools are safe and can be occupied, and that the District can maintain existing levels of service for students, and has facilities in place to accommodate additional students from residential developments.

Equity Impact:

Not applicable.

Issues and Analysis:

None.

RESOLUTION OF THE BOARD OF EDUCATION OF THE LOS ANGELES UNIFIED SCHOOL DISTRICT ADOPTING THE ANNUAL ACCOUNTING REPORT

WHEREAS, pursuant to its authority under Education Code Sections 17620 et seq. and Government Code Sections 65995 et seq., the District has assessed residential school impact fees and commercial/industrial school impact fees on construction and reconstruction projects within its boundaries; and

WHEREAS, the District has placed all fees it has received from such assessments in a separate non-co-mingled capital facilities fund (hereinafter the “Capital Facilities Fund”) established for such purposes pursuant to Government Code Section 66000 et seq; and

WHEREAS, the District has made available to the public within one hundred and eighty (180) days after the last day of its fiscal year, an Annual Capital Facilities Fund Accounting Report (hereinafter “Annual Accounting Report”) which describes the type of Capital Facilities Fund into which school impact fees were placed, the amount of the fee, the beginning and ending balances of this Fund, the amount of fees collected and interest earned, the identification of expenditures made by project; and

WHEREAS, the Annual Accounting Report has determined that in FY24, no refunds were made due to unexpended school impact fees; and

WHEREAS, the District has, at least 15 days prior to the Board of Education meeting, made the Annual Accounting Report available to the public by making it available at the Board Secretariat’s Office, the Controller’s Office, and the Developer Fee Program Office; and

WHEREAS, the District has not received any written requests from interested parties for a mailed notice of this meeting; therefore, be it

RESOLVED, that the Board adopts the Capital Facilities Fund (School Impact Fees) Annual Accounting Report which is attached as Attachment B.

ADOPTED this ____ day of _____ 2024.

* The project at South Gate MS is part of the scope of the International Studies Learning Center Addition project.

** Construction completed, pending closeout. The completion date typically refers to the conclusion of the main construction contract or scope of the project at which point the school is ready for student occupancy. After this date, trailing charges may persist related to punchlist items, entitlement work, permit closeout and legal and labor compliance issues that need to be paid before the project can be completely closed out.

*** Due to updated disclosure requirements beginning January 1, 2024, the methodology for determining the start date of each project has been updated in FY24 to use the Notice to Proceed date instead of the DSA Approval date. This date most accurately portrays the actual start date of the project. The estimated construction start date represents the construction start date that appears on the Board Report for each project. Apart from this update in methodology, actual construction start dates differ from the estimated start dates due to additional scope added to the project.
