Board of Education Report

File #: Rep-136-23/24, **Version:** 1

Approval of the City of West Hollywood Education Compact

December 12, 2023

Office of Government Relations

Action Proposed:

Authorize the Education Compact with the City of West Hollywood. As part of the 2022-2026 Strategic Plan for the Los Angeles Unified School District, new education compacts are to be established between the District and local governmental entities. Education Compacts with the municipal governments are intended to align resources and implement innovative programs to equip our students with the tools they need to be Ready for the World.

Background:

Through these Education Compacts, each city and the District will collaborate to meet the educational needs of youth and families in the respective city through the end of the District's Strategic Plan (June 2026). The city and the District may choose to revisit the Compact after June 2026 to renew their shared commitments to students and families.

The commitments outlined in the Education Compact are not legally binding nor do they mandate budgetary expenditures on behalf of the Parties. They represent a shared philosophical goal of improving the educational opportunities and enriching the lives of children and families attending District sites living within the city.

The Office of Government Relations (OGR) will continue discussions with other municipalities to finalize Education Compacts that can be brought forth for Board approval at a future meeting.

Expected Outcomes:

The approved Education Compacts will result in a coherent agenda that OGR, Region Offices and the respective District Divisions will promote and advance by strengthening collaboration with each municipality to deliver on the commitments outlined in the shared vision.

Board Options and Consequences:

Approval will allow OGR, Region Offices and the respective District Divisions to proceed in a timely manner to deliver on the commitments outlined in the shared vision. Delay in approval will delay the opportunity to strengthen these partnerships

Policy Implications:

The Education Compacts are in alignment with the district's 2022-26 Strategic Plan.

Budget Impact:

No budgetary expenditures are outlined in the Education Compacts.

File #: Rep-136-23/24, **Version:** 1

Student Impact:

The Education Compact supports students and families through strengthening partnerships between the city and the District. Such partnership ensures a coherent and joint effort to support student success.

Equity Impact:

Component	Score	Score Rationale
Recognition	3	The Education Compacts may establish partnerships between the District and the City of Los Angeles as well as the smaller and less representative cities and communities that also serve our student population. While approximately around 21% of Los Angeles Unified students attend schools outside of the City of Los Angeles, it is equally important for the District to continue to pursue collaborative efforts with the other cities and unincorporated communities represented by the Los Angeles County Board of Supervisors.
Resource Prioritization	3	Pursuing these partnerships would mean that our programs and initiatives are also being replicated in other communities outside the City of Los Angeles, ultimately broadening opportunities and services to students and families in a more equitable way.
Results	2	The Education Compacts represent a shared philosophical goal of improving the educational opportunities and enriching the lives of children and families attending District sites within respective cities and unincorporated communities, however the commitments are not legally binding, nor do they mandate financial obligations.

NOLBERTO DELGADILLO
Deputy Chief Business Officer, Finance

☒ Approved as to budget impact statement.

**EDUCATION COMPACT BETWEEN
THE LOS ANGELES UNIFIED SCHOOL DISTRICT
AND THE CITY OF WEST HOLLYWOOD**

As part of the 2022-2026 Strategic Plan for the Los Angeles Unified School District (“District” or “Los Angeles Unified”), new education compacts are to be established between the District and local governmental entities. Education Compacts with the municipal governments in the West region are intended to align resources and implement innovative programs to equip our students with the tools they need to be ready for the world.

As a member of the West region, the City of West Hollywood (“City”), is served by the District and accounts for a student enrollment of 1,925 (Los Angeles Unified SY 23-24 Enrollment). The City of West Hollywood has 35,678 residents (2020 US Census) and expands a total area of 1.9 square miles. Students who live in the City of West Hollywood attend these and other schools: West Hollywood Elementary School, Rosewood Elementary School, Melrose Magnet Elementary School, Gardner Street Elementary School, and Bancroft Middle School, Laurel Span School and Fairfax High School. The District and the City may each be referred to, individually, herein as a “Party” or, collectively, as “the Parties.”

Through this Education Compact (“Compact”), the City and the District will collaborate to meet the educational needs of youth and families in the City through the end of the District’s Strategic Plan (June 2026). The City and the District may choose to revisit the Compact after June 2026 to renew their shared commitments to students and families of the City of West Hollywood.

The commitments outlined are not legally binding, nor do they mandate budgetary expenditures on behalf of the Parties. They represent a shared philosophical goal of improving educational opportunities and enriching the lives of children and families attending District sites or living within the City. The Parties recognize there may be financial expenditures associated with one or all the following aspects, however any financial expenditure shall not be made unless the responsible Party’s governing board has authorized the expenditure through its budgetary process and shall be voluntary in nature.

The Compact between the District and the City will undertake efforts that would be enriched, expedited, or enhanced through collaborative efforts in the following areas:

1. Communications and Ongoing Engagement
2. Enrollment and Positive Attendance
3. Crossing Guards and Other Traffic Safety Improvements
4. Safe and Positive School Climate
5. Student Health and Medical Services
6. Parent and Family Engagement
7. Academics and Expanded Learning
8. Connectivity
9. Facilities
10. Transportation
11. Other

Communications and Ongoing Engagement

- The City and the District will work jointly to feature information on the City's website that connects to up-to-date details posted on Los Angeles Unified websites about schools and districtwide initiatives. The District will also work with the City to share updates about City events, news, and City-led programs with Los Angeles Unified students, families, and staff. Concerted efforts will be made to share information, as appropriate, via social media and other communication channels.
- The City and District will promote educational initiatives to local businesses and chambers of commerce to encourage volunteering, mentorship and other opportunities to support local students and education.
- The City will continue to convene the **West Hollywood Children's Roundtable**, which meets regularly throughout the school year. Participants include school principals, educators, non-profit organizations, parents, and others focused on the needs of children and families in West Hollywood. The Children's Roundtable has been meeting for more than 25 years and offers a place for information sharing, in-service trainings, interactive presentations, and other special programming available to school-age children and their families.

Enrollment and Positive Attendance

- The City will support the District in student recruitment campaigns for District-operated schools in the City.
- The City and District will collaborate on programs, annual attendance campaigns, and other events that support school attendance to ensure all school-aged youth are enrolled in District-operated schools.

Crossing Guards and Other Traffic Safety Improvements

- The City will continue to support safe passages for students and families at West Hollywood and Rosewood elementary schools by funding and managing a contract totaling \$86,461 for crossing guard services at both campuses.
- The District will support the City's efforts to manage the contract for crossing guard services by providing information and facilitating opportunities for school community engagement as part of the City's annual evaluation of the crossing guard program.
- The District will provide additional support and training for the Traffic Safety Valet programs at elementary school sites experiencing traffic safety needs by reviewing traffic and pedestrian incident data and identifying schools in need of outreach. The District will also promote the Traffic Safety Valet program by distributing flyers when visiting elementary schools, during our safe school inspections, and meetings with principals.
- The District will work with the City to address traffic concerns related to school drop-off and pick-up, including exploring additional opportunities to reduce traffic congestion and enhance pedestrian safety.
- The District will provide additional support by sharing Reference Guide, 4492.2, School Traffic Safety, with school administrators, which details the guidelines for requesting traffic surveys, speed limit signs, pavement markings, crossing guards, and other assistance to resolve traffic safety issues. Los Angeles Unified Office of Environmental Health and Safety (OEHS) will liaise between the City and school administrators and make requests on behalf of schools.

Safe and Positive School Climate

- The District will continue to facilitate School Safety Collaborative meetings between City personnel, the District and other partners to discuss various issues impacting the school community, including but not limited to, updates on school construction and operational projects, school safety, safe passages to and from school, educational and community events, and opportunities to collaborate on seeking community partner, city and school collaborations.
- The District/Los Angeles School Police Department and City will identify a Law Enforcement Liaison officer from each of the respective law enforcement departments to ensure coordinated approach on issues related to youth, crime prevention and other relevant safety and area school consistent with Section 32281 (f)(1) of the California Education Code.
- The District/Los Angeles School Police Department and City will explore the possibility of entering into data-sharing agreements to assess the status of school crimes, if any, with a goal of helping to prevent crimes and improve coordination consistent with Section 32282 (a)(1) of the California Education Code.

Student Health and Medical Services

- The District, in partnership with the City, will explore the feasibility of bringing additional student health and mental health services and entities to provide whole child and school community services.

Parent and Family Engagement

- The District will develop specialized classes/workshops that address the needs of families in the West Hollywood community through the Family Academy. The City will promote these classes and workshops to these families and community members at large.
- The District will develop a training program for City personnel on the District's Parent Portal/District App and School Volunteer Program procedures.

Academics and Expanded Learning Programs

- The District will work jointly with the City to promote the District's various academic and enrichment programs to students and families in the West Hollywood community, including the tutoring program, summer programming, Beyond the Bell and Expanded Learning Opportunities Programs.
- The District will work with the City to support programs that will assist students in bridging academic voids that may exist due to digital inequities, pandemic effects, or other outside effects that would negatively impact the learning environment.
- The District will offer the Cultural Arts Passport to students in the West Hollywood community.
- The City will continue to contract with a garden specialist who conducts outdoor educational gardening programs with students at the District's West Hollywood area schools. The garden specialist teaches students about sowing seeds, growing plants, and the importance of good nutrition. Through hands-on experiential gardening activities, students learn to create, establish, and maintain their school garden throughout the year.

Connectivity

- The District's Information Technology Services (ITS) commits to continuing to provide connectivity to students and families with an identified unmet need through All Families Connected or other affordable and free options to ensure all families have access to reliable high-speed internet.
- The District will explore expanding Digital Divide partnerships into the City and the County of Los Angeles to explore ways to support connectivity infrastructure, expand affordable broadband and implement data sharing agreements to address the digital deserts.

Facilities

- The District and City will continue to collaborate to provide access to and use of District and City facilities for community meetings and events, and cultural and historic programs, among other facility use needs that benefit students and families. This may include exploring a partnership to open West Hollywood Elementary School as a Community School Park to provide recreational opportunities for students and families.
- The City recently directed \$85,768.72 to West Hollywood Elementary School to cover the costs of repainting the school's playground with solar reflective paint. This investment aligns with the City's Climate Action Plan and its ongoing commitment to supporting our local schools.
- The District's over twenty-year construction program will continue to rely heavily on its commitment to meaningful engagement by bringing timely and accurate information to all stakeholders (students, parents, teachers/administrators, key stakeholders, local municipalities and elected officials) and collecting feedback that guides the District's decision-making.
- As part of an existing Request for Expressions of Interest, the District is committed to assessing and identifying the possibilities, opportunities, and interest that may exist to better utilize its land to bring greater benefit to its employees, families, and the District itself. This includes examining the potential development of workforce/affordable housing at nine District-owned properties, including the parcel of land located at 1049 N. Fairfax Avenue, West Hollywood, CA 90046. The District may solicit support from the City in an expeditious review of any projects that move forward on the site as part of the District's housing initiative.
- The City, as part of its annual **Martin Luther King, Jr. Day of Service**, will provide funding, volunteers and in-kind donations to support campus beautification and other enhancements at West Hollywood Elementary School. This event brings together City stakeholders and school faculty/staff and parents together in a common effort to support this local school. This partnership began in 2012 and has been the City's annual commemoration of MLK day since 2014. Over that time, approximately 1,220 community volunteers have participated, and the City has provided more than \$58,000 of in-kind support, plus staffing resources. These efforts have included funding the design and installation of two large murals and collaborating on MLK Day of Service in-classroom learning and an art contest.

Transportation

- The City will continue to offer its School Bus Trip program, available to schools in and around West Hollywood, that supports enriching student activities by covering 100% of the cost of school buses for field trips.
- The District will work jointly with the City to promote City-funded transit services that are available to Los Angeles Unified students and families who live in and around West Hollywood.
- The City will support the District in promoting the District's free Metro passes from the Metro GoPass Program for students, by promoting it at community events, newsletters, and on the City's website if the pilot program is continued.

Other

- The City will offer its **Grants in the Schools** program, which alleviates some of the budgetary constraints faced by local public schools by providing small grants to preschool through high school for such things as educational materials, cultural and arts programming, field trips, and professional development. This program operates annually, and schools can apply for grants of up to \$3,000.
- The City, recognizing the importance of education to our community, will continue to support local students interested in pursuing their education beyond high school. The **West Hollywood Youth Scholarship Program** awards \$2,000 to graduating high school students who are West Hollywood residents and have completed 150 hours of community service.
- The District will examine how to strengthen the collection of developer fees for all new residential, commercial, and industrial construction projects within the school district boundaries, including opportunities for increased collaboration with the City in support of these efforts to collect and transmit developer fees for construction projects in the City.

APPENDIX

All Families Connected

All Families Connected is a program to help ensure every student has reliable access to high-speed internet at home as well as at school. Made possible in large part by one-time federal funding, the program is helping provide students with the access they need at home to complete assignments, interact with peers, track their progress, and more. Thousands of families are eligible for this service at no cost to them. There are no income requirements. All that is necessary is for a family to inform the District that there are unmet needs in the home and to request support.

This is how it works: Parents/guardians can log on to lausd.org/connect and answer a few questions about computing device and internet connectivity needs. For those whose needs are not being met, our teams check in with contracted service providers to determine services available. The provider then reaches out to eligible families to assist with establishing service, and the District covers all costs.

Families may go to: lausd.org/connect for more information or to sign up for service.

Cultural Arts Passport

The Los Angeles Unified Cultural Arts Passport is a program to provide students access to the Arts. In partnership with Southern California's finest cultural organizations and venues, the Cultural Arts Passport program ensures equal access to arts, culture and environmental experiences for every child. The Cultural Arts Passport is partially supported through generous monetary and in-kind donations from the community. Founding partners who generously support the initiative include The Broad Foundation, Creative Arts Agency, the Fender Play Foundation and other cultural institutions.

Digital Divide Partnerships

The District has existing partnerships around infrastructure to create a city-wide or community infrastructure for wireless connectivity. One example of this has been a partnership with the Los Angeles City Lighting Bureau, which focused on extending the network from District schools to city light poles. Furthermore, the District has also developed partnerships with LTE/5G and fixed broadband such as Verizon, AT&T and Spectrum to allow piggyback on our contracts with very affordable pricing for other governmental entities. Lastly, the District has partnerships with multiple entities on data sharing to help and identify hotspots and digital deserts around Los Angeles County, given that the District is the only entity with access to valuable datasets relating to family usage and service providers' capacity.

Everyone Mentors LA

Everyone Mentors LA is a new mentoring initiative by Los Angeles Unified that will invest in the lives of historically underserved students to ensure every student graduates Ready for the World. The new initiative will match students contending with declining grades, chronic absenteeism, a need for socio-emotional support and other challenges that have inhibited their academic success with a mentor from the Los Angeles community. More information on this program can be found at lausd.org/everyonementors.

Family Academy

The Los Angeles Unified Family Academy is designed to leverage families' assets to be empowered as they support their child from the early primary years to college and career success. This effort complements family knowledge by connecting them to actionable learning focused on their child's development, as well as opportunities to accelerate their own careers and quality of livelihood. Families may expand and share prior knowledge with other parent leaders by attending learning segments offered by the Family Academy course catalog, which offers webinar and regional segments hosted in-person. The course catalog is available at lausd.org/familyacademy

A second path to learning with the Family Academy is through four family courses which are geared for the following family audiences: youngest learners, multilingual learners, twice exceptional, and Black and African-American students. The curriculum is organized as a 7-class course experience where families engage in a culturally relevant curriculum, in a cohort learning environment, define family engagement, and develop their action plan to stay engaged in their child's education. Course registration information is available at lausd.org/familyacademy.

Families may also contact the Los Angeles Unified Family Hotline for more information: 213-443-1300.

Traffic Safety Valet Program

The Los Angeles Unified Safety Valet program is designed to help improve student safety and provide more fluid movement of vehicular traffic around schools during the morning drop off. A Valet directs drivers through a queue of traffic cones where volunteers assist students to safely exit the car. This eliminates the need for parents to exit their vehicles and for students to cross busy intersections.
