Approval of the California Community Schools Partnership Program Grant Award

December 10, 2024

Division of Instruction

Action Proposed:

Ratification for the California Community Schools Partnership Program (CCSPP) Implementation Grant, Cohort 3 for a total grant award of \$8,550,000 over a five-year period. The grant award continues through June 30, 2029.

Background:

In the winter of 2023, the State of California announced a competitive grant opportunity for all California LEAs to support and expand the implementation of existing community schools. Los Angeles Unified School District, in conjunction with United Teachers Los Angeles and UNITE-LA, submitted an application on February 9, 2024. In May 2024, a total of \$8,550,000 was awarded.

Expected Outcomes:

- Increased attendance
- Increased academic achievement
- Increased parent engagement
- Increased whole child wellness

Board Options and Consequences:

The Board has the option of voting “yes” to receive these funds or voting “no” to decline these funds.

A “NO” vote would impede progress toward transformational change within seven (7) schools and hinder the ability of the Community Schools Initiative to provide the full experience of an evidence-informed school improvement framework centering on four pillars that, when combined, create the conditions necessary for students to thrive academically, socially, and emotionally.

A “YES” vote would allow seven (7) schools access to supplementary funds for the purpose of providing enriched learning opportunities to increase student agency and achievement, increase collaborative leadership practices, enhance parent engagement, and expand integrated student supports.

Policy Implications:

There are no policy implications.

Budget Impact:

Matching and/or in-kind funds equal to 33% (or a total of \$2,821,500 over the life of the grant) must be provided annually through June 30, 2029. The District currently allocates \$250,000 of general funds annually to each community school (projected to 70 schools in 2025-26), or \$17.5 million across all community schools

File #: Rep-134-24/25, **Version:** 1

annually. As the District's existing investments in community schools already exceed the matching requirement, there is no new budget impact to receiving this grant.

Student Impact:

The California Community School Partnership Program Grant (CCSPP) will strengthen the development of community partnerships and engagement integral in improving student learning outcomes under the Community School model at seven (7) Community Schools (CS) which became LAUSD Community Schools in 2024.

Equity Impact:

Component	Score	Score Rationale
Recognition	4	This grant affirmatively recognizes historical inequities by supporting work at 7 designated Community Schools selected based on a rubric recognizing historical inequities.
Resource Prioritization	4	This grant effectively prioritizes resources based on student need as all Community Schools approved by the Calif. Dept. of Ed. have a high “unduplicated count” rate.
Results	3	The grant’s support of LAUSD’s Community Schools effort is likely to result in closing the achievement gap as the monies will be utilized in support of evidence-based strategies that will help drive the District’s Community Schools initiative. Based on national data, Community Schools have greater achievement gains than non-community schools.
TOTAL	11	

Issues and Analysis:

None
