Board of Education Report

File #: Rep-092-23/24, **Version:** 1

Approval of the Proposed Material Revision for New Horizons Charter Academy

December 12, 2023

Charter Schools Division

Action Proposed:

Approve the material revision of the charter for New Horizons Charter Academy (“Charter School”), to relocate to a private site. The proposed facility is located at 14701 Friar Street, Van Nuys, CA 91411, in Board District 3 and Region North. The recommendation for approval is based on the information set forth in the attached Staff Assessment and Recommendation Report.

Background:

New Horizons Charter Academy is a TK-8 school serving 197 students currently on the campus of Fair Avenue ES, as a co-location through Proposition 39, in North Hollywood at 6501 Fair Avenue, North Hollywood, CA 91601 in Board District 6 and Region North. New Horizons Charter Academy was approved by the LAUSD Board of Education on April 16, 2013. On November 7, 2017, the charter school was renewed for another five-year term to serve 300 students in grades TK-8.

On September 26, 2023, the Charter Schools Division commenced processing of New Horizons Charter Academy’s complete material revision. New Horizons Charter Academy seeks to revise its current charter, which expires June 30, 2026. Effective July 1, 2021, pursuant to Education Code section 47607.4, all charter schools whose term expires on or between January 1, 2022, and June 30, 2025, inclusive, shall have their term extended by two years, and all charter schools whose term expires on or between January 1, 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year. Thus, by operation of law, the charter term for New Horizons Charter Academy expires June 30, 2026.

Based on a comprehensive review of the material revision application and supporting documentation, staff has determined that the charter school has met the standards and criteria set forth in Education Code section 47605 and therefore recommends approval of the material revision of the charter.

Expected Outcomes:

Charter School is expected to operate its school in a manner consistent with Board action, policies and requirements, and local, state, and federal law including ordinances, statutes, and regulations as well as with the terms and conditions set forth in Charter School’s petition. The measurable pupil outcomes and method by which pupil progress toward outcomes will be measured are set forth in the charter petition.

Board Options and Consequences:

“Yes” - If the Board adopts the recommendation of approval of the material revision of the charter, Charter School would continue to operate as a charter school, under the terms of the amended charter, commencing in the 2024-2025 school year..

“No” - If the Board does not adopt the recommendation of approval of the material revision of the charter, and instead takes specific action to deny the proposed material revision of the charter, Charter School would continue to operate under the terms of its current charter consistently with the Board’s action and direction.

Policy Implications:

There are no policy implications at this time.

Budget Impact:

State income and various other income sources to the District are reduced when current District students enroll at a charter school, and comparable or offsetting expenditure reduction may not occur in such cases. Under Education Code section 47604(d), a chartering authority that grants a charter to a charter school to be operated as or by a nonprofit public benefit corporation is not liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors, or omissions by the charter school if the chartering authority has complied with all oversight responsibilities required by law including, but not limited to, those required by Education Code section 47604.32 and Education Code section 47605(m). As the chartering authority, the District will continue to monitor and evaluate the charter school’s fiscal condition and operations, and management of public funds, including review of all legally required fiscal reports, and the annual update of the charter school’s LCAP. (Ed. Code, §§ 47604.32, 47604.33, 47606.5). Any significant modifications to the charter school’s charter or operations that raise financial implications would require a material revision prior to implementation. Petition approval is also contingent upon adequate liability insurance coverage.

Charter School has selected to join the LAUSD Special Education Local Planning Area (SELPA) Option 3. Charter School’s fair share contribution to special education will be 10% of the charter school’s AB 602 (rate includes Base, Cost-of-Living Adjustment (COLA), and Growth/Decline reduced by the amount withheld for Program Specialist/Regionalized Services) and Federal IDEA revenues. This amount will be paid from Charter School’s Local Control Funding Formula (“LCFF”) funds or other unrestricted revenue sources and will be allocated to support the existing District-wide administration of special education supports and services. The amount withheld by the District from the Program Specialist/Regionalized Services in fiscal year will continue to be withheld and adjusted annually for COLA. An additional 10% of special education revenues will be retained by the District and allocated as directed by the Advisory Board and members of the LAUSD SELPA Option 3, with the leadership of the Director, Charter Operated Programs. These funds will be used to support the personnel for the members of the LAUSD SELPA Option 3; build management and operating procedures to create an infrastructure to support schools in meeting the needs of students with mild to severe disabilities; and, to create and implement new programs that serve students in charter schools. If Charter School does not spend their allocation of special education funds during a fiscal year of the charter petition period, the allocation of special education funds to Charter School for the next fiscal year will be reduced in an amount equal to the unspent special education funds of the previous fiscal year.

In addition to the payments required under this option, Charter School may request specific special education related services from the District through fee-for-service arrangements that will reflect the calculated cost of the requested services and will be contingent on the District’s available resources.

Any change in the Option election that occurs during Charter School’s charter term shall be mutually agreed upon and addressed in an MOU between the charter school and the District. The new Option election shall be effective on July 1 of the next school year with the corresponding fair share contribution.

Staff’s fiscal impact analysis is calculated based on multiple sourced assumptions (as reflected below) to provide a projection of New Horizons Charter Academy’s potential fiscal impact on existing District schools in

the proposed community.

Given the various factors described below, New Horizons' material revision request is not likely to have a significant fiscal impact on the 38 existing District and charter schools. These factors include: New Horizons Charter Academy's proposed move is within an approximate four-mile radius from its current community, which partially overlaps with the proposed community; the school reports that its current student population comprises students who live within the attendance boundaries of over 40 different LAUSD resident schools, including over 30 students residing in the Van Nuys/Valley Glen community in which the proposed site is located; and the charter school anticipates that most of its current students in TK-7 would move with the school. Under these circumstances, the budget assumptions and the community fiscal impact analysis described below are for illustrative purposes only.

Based on New Horizons Charter Academy's projected enrollment (262 and 275 students for Fiscal Years 2024-2025 and 2025-2026, respectively), the estimated total revenue loss, collectively, for the District's schools could be \$7,921,820 over the period of New Horizons Charter Academy's remaining charter term. Additionally, the aggregate fiscal impact on District and charter schools in the proposed community could be \$8,331,619 for the corresponding school years. Because District revenue is associated with ADA rather than enrollment (See 5 C.C.R. § 402), the estimated District revenue loss is not directly proportionally associated with the number of students who would attend the charter school. Additionally, as a result of lower enrollment to the District schools, any loss of revenue may be offset by possible reductions in expenditures for the District's services and programs.

As noted above, the budget assumptions and the community fiscal impact analysis are for illustrative purposes only based on New Horizons Charter Academy's current student population and residents, and the overlapping community sectors described above. Under these circumstances, New Horizons Charter Academy's material revision request is deemed to have a limited to partial fiscal impact.

Currently, there are five (5) other LAUSD-authorized independent charter schools within the proposed community serving one or more of the same grade levels (Grades TK-8) as New Horizons Charter Academy.

Student Impact:

As stated in the *LAUSD Policy and Procedures for Charter Schools*, "[W]hen the LAUSD Board authorizes and oversees a charter school, it establishes a relationship to advance its vision and mission and to accelerate gains in academic achievement and accountability for *all* of its students and public schools," (*Policy*, p.3). Based on a comprehensive review and assessment of Charter School's request for material revision of the charter and its record of performance, staff has determined that Charter School has met the requirements for approval of the material revision.

Equity Impact:

Not applicable

Issues and Analysis:

If all applicable pending issues, including but not limited to special education requirements, special education local planning area (SELPA) requirements, governance, fiscal and facilities matters, are not resolved at the time of the Board meeting, the item may be pulled from the agenda as consistent with Education Code sections 47605 and 47607 and the *LAUSD Policy and Procedures for Charter Schools*.

STAFF ASSESSMENT AND RECOMMENDATION REPORT

REQUEST FOR MATERIAL REVISION OF CHARTER

Board of Education Report 092-23/24

December 12, 2023

School Name:	New Horizons Charter Academy		
Type of Charter School:	Start-Up Independent Charter School		
Charter Operator	Dharma Educational Institute		
Location Code:	2263		
Type of Site(s):	Proposition 39 Co-Location		
Site Address(es):	6501 Fair Avenue, North Hollywood, CA 91601 (Fair Avenue ES Campus)		
Board District(s):	6	Region(s):	North
Grade Levels Served:	TK-8	Current Enrollment:	195
Grade Levels Authorized in Current Charter:	TK-8	Approved Enrollment in Current Charter:	300
CONSIDERATION:	Material Revision to Relocate School to a New Facility		
CDE PERFORMANCE LEVEL: (PER CDE'S 2020 CLASSIFICATION)	Middle Performing		
STAFF RECOMMENDATION:	Approval		

STAFF ASSESSMENT

I. ACTION PROPOSED

Staff recommends approval of the proposed material revision of the charter for New Horizons Charter Academy ("New Horizons" or "Charter School"), a TK-8 span school located in Board District 6 and Region North, to move from its current Proposition 39 co-location to a new facility, which is a private site. The proposed facility is located at 14701 Friar Street, Van Nuys, CA 91411, in Board District 3 and Region North.

Dharma Educational Institute, the California nonprofit public benefit corporation that holds the charter under the ultimate direction of the board of directors, seeks the proposed relocation to a larger private site. Charter School proposes to begin operations at the private site in the 2024-2025 school year.

II. CRITERIA FOR MATERIAL REVISIONS

Material revisions are governed by the same standards and criteria that apply to new petitions (See Ed. Code, §§47605 and 47607.) If the material revision contains a request to expand to one or more additional sites, or to add grade levels, staff must also determine whether the charter school is demonstrably unlikely to serve the interests of the entire community in which the school is proposing to locate. (See Ed. Code, § 47605(c)(7); Ed. Code, § 47607(a)(3) and (4)), and whether LAUSD is positioned to absorb the fiscal impact of the charter school expansion. (See Ed. Code, § 47605(c)(8); Ed. Code § 47607(a)(3) and (4).) Based on a comprehensive review of the material revision application, staff has determined that the material revision application has met the standards and

criteria for approval [described in Education Code section 47605] or were determined not to be a basis for denial of the material revision application. Staff analysis includes the following:

- Does the petition, as revised, include a sound educational program, a reasonably comprehensive description of the 15 elements required for petitions, an affirmation of each of the conditions described in Education Code section 47605(e), and are petitioners demonstrably likely to successfully implement the program set forth in the petition?
These criteria have been determined not to be bases for denial.
- Does the petition contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school?
This requirement has been determined not to be a basis for denial.
- Is the proposed charter school demonstrably likely to serve the interests of the entire community in which the school is proposing to locate? (Ed. Code, § 47605(c)(7).)
This criterion has been determined not to be a basis for denial.
- Is the school district positioned to absorb the fiscal impact of the proposed charter school? (Ed. Code, § 47605(c)(8).)
This criterion has been determined not to be a basis for denial.

III. GENERAL SCHOOL INFORMATION

A. Charter Details

	New Horizons Charter Academy
Initial Authorization:	On April 16, 2013, New Horizons Charter Academy was authorized by the LAUSD Board of Education to serve 293 students in grades K-8.
Most Recent Renewal	The charter was renewed on November 7, 2017, for a five-year term (July 1, 2018 - June 30, 2023) to serve up to 300 students in grades TK-8. Effective July 1, 2021, pursuant to Education Code section 47607.4, all charter schools whose terms expire on or between January 1, 2022, and June 30, 2025, inclusive, shall have their terms extended by two years, and all charter schools whose terms expire on or between January 1, 2024, and June 30, 2027, inclusive, shall have their terms extended by one additional year. Thus, by operation of law, the charter term for New Horizons expires June 30, 2026.
Approved Material Revisions of Current Charter:	None
Board Benchmarks in Current Charter Term:	On November 7, 2017, as part of the school's most recent renewal, the LAUSD Board of Education issued the following academic benchmark to New Horizons: <i>The school shall provide an update to the Charter Schools Division</i>

	New Horizons Charter Academy
	<i>no later than December 1 of each year of the charter term (after CAASPP (SBAC) scores have been released by the CDE).</i> <i>Demonstrate at least one performance level growth per academic year, as reported on the California School Dashboard, for numerically significant subgroups in Math, as measured by the CAASPP (SBAC) Assessment at a rate equal to or greater than the Resident and Similar Schools median, with the goal of achieving and maintaining the “Green” performance level or higher.</i> New Horizons has provided the required annual written updates on its progress toward the academic benchmark in Math. Additionally, due to the current unavailability of Change Level data and performance levels (colors) on the California School Dashboard, Charter School’s progress toward achieving this academic performance benchmark cannot be determined at the present time. Staff will assess further as applicable data are available.
Material Revision Application:	The processing of the New Horizons complete material revision application commenced on September 26, 2023. Pursuant to the <i>LAUSD Policy and Procedures for Charter Schools</i> , the 120-day timeline (for presenting the material revision once processing commences) runs through January 23, 2024.
Master Plan for English Learners and Standard English Learners:	New Horizons implements the LAUSD Master Plan for English Learners and Standard English Learners.
Special Education SELPA	New Horizons participates in LAUSD Special Education Local Plan Area (SELPA) Option 3.

B. Charter School Operator

New Horizons is operated by Dharma Educational Institute, a California nonprofit public benefit corporation; the organization does not operate any other LAUSD-authorized charter school.

IV. STUDENT ACHIEVEMENT AND EDUCATIONAL PERFORMANCE

a. Summary

New Horizons has been identified by the state as a Middle performing charter school. Please see discussion of the charter school’s record of academic performance below. Updated CDE performance levels from the state are not available at this time.

Please see the attached *New Horizons Charter Academy Data Set*.

b. Measurements of Academic Performance on the California School Dashboard

Due to the COVID-19 pandemic, the 2022 Dashboard only displays the most current year of data (also known as Status). Performance levels are reported based on the 2021-2022 school year data using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with

the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High).

New Horizons Charter Academy							
Year	ELA	Math	EL Progress Indicator *	College / Career Indicator	Chronic Absent.	Graduation Rate	Suspension Rate
2022	Low	Low	Low	N/A	Very High	No Performance Level	High

Data Sources: California School Dashboard Research data files 2022 <https://www.cde.ca.gov/ds/sd/sd/>

c. English Language Arts Academic Indicator

In 2022 in ELA, the charter school's Distance from Standard (DFS) was lower than the state for All Students and lower than the state for three of the school's four numerically significant student groups.

	ENGLISH LANGUAGE ARTS INDICATOR	Participation Rate	New Horizons Charter Academy		State		Charter vs. State DFS
			Level	DFS	Level	DFS	
2022	All Students	Met	Low	-35.1	Low	-12.2	Lower
	English Learners	Met	Low	-68.3	Low	-61.2	Lower
	Latino	Met	Low	-45.6	Low	-38.6	Lower
	Socioeconomically Disadvantaged	Met	Low	-36.4	Low	-41.4	Higher
	White	Met	Low	-6.7	High	21.9	Lower

Data Source: California School Dashboard Research data files 2022

d. Math Academic Indicator

In 2022 in Math, the charter school's Distance from Standard (DFS) was lower than the state for All Students and higher than the state for three of the school's four numerically significant student groups.

	MATH INDICATOR	Participation Rate	New Horizons Charter Academy		State		Charter vs. State DFS
			Level	DFS	Level	DFS	
2022	All Students	Met	Low	-67.4	Low	-51.7	Lower
	English Learners	Met	Low	-88.5	Low	-92.0	Higher
	Latino	Met	Low	-87.8	Low	-83.4	Lower
	Socioeconomically Disadvantaged	Met	Low	-69.6	Low	-84.0	Higher
	White	Met	Medium	-11.5	Medium	-13.4	Higher

Data Source: California School Dashboard Research data files 2022

e. English Learner Progress Academic Indicator

In 2022 on the ELPI, the charter school's performance level (Low) was lower than the state's performance level.

2022	English Learner Progress Indicator	ELPAC Participation Rate	New Horizons Charter Academy		State		Charter vs. State EL Progress
			Level	EL Progress	Level	EL Progress	
	English Learners	Not Met	Low	44.8%	Medium	50.3%	Lower

Data Source: California School Dashboard Research data files 2022

f. College/Career Academic Indicator

Not applicable

g. Chronic Absenteeism Indicator

In 2022 on the Chronic Absenteeism Indicator, the charter school's rate of chronic absenteeism was higher than the state for All Students and for all four of the school's numerically significant student groups.

h. Graduation Indicator [HS only]

Not applicable

i. Suspension Rate Indicator

In 2022 on the Suspension Rate Indicator, the charter school's percentage of students suspended at least once was the same as the state for All Students and lower than the state for all four of the school's numerically significant student groups.

j. Dashboard Local Indicators

Staff also considered the Local Indicators (e.g., Basic: Teachers, Instructional Materials, Facilities; Implementation of Academic Standards; Parent and Family Engagement; Local Climate Survey; Access to a Broad Course of Study), which have all been reported by the state as "Not Met." School leadership indicated that Charter School has had technical issues with receiving notices, accessing, and submitting self-reflection reports related to the Local Indicators part of the California School Dashboard. Charter School has put new redundancies and supports in place to improve its monitoring of the school's compliance with the Local Indicators requirements, including a system for ensuring timely notice is received and reports are accepted by the state's online system.

k. Reclassification Rates

In 2020-2021, the New Horizons reclassification rate of 0.0% was lower than the state's rate of 6.9%. In 2019-2020, the New Horizons reclassification rate of 8.0% was lower than the state's rate of 13.8%. Recent reclassification rates from the state are not available at this time.

l. Internal Assessment Data

The charter school provided data for Reading from a *Student Growth Summary Report* by "MAP Growth by NWEA, Grades K-12" (MAP Growth) for 2022-2023 (Fall to Spring administration). Map Growth is an adopted academic progress indicator approved by the California State Board of Education (SBE) to be on the verified data list.

As a reference, Every Student Succeeds Act (ESSA) requires that all schools and student groups meet the 95 percent participation requirement for English language/arts/literacy (ELA) and Math. It is important to note the *Student Growth Summary Report* from MAP Growth does not provide a participation rate on the report. However, for context, in 2022-2023, the charter school had a norm enrollment of 258 students. The submitted MAP Growth reports indicate that the school had 212 growth events (number of students with valid growth test events for both terms) in ELA. The approximate participation rate was 82% in ELA, and Math had a similar rate.

For Reading, the *Student Growth Summary Report* provided indicates that grades 1, 2, 7, and 8 met the required Conditional Growth Index (CGI)¹ to demonstrate one year's growth within a CGI range of -0.2 to 0.2.

All Students By Grade Level	CGI (distance from 0)	One Year's Progress
Kindergarten	-1.31	Not Met
1 st Grade	+0.52	Met
2 nd Grade	+0.81	Met
3 rd Grade	-2.55	Not Met
4 th Grade	-2.36	Not Met
5 th Grade	-7.09	Not Met
6 th Grade	-1.38	Not Met
7 th Grade	+1.47	Met
8 th Grade	+0.28	Met

Data Source: NWEA MAP reports provided by New Horizons Charter Academy

For Math, the *Student Growth Summary Report* provided indicates that grades 2, 6, and 8 met the required Conditional Growth Index (CGI)² to demonstrate one year's growth within a CGI range of -0.2 to 0.2.

All Students By Grade Level	CGI (distance from 0)	One Year's Progress
Kindergarten	-1.94	Not Met
1 st Grade	-0.70	Not Met
2 nd Grade	+0.09	Met
3 rd Grade	-2.40	Not Met
4 th Grade	-1.22	Not Met
5 th Grade	-2.53	Not Met
6 th Grade	+1.46	Met
7 th Grade	-1.18	Not Met
8 th Grade	+1.38	Met

Data Source: NWEA MAP reports provided by New Horizons Charter Academy

Please see the attached *NWEA MAP 2022-2023 Growth Reports*.

m. Additional Information

None

¹ NWEA's CGI indicates how many standard deviation units above or below the growth norm. A CGI of zero means a student showed gains that were equivalent to the growth norms. A positive CGI means a student's growth was above the norm, while a negative CGI means a student's growth was below the norm.

² NWEA's CGI indicates how many standard deviation units above or below the growth norm. A CGI of zero means a student showed gains that were equivalent to the growth norms. A positive CGI means a student's growth was above the norm, while a negative CGI means a student's growth was below the norm.

V. ANNUAL PERFORMANCE-BASED OVERSIGHT VISIT RESULTS

In accordance with Education Code section 47604.32, the District's Charter Schools Division (CSD) conducts at least one school site visit each year where the CSD evaluates charter school performance in the following four categories: Governance; Student Achievement and Educational Performance; Organizational Management, Programs, and Operations; and Fiscal Operations. Charter schools are rated in each category based on information and evidence gathered at the time of the annual performance-based oversight visit following a four-point rubric: (4) *Accomplished*, (3) *Proficient*, (2) *Developing*, and (1) *Unsatisfactory*. Please see below for New Horizons Charter Academy's outcomes on its annual oversight evaluation reports for the last two years.

a. Governance

Oversight Ratings/Concerns	
2021-2022	<i>Proficient</i>
2022-2023	<i>Proficient</i>
Concerns	No unresolved issues pending

b. Student Achievement and Educational Performance

Oversight Ratings/Concerns	
2021-2022	<i>No Rating*</i>
2022-2023	<i>Developing</i>
Concerns	As noted in IV. Student Achievement and Educational Performance above, Charter School underperformed the state's "All Students" averages on the ELA, Math, ELPI, and Chronic Absenteeism indicators.

**Due to the COVID-19 pandemic, state law suspended the reporting of state indicators on the 2021 Dashboard.*

c. Organizational Management, Programs, and Operations

Oversight Ratings/Concerns	
2021-2022	<i>Proficient</i>
2022-2023	<i>Proficient</i>
Concerns	No unresolved issues pending

d. Fiscal Operations

Oversight Ratings/Concerns	
2021-2022	<i>Accomplished</i>
2022-2023	<i>Accomplished</i>
Concerns	No significant concerns noted. The CSD noted that the school's internal controls and processes were generally in place and implemented in practice.

e. Additional Information

None

VI. FISCAL MANAGEMENT AND PERFORMANCEa. Fiscal Condition

New Horizons' fiscal condition is positive and has been upward trending since the 2019-2020 fiscal year.

	2019-2020 (Audited Actuals)	2020-2021 (Audited Actuals)	2021-2022 (Audited Actuals)	2022-2023 (Unaudited Actuals)	2023-2024 (Preliminary Budget)
Net Assets	\$497,218	\$1,477,579	\$1,851,628	\$2,410,900	\$3,057,500
Net Income/Loss	\$4,668	\$980,361	\$374,049	\$559,272	\$646,600
Transfers In/Out	\$0	\$0	\$0	\$0	\$0
Prior Year Adjustment(s)	\$0	\$0	\$0	\$0	\$0

b. 2021-2022 Independent Audit Report

Audit Opinion: Unmodified/Unqualified

Material Weaknesses: None Reported

Deficiencies/Findings: None Reported

Lack of a Going Concern: None Reported

c. Other Significant Fiscal Information

New Horizons has entered into a settlement agreement with LAUSD regarding Proposition 39 over-allocated space reimbursement and is current on its payment plan. Per the LAUSD Charter Schools Accounting Unit's record, as of the writing of this report, New Horizons owes \$157,220 in Proposition 39 over-allocated space reimbursement fees to LAUSD. The CSD will continue to monitor this matter through oversight.

New Horizons' submitted budget and cash flow projections include the lease payments, and construction and buildout costs pertaining to its proposed facility. New Horizons projects positive net operational results and net assets, and cash reserve levels above the recommended 5% for the remaining years in the current charter term.

VII. COMMUNITY IMPACT ANALYSIS

Staff's analysis evaluated whether the proposed move from Charter School's current location to a private site is demonstrably unlikely to serve the interests of the entire community. (See Ed. Code, § 47605(c)(7); see also the *LAUSD Policy and Procedures for Charter Schools*, pgs. 45-49.) Accordingly, the District's analysis considered the potential fiscal impact of the proposed move on the new community; the extent to which the proposed move would substantially undermine existing services and academic offerings or programmatic offerings in the new community; and whether the school would duplicate a program currently being offered in reasonable proximity to the proposed new location.

Per the *LAUSD Policy and Procedures for Charter Schools*, a “community” includes families and individuals who reside, work, and/or are served in the identified geographical area, and all public schools (District and charter) serving similar grade levels as the charter school. The identified geographical area encompasses both the LAUSD Community of Schools in which the proposed site is located and neighborhoods within a three-mile radius from the specific location identified in the charter school’s material revision application. Data provided by the Office of Master Planning and Demographics (MPD), indicates that the community in this instance includes 38 LAUSD public schools (33 District schools (including 4 affiliated charter schools) and 5 independent charter schools) currently serving at least one of the same grade levels as Charter School.

1. *Fiscal Impact on the Existing District and Charter Schools in the Proposed Community*

Staff’s fiscal impact analysis is calculated based on multiple sourced assumptions³ to provide a projection of New Horizons’ potential fiscal impact, collectively, to existing District and charter schools in the proposed target community. Given the various factors described below, New Horizons’ material revision request is not likely to have a significant fiscal impact on the 38 existing District and charter schools. These factors include: New Horizons’ proposed move is within an approximate four-mile radius from its current community, which partially overlaps with the proposed community; the school reports that its current student population comprises students who live within the attendance boundaries of over 40 different LAUSD resident schools, including over 30 students residing in the Van Nuys/Valley Glen community in which the proposed site is located; and the charter school anticipates that most of its current students in TK-7 would move with the school. Under these circumstances, the budget assumptions and the community fiscal impact analysis described below are for illustrative purposes only.

Based on New Horizons’ projected enrollment (262 and 275 students for Fiscal Years 2024-2025 and 2025-2026),⁴ the estimated total revenue loss, collectively, for the District’s schools could be \$7,921,820 over the period of New Horizons’ remaining charter term. Additionally, the aggregate fiscal impact on District and charter schools in the proposed community could be \$8,331,619 for the corresponding school years. Because District revenue is associated with ADA rather than enrollment (See 5 C.C.R § 402), the estimated District revenue loss is not directly proportionally associated with the number of students who would attend the charter school. Additionally, as a result of lower enrollment to the District schools, any loss of revenue may be offset by possible reductions in expenditures for the District’s services and programs.

Further, and using the same assumptions and the most current District Norm tables (staffing ratios by grade spans), it is also projected that correlative District staff impacts will result based on New Horizons’ projected enrollment. For example, the projected staff impact, collectively, for the District schools within the proposed target community could be seven (7) teachers for Fiscal Years 2024-2025 and 2025-2026, respectively.

³ Staff’s assumptions and analysis utilized in the Fiscal Impact section are primarily based on the following sources: (1) Percentage of students that attend District schools (approximately 95%) and charter schools (approximately 5%) in the proposed community; (2) Average enrollment realization ratio (as a percentage of the aggregate Norm Enrollment over the aggregate petition enrollment rollout) for the charter schools in the proposed community in the three most recent years, which is approximately 65% from Fiscal Years 2020-2021 through 2022-2023. Please see attached *New Horizons Charter Academy Schools within the Community List with Enrollment Data*; (3) Per Pupil Revenue Rate, which is \$25,690 in the 2023-2024 academic school year based on LAUSD’s “Final Budget 2023-24” ([Link](#)); and (4) District school attendance rate of approximately 93% representing the 3-year cumulative average ADA from 2020-2021 through 2022-2023 based on LAUSD’s “Final Budget 2023-24” ([Link](#)).

⁴ Fiscal Year 2024-2025 is the school year for New Horizons’ proposed move. Fiscal Year 2025-2026 is Charter School’s renewal year.

As noted above, the budget assumptions and the community fiscal impact analysis are for illustrative purposes only based on New Horizons' current student population and residents, and the overlapping community sectors described above. Under these circumstances, New Horizons' material revision request is deemed to have a limited to partial fiscal impact.

2. *Duplication of Programs*

As part of the analysis to determine if the charter school is demonstrably unlikely to serve the interests of the entire community in which the school is proposing to locate, staff compared the programs offered by Charter School with those programs provided by the existing schools in the community to determine whether and to what extent they would be duplicative or substantially undermine existing programs and services. Based on review of Charter School's submitted Community Impact Assessment, publicly available information, and input from LAUSD Region North, although many of the programs offered by New Horizons would duplicate some existing programmatic offerings in the area, it does not appear that the relocation of New Horizons would substantially undermine existing services or programs at other schools in the community.

Staff's analysis indicates that New Horizons does not offer a distinctive comprehensive program, such as International Baccalaureate, a School for Advanced Studies, a dual language program, or a GATE program, that would put it in direct competition with the District schools that offer these programs in the area. Charter School's educational program offers a variety of familiar programmatic elements, components, and practices, such as project-based learning and use of technology to provide personalized learning supports, most of which can be found in many other District schools in the area. New Horizons nonetheless offers its own blend of these elements in a small TK-8 span school setting. Only one other District school within the identified community, Hesby Oaks, a District-affiliated charter school, offers this configuration. One LAUSD-authorized independent charter school, Ivy Bound Academy of Math, Science, and Technology Charter Middle, provides a 5-8 program, but not a full TK-8 span model.

To evaluate whether the existing schools in the community have sufficient capacity to serve the programmatic needs of the community's students, staff's analysis included a review of the enrollment trends of the existing District and charter schools in the proposed community. This review indicates that the existing programs have sufficient capacity within reasonable proximity to the proposed Friar Street site to which Charter School intends to re-locate.

3. *Enrollment Trends of the Existing District and Charter Schools in the Proposed Community*

Staff's review of the 2022-2023 Norm Enrollment data provided by MPD and the District Attendance and Enrollment Unit reveals that 38 of the 38 existing District and charter schools were under-enrolled in comparison to their current capacity. Moreover, the 2022-2023 enrollment data show that the majority of schools were under-enrolled within the community in which Charter School proposes to locate by an average of 107 students; 34 schools under-enrolled by 24 students or more represent 89% of the under-enrolled schools.⁵ Enrollment data

⁵ As a way to assess the materiality of the under-enrollment, Staff reviews the extent to which the latest Norm Enrollment data reflects a majority of the existing schools are under-enrolled compared to their capacity at a level equal to or greater than the number required to staff a class according to applicable District Norm tables (in this case, 24:1 in grades K-3 ([Link to District Elementary Schools Staffing Ratios for 2023-24](#)), and 27:1 in 4, 5, and 6 ([Link to District Elementary Schools Staffing Ratios for 2023-24](#))). If a majority of schools fall within this

from Fiscal Years 2020-2021 and 2021-2022 indicate similar under-enrollment trends in the proposed community. Specifically, the enrollment data reflects that a majority of the schools within the community were under-enrolled for both school years. The schools that were under-enrolled by 24 students or more represented 92% and 79% of the under-enrolled schools for Fiscal Years 2020-2021 and 2021-2022, respectively.

New Horizons did not meet its Fiscal Year 2022-2023 projected enrollment of 300 students per its enrollment roll-out plan included in the school's latest renewal petition representing a shortfall of 42 students (or 14%). Based on staff's review of New Horizons' budget submitted with its material revision request, the charter school projects student enrollment of 197, 262, and 275 for the remaining three years through the end of the current charter term (i.e., Fiscal Years 2023-2024, 2024-2025, and 2025-2026), respectively. New Horizons indicated that it expects to meet the projected enrollment based on various factors, including their matriculation trends in the past, recruitment efforts, well-established blended-learning model, etc.

As noted above, New Horizons is a span school, with a current enrollment of approximately 200 students. New Horizons indicated that it anticipates that most of its current students in TK-7 would move with the school to the proposed community. New Horizons projects 275 student enrollment for Fiscal Year 2025-2026 (the charter school's renewal year), which is less than the approved enrollment capacity of 300 students per its operative charter. Assuming that New Horizons reaches 300 students in Fiscal Year 2025-2026 and that 100% of the projected increase of approximately 100 students will come from the existing District and charter schools, Charter School's material revision request is not likely to have a significant undermining impact to the 38 existing District and charter schools, as 100 students represents less than 1% of the 3-year average enrollment of approximately 23,000 students for these 38 schools (per the Nom Enrollment data for Fiscal Years from 2020-2021 through 2022-2023).

Please see attached *New Horizons Charter Academy Schools within the Community List with Enrollment Data*.

4. Additional Considerations

a. Community Engagement

Staff's review of the materials submitted by New Horizons revealed that, pursuant to the *LAUSD Policy and Procedures for Charter Schools*, the charter school conducted community outreach efforts with parents, District and charter school leaders, LAUSD Region and Community of Schools leaders, LAUSD Board of Education member offices, elected representatives, neighborhood council(s), and community-based organizations. The documentation provided shows that Charter School's outreach included sharing information on social media, sending emails, holding a public Town Hall meeting at the proposed site with presentation materials in English and Spanish, and physically delivering and posting information and flyers in English and Spanish. New Horizons also reported that it made Armenian translation available as well.

The charter school provided documentation of stakeholders' responses consisting of emails from three District schools, one existing independent charter school, and one elected representative within the community. Based on the submitted documentation, including the

category, Staff deems there to be prevalent under-enrollment in the community. Among other considerations, this analysis may help determine if a proposed new charter school or a material revision request has a substantially undermining impact to the existing District and charter schools.

charter school's summary of responses, the responses are generally supportive of, or neutral toward, Charter School's proposed move to the community.

Overall, New Horizons' community engagement has been reasonable in scope, based on the information and materials provided by Charter School.

b. Academic Performance

Staff reviewed the record of performance of the existing Schools within the Community (SWC) on the applicable 2022 California School Dashboard indicators for All Students and for each numerically significant student group served in comparison to state averages as well as New Horizons' performance. Please see *New Horizons Charter Academy Schools within the Community Data Set* and *New Horizons Charter Academy Schools within the Community Student Group Data Set*.

Comparison of SWC Schoolwide Performance to State and Charter School Averages:

Comparison of the SWC's All Students medians⁶ to the state averages and New Horizons' performance on the applicable 2022 California Schools Dashboard indicators showed that the All Students median for the SWC underperformed the state average on 3 of the 5 applicable indicators (ELA, Math, and Chronic Absenteeism) and outperformed New Horizons on 4 of the 5 applicable indicators (Math, ELPI, Chronic Absenteeism, and Suspension).

CA Dashboard Indicator	2022 New Horizons Charter Academy	2022 SWC All Students Median	2022 State Average
ELA	-35.1 DFS	-40.0 DFS	-12.2 DFS
Math	-67.4 DFS	-61.2 DFS	-51.7 DFS
ELPI	44.8%	54.1%	50.3%
Chronic Absenteeism	42.5%	35.3%	30.0%
Suspension	3.1%	0.1%	3.1%

Comparison of SWC Student Groups to State and Charter School Averages:

Comparison of the SWC's numerically significant student groups' medians to the state and Charter School's averages on the four applicable 2022 California Schools Dashboard indicators⁷ indicated that a majority of the SWC's numerically significant student groups outperformed the state average on 2 of the 4 applicable indicators (Math and Suspension) and outperformed the Charter School's average on 3 of the 4 applicable indicators (Math, Chronic Absenteeism, and Suspension).

⁶ For each applicable California Schools Dashboard indicator, the SWC Median is calculated by utilizing published data on the current California School Dashboard for all the schools within the community. While an individual school's value for a particular indicator is a percentage or an average calculated using all the school's applicable students' data, overall percentages and averages for all students attending schools within the community are not calculated as student-level data are not released publicly, for privacy reasons. Therefore, SWC Medians are compared to state percentages and averages.

⁷ ELPI is not included in this analysis, as it applies to only one student group and is already considered in the schoolwide analysis.

Schools within Community Medians	ELA			Math			Chronic Absenteeism			Suspension		
Student Group	New Horizons	SWC Median	State Average	New Horizons	SWC Median	State Average	New Horizons	SWC Median	State Average	New Horizons	SWC Median	State Average
English Learner	-68.3	-62.6	-61.2	-88.5	-80.5	-92.0	36.4%	36.9%	33.6%	1.0%	0.0%	3.2%
Latino	-45.6	-49.4	-38.6	-87.8	-70.6	-83.4	43.5%	38.2%	35.8%	2.2%	0.1%	3.3%
Socioeconomically Disadvantaged	-36.4	-43.8	-41.4	-69.6	-64.8	-84.0	44.9	37.9%	37.4%	2.8%	0.2%	4.0%
Students with Disabilities	--	-105.3	-97.3	--	-125.4	-130.8	--	43.6%	39.6%	--	0.0%	5.4%
White	-6.7	-12.9	21.9	-11.5	-29.3	-13.4	32.8	29.5%	21.9%	0.0%	0.0%	2.6%

-- Number of students counted for this indicator were <30, therefore total # of student groups comparisons varied by indicator

c. Facilities Plan

Staff has reviewed the facilities plan and documentation provided by petitioners as part of its material revision application and determined it to be reasonable and appropriate pursuant to *LAUSD Policy and Procedures for Charter Schools*. The proposed site at 14701 Friar Street is located in the Van Nuys/Valley Glen Community of Schools (CoS), which is the CoS immediately to the west of its current North Hollywood/Valley Village CoS location. The Certificate of Occupancy for the property indicates that the two-story school addition to the original church/school building has a maximum occupancy of 730, with a total site occupancy of 1,200. New Horizons reports that it has already taken significant steps to advance its facility plan, including execution of a conditional lease and collaboration with an experienced project management group, architects, LA City Planning, and the LA Department of Building and Safety, to devise a tenant improvement plan to refurbish the property and bring the facility up to current standards. Charter School has established a sequential facility improvement schedule that provides a six-month timeline for completing the priority improvements necessary to open in August 2024. Charter School has included in its submitted budget a reasonable plan, with supporting documentation, for funding the anticipated cost of approximately \$4.6 million to complete the full tenant improvement plan.

As noted previously, New Horizons intends to move from its existing Proposition 39 co-location at the end of the 2023-2024 school year, should the material revision be approved. However, as part of its contingency planning, New Horizons has indicated its intent to submit a request for use of District facilities in the 2024-2025 school year via Proposition 39. As noted above, New Horizons is current on its Proposition 39 over-allocated space reimbursement payments.

Community Impact Analysis Conclusion

Taken as a whole, and balancing various factors, staff assesses that New Horizons Charter Academy is demonstrably likely to serve the interests of the entire community in which it proposes to locate.

VIII. DISTRICT-LEVEL FISCAL IMPACT

A petition may be denied if the district is not positioned to absorb the fiscal impact of the charter school under the following criteria: 1) the district is under the authority of a state trustee or administrator; 2) the district is in negative certification; or 3) the district is in qualified certification and the county superintendent and FCMAT certify that approval of the charter school would result in the district having a negative certification. Thus, considering these factors, the LAUSD is positioned to absorb the fiscal impact of the proposed new charter school.

New Horizons Charter Academy

Academic Performance - English Language Arts

This report shows the performance levels for a single state indicator, English Language Arts, for all student groups. It shows the current year, Status level. Status levels range from Very High, High, Medium, Low, and Very Low for all state measures based on the 2021-22 school year data. A single (*) and a single dash (-) shows that the student group has fewer than 11 students, for that reason the Status and Status level are not reported for privacy reasons. For student groups with 11-29 students, the Status is reported but the Status level is not reported. A double dash (-) means that data is not currently available. Note: Charter Schools are treated as schools (not LEAs) when it comes to reporting Foster Youth and Homeless student groups. Charter schools will need at least 30 or more Foster Youth, or 30 or more Homeless students, to receive a status level for each student group.

Participation Rate Report below displays the percent of students tested by content area. The Every Student Succeeds Act requires districts and schools to test at least 95 percent of all students and student groups in English language arts and mathematics. It also requires states to factor the participation rate into the Academic Indicator. For any local educational agency (LEA), school, or student group with less than 95 percent of students tested, the ESSA requires a penalty to be applied to the Academic Indicator. To meet this federal requirement, beginning with the 2022 Dashboard, California will assign the Lowest Obtainable Scale Score (LOSS) to each student needed to bring the participation rate of the school, district, and/or student group to 95 percent. The LOSS assigned to each of these students who did not test will be used in calculating the Distance from Standard (DFS).

English Language Arts Indicator Participation Rate By Student Group														
	All Students	American Indian or Alaska Native	Asian	Black or African American	English Learner	Filipino	Foster Youth	Homeless	Latino	Hawaiian or Pacific Island	Socioeconomically Disadvantaged	Students with Disabilities	Two or More Races	White

New Horizons Charter Academy

English Learner Progress Indicator (ELPI)

This report shows the percentage of current EL students making progress towards English language proficiency or maintaining the highest level. ELs take the ELPAC annually to measure their progress towards English language proficiency. The ELPAC has four performance levels. The four ELPAC performance levels are divided into six ELPI levels to determine whether ELs made progress toward English language proficiency. Due to the restrictions imposed by Assembly Bill 130, California is required to only report current year data (or Status) for the 2022 Dashboard. Results will fall into one of five Status levels, ranging from "Very High" to "Very Low." An asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students, for that reason the Status and Status level are not reported for privacy reasons. For student groups with 11-29 students, the Status is reported but the Status level is not reported. A double dash (--) means that data is not currently available.

Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. New Horizons Charter Academy

Chronic Absenteeism

This report displays the percentage of students in Kindergarten through grade 8 who are absent 10 percent or more of the instructional days they were enrolled. Due to the restrictions imposed by Assembly Bill 130, California is required to only report current year data (or Status) for the 2022 Dashboard. Results will fall into one of five Status levels, ranging from "Very High" to "Very Low." Note: The Status levels are reversed for the Chronic Absenteeism Indicator in comparison to other state measures, and the goal is to have a low rate of student absence. An asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students, for that reason the Status and Status level are not reported for privacy reasons. For student groups with 11-29 students, the Status is reported but the Status level is not reported. A double dash (--) means that data is not currently available.

Data Sources: California School Dashboard Research data files 2022

New Horizons Charter Academy Suspension Rate Indicator

Suspension Rate: The percentage of students in kindergarten through grade 12 who have been suspended at least once in a given school year. Students who are suspended multiple times are only counted once. Due to the restrictions imposed by Assembly Bill 130, California is required to report current year data (or Status) only for the 2022 Dashboard. Results will fall into one of five Status levels, ranging from "Very High" to "Very Low." Note: The Status levels are reversed for the Suspension Rate Indicator in comparison to other state measures, and the goal is to have a low rate of student suspension. An asterisk (*) and a single dash (-) shows that the student group has fewer than 11 students, for that reason the Status and Status level are not reported for privacy reasons. For student groups with 11-29 students, the Status is reported but the Status level is not reported. A double dash (--) means that data is not currently available.

**New Horizons Charter Academy
Enrollment Report**

This report displays CALPADS K-12 enrollment number and percentages of select student groups. Annual enrollment consists of the number of students primarily enrolled on Census Day (the first Wednesday in October). This information was submitted by local educational agencies (LEAs) and charter schools to the California Department of Education (CDE) as part of the annual Fall 1 data submission in the California Longitudinal Pupil Achievement Data System (CALPADS). These data were reviewed and certified in CALPADS as being accurate by authorized district or school personnel. In order to certify data in CALPADS, authorized district or charter school personnel are required to review the accuracy of all data associated with the applicable CALPADS submission. The California Department of Education collects some data on GATE programs through the California Longitudinal Pupil Achievement Data System (CALPADS); however, this information is submitted by LEAs on a voluntary basis and it wouldn't necessarily be accurate as per CDE. Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at <http://www.cde.ca.gov/ds/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cm/>. Please note: There may be slight differences with some of the information in this report and with what is displayed in Dataquest and CA Dashboard due to changes in file modifications such as Date Modified, Date Posted, other data updates by the testing vendor and updates in CALPADS.

RECLASSIFICATION RATES**

This reports shows a two year comparison of the number of English Learners (ELs) on Census Day, the number of students reclassified since the prior Census Day, and the reclassification rate for each specified year. The reclassification rate, displayed in percentage, is calculated by dividing the number reclassified by the number of prior year ELs.

Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at <http://www.cde.ca.gov/ds/sd/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cm/>. New Horizons Charter Academy
Long-Term English Learners (LTEL) and "At-Risk"

Note: The "EL Total" column in this report displays the summed total of the disaggregated English Learner (EL) data in the four columns under the "English Learners" heading. The "Total (Ever-EL)" column displays the summed total of the data in the "RFEP" column plus the data in the four columns under the "English Learners" heading OR the data in the "EL Total" column, but not both. The percent values displayed in this report are calculated as a percent of the "Total (Ever-EL)" which fully and more accurately considers what happens to all EL students over time, including those who are Reclassified Fluent English Proficient (RFEP). Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at <http://www.cde.ca.gov/ds/sd/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cm/>. **New Horizons Charter Academy
Students with Disabilities Report**

This report displays the K-12 enrollment and the number of K-12 students with disabilities total, by incidence category, and by eligibility as reported on the Census Day (First Wednesday in October) CALPADS Fall 1 Certified Student Profile List Report (Report 8.1) submitted by LEAs (Local Education Agencies). LEAs are required to "certify" specified data during submission windows. The CDE uses certified data for state and federal reporting and to develop accountability metrics. Once data are certified by an LEA following the close of the Amendment Window, they are "frozen" and cannot be amended. Note: Students with disabilities counts and percentages in this report may be higher or lower for some schools when comparing this report counts with 2021-22 Enrollment by Student Group counts posted in DataQuest by the CDE due to the accuracy of all data associated with the applicable CALPADS submission. CALPADS certification is a two-step process with Level-2 certification reserved for the district superintendents, charter school administrators, or their designees. High incidence eligibilities are indicated by an asterisk (*). Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE - Data Reporting Office at <http://www.cde.ca.gov/ds/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cmi/>. Please note: There may be slight differences with some of the information in this report and what is displayed in Dataquest and CA Dashboard due to changes in file modifications such as Date Modified, Date Posted, other data updates by the testing vendor and updates in CALPADS.

New Horizons Charter Academy
Academic Performance - English Language Arts

This report shows the performance levels for a single state indicator, English Language Arts, for all student groups. It shows the current year, Status level. Status levels range from Very High, High, Medium, Low, and Very Low for all state measures based on the 2021-22 school year data. An asterisk (*) shows that the student group has fewer than 11 students, for that reason the status and status level are not reported for privacy reasons. For student groups with 11-29 students, the status is reported but the status level is not reported. A double dash (--) means that data is not currently available. Note: Charter Schools are treated as schools (not LEAs) when it comes to reporting Foster Youth and Homeless student groups. Charter schools will need at least 30 or more Foster Youth, or 30 or more Homeless students, to receive a status level for each student group. Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at <http://www.cde.ca.gov/ds/sd/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cm/>. **New Horizons Charter Academy
English Learner Progress Indicator**

292

This Reports shows the percentage of current EL students making progress towards English language proficiency or maintaining the highest level. ELs take the ELPAC exam to measure progress towards English language proficiency. The ELPAC has 4 levels. The 4 ELPAC levels were divided into 6 ELPI levels to determine whether ELs made progress toward English language proficiency. English Learner Progress with the transition to a new assessment, the 2018 Dashboard is unable to report a performance level (color) for this measure. However, the percent of students performing at each level on the new assessment is reported. Status Level: 1 = Very Low, 2 = Low, 3 = Medium, 4 = High, 5 = Very High, 0 = No Data **Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at <http://www.cde.ca.gov/ds/sd/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cm/>. Please note: There may be slight differences with some of the information in this report and with what is displayed in Dataquest and CA Dashboard due to changes in file modifications such as Date Modified, Date Posted, other data updates by the testing vendor and updates in CALPADS.**

New Horizons Charter Academy Suspension Rate Indicator

296

Suspension Rate: The percentage of students in kindergarten through grade 12 who have been suspended at least once in a given school year. Students who are suspended multiple times are only counted once. Color: 1 = Red, 2 = Orange, 3 = Yellow, 4 = Green, 5 = Blue, 0 = No Color. Change Level: 1 = Declined Significantly, 2 = Declined, 3 = Maintained, 4 = Increased, 5 = Increased Significantly, 0 = No Data. An "--" means that data is not currently available. **Source: Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Aggregate data files are provided by the CDE – Data Reporting Office at <http://www.cde.ca.gov/ds/sd/sd/filesenr.asp> and California School Dashboard System of Support <https://www.cde.ca.gov/ta/ac/cm/>. ATTACHMENT C
MATERIAL REVISION TO CHARTER OF
NEW HORIZONS CHARTER ACADEMY

This Material Revision to the Charter of New Horizons Charter Academy (“Material Revision”) is made between the Los Angeles Unified School District (“District” or “LAUSD”), a California public school district, and Dharma Educational Institute (“DEI”), a California non-profit public benefit corporation, operating a California public charter school known as New Horizons Charter Academy (“Charter School” and/or “NHCA”). District and DEI are also referred to individually as “Party,” and collectively as “Parties.”

This Material Revision is to be read in conjunction with and shall expressly revise the charter of NHCA which was originally authorized by the LAUSD Board of Education (“Board of Education”) on **April 16, 2013** and last renewed on November 7, 2017, for a five-year term, from 2018 to 2023 (“Charter”) and was set to expire on June 30, 2023. However, Education Code section 47607.4 extended the terms of all charter schools whose terms expire on or between January 1, 2022, and June 30, 2025, inclusive, by two years, and all charter schools whose terms expires on or before January 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year. Thus, by operation of law, the charter term for Charter School expires on **June 30, 2026**.

The effective date of this Material Revision is the date of approval by the Board of Education and shall be implemented starting in the 2024-2025 academic school year. This Material Revision is based upon the following factual recitals:

RECITALS

A. **WHEREAS**, the approval of charter schools is governed by the Charter Schools Act of 1992, as subsequently amended, Education Code sections 47600 et seq;

B. **WHEREAS**, as set forth in Education Code section 47607, material revisions of charters are governed by the standards and criteria described in Section 47605, and shall include, but not be limited to, a reasonably comprehensive description of any new requirement of charter schools enacted into law after the charter was originally granted or last renewed;

C. **WHEREAS**, the District’s Charter Schools Division (“CSD”) must determine whether the Charter, as materially revised, would be reasonably comprehensive, educationally sound, and demonstrably likely to be successfully implemented;

D. **WHEREAS**, a material revision includes, but is not necessarily limited to, any change that would significantly alter a charter school’s mission, vision, educational philosophy, educational program, governance, or organizational structure;

E. **WHEREAS**, pursuant to applicable California law (Ed. Code, §§ 47605 and 47607) and *LAUSD Policy and Procedures for Charter Schools* (“LAUSD Policy”), if a charter

school intends to move outside of the community¹, the charter school shall request, and must have received, approval of a material revision to its charter before occupying the facility;

F. **WHEREAS**, charter schools occupying non-LAUSD facilities must, prior to use, provide the CSD with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency allowing the charter school to use and occupy the site as a charter school for its intended purpose (i.e., applicable grade levels). Charter schools are responsible for ensuring compliance with all applicable building codes, standards, and regulations adopted by the city and/or county agencies with jurisdiction to enforce building and safety standards for the school site, as well as federal and state accessibility requirements, and all other applicable fire, health, and structural safety and access requirements;

G. **WHEREAS**, as memorialized in the Charter, NHCA is approved to serve 300 students in grades TK-8 and had been operating on 2 separate sites/locations: a private facility (non-District property) at 5955 Lankershim Blvd, North Hollywood CA 91606 (“Lankershim site”) for its TK-4th grades students; and another site at Fair Ave Elementary where the Charter School currently co-located on District property at 6501 Fair Ave, North Hollywood, CA 91606 (“Fair Avenue site”), pursuant to Education Code section 47614 (“Proposition 39”), for its 5th-8th grades students;

H. **WHEREAS**, in the correspondence submitted to the District on or about September 15, 2023 (“September 2023 Correspondence”) in support of this Material Revision, the Charter School explained that “for the 2023-2024 school year, NHCA entered into an Alternative Agreement with LAUSD for Proposition 39 classroom space, with additional classrooms for our TK-4 students.” The Charter School has since moved the students from the Lankershim site to the Fair Avenue site in August 2023. The September 2023 Correspondence is attached herewith as **Attachment A** and part of this Material Revision;

I. **WHEREAS**, the Charter School’s governing board convened a meeting on May 23, 2023 and adopted resolution #000008 (“Resolution”) setting forth that “NHCA has found a suitable new building where students can attend school, once the building has met city planning requirements, and the Board approved a lease for 14701 Friar Street [(“Friar Street site”)]in Van Nuys”, and that “the Friar Street site will be available for student enrollment in July 2024.” The Resolution is attached herewith as **Attachment B** and part of this Material Revision;

J. **WHEREAS**, DEI entered into a 30-year Lease Agreement with Friar Equity Partners LLC (“Lease Agreement”), for the Friar Street site. The Lease Agreement, which was fully executed on April 21, 2023, is attached herewith as **Attachment C** and part of this Material Revision;

K. **WHEREAS**, the Charter School’s governing board proposed, in the Resolution, to materially revise the Charter “to move [the Charter School] from [Proposition] 39 site to

¹ A “community” includes families and individuals who reside, work, and/or are served in the identified geographical area, and all public schools (District and charter), serving similar grade levels as the charter school (inclusive of the proposed additional grade levels being requested, if applicable). The identified geographical area will be based on LAUSD Community of Schools and neighborhoods within a three-mile radius from the location identified by the charter school’s material revision application.

private facility for 2024-2025 school year.” The “private facility,” which is the Friar Street site, is outside of the target community currently authorized/approved in the Charter;

L. **WHEREAS**, in the September 2023 Correspondence, the Charter School stated that: “Moving to the Friar Street [site] will give NHCA sufficient space for our own dedicated library, STEAM lab and more, along with sufficient space for special education and other intervention services.”

M. **WHEREAS**, the District considers a change in location/address from the Fair Avenue site to the Friar Street site to constitute a material revision;

N. **WHEREAS**, the Parties agree to materially revise the Charter to reflect the changes above, LAUSD Policy and applicable state and federal laws; and

NOW, THEREFORE, in consideration of the following terms and conditions, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

MATERIAL REVISION

1. The Parties incorporate the above Recitals as if fully restated in this Material Revision.
2. **Charter School’s Location**: The Charter shall be revised to reflect that, *effective in the 2024-2025 academic school year*, the location, contact address, and corresponding information for the Charter School are as follows:

14701 Friar Street, Van Nuys, CA 91411
This location is in LAUSD Board District: 3
This location is in LAUSD Local District: North

3. **Element 1: Educational Program**: The third sentence in the paragraph on page 84 of the Charter which states that: “Mailing lists are used to invite prospective families to both our Lankershim Campus and Fair Ave. Co-Location campus” shall be deleted and replaced with the following:

“Mailing lists are used to invite prospective families to our Friar Street campus.”

4. **Budget**: All prior budgets and cash flow projections submitted for the Charter School shall be replaced by the Charter School’s revised budget(s), financial and cash flow projections incorporated and attached herewith as **Attachment D** and incorporated by reference and part of this Material Revision.

5. **Updated District Required Language**: The Charter shall be revised to update and incorporate the Board of Education approved “Federal, State, and District Required Language for Independent Charter School Petitions (New and Renewal) and Material Revisions updated August 11, 2020”, attached herewith as **Attachment E** and incorporated by reference as part of this Material Revision.

6. The Charter School warrants that it is operated by a non-profit corporation in good standing in the State of California.

7. All other provisions set forth in the Charter shall remain in effect and enforceable.

8. The Parties agree that should any of the provisions of this Material Revision be judicially determined to be invalid or unenforceable, the remaining provisions shall continue in full force and effect.

9. The Parties agree to cooperate fully in the execution of any and all documents and/or additional actions necessary to give full force and effect to the terms, provisions, and intent of this Material Revision.

10. The individuals signing this Material Revision warrant that they are authorized to do so, and further, that they are authorized to make the promises in this Material Revision on behalf of the respective Parties.

IN WITNESS WHEREOF, the Parties hereto have caused this Material Revision to be duly executed and delivered in their respective names by their authorized representatives as of the date set forth below.

Instructions for Completing this Community Impact Assessment Template for Material Revision Requests

Per the Material Revision and the Facilities sections of the *LAUSD Policy and Procedures for Charter Schools*, a Community Impact Assessment is required when a charter school seeks:

1. Expansion to one or more additional sites (if outside the community, as defined in the *LAUSD Policy and Procedures for Charter Schools*)
2. Change in location/address outside the community (as defined in the *LAUSD Policy and Procedures for Charter Schools*)
3. Expansion of additional grade levels served

Please review the instructions and template carefully to complete the Community Impact Assessment (as part of the Material Revision application for consideration by the LAUSD Board of Education).

“To assist in the determination whether the charter school requesting an expansion or change in location/address is demonstrably likely or unlikely to serve the interests of the entire community in which the school proposes to locate or expand, the charter school must submit a Community Impact Assessment as part of its material revision request. The Community Impact Assessment will be based on analysis of publicly available information and data (e.g., LAUSD OpenData, LAUSD Unified Enrollment program data, official data from the California Department of Education’s website, etc.) and on evidence of community engagement and outreach. The charter school shall clearly cite and provide sources for all data and information used to inform assertions in their Community Impact Assessment” (*LAUSD Policy and Procedures for Charter Schools*).

Please note that “**community**” and “**identified geographical area**” are defined as follows in the *LAUSD Policy and Procedures for Charter Schools*:

“For purposes of this Policy and Procedures, a ‘community’ includes families and individuals who reside, work, and/or are served in the identified geographical area, and all public schools (District and charter), serving similar grade levels as the charter school (inclusive of the proposed additional grade levels being requested, if applicable). The identified geographical area will be based on LAUSD Community of Schools and neighborhoods within a three-mile radius from the location identified by the charter school's material revision application. Thus, petitioners will consider the existing District and charter schools operating within the Community of Schools and three-mile radius.”

Please ensure that the terms used in the narrative response sections below are consistent with the definitions above and other applicable sections of the *LAUSD Policy and Procedures for Charter Schools*.

Prior to beginning work on the Community Impact Assessment, please contact the Charter Schools Division for a list of Schools within the Community (i.e., the District and charter schools serving any of the same grade levels proposed to be served by the charter school within the identified geographical area).

Prior to submission of the Community Impact Assessment as part of the Material Revision, please contact your assigned Charter Schools Division administrator to establish a Dropbox folder for your submission. Please create a folder titled “Community Impact Assessment” and include this completed template in the top level of the folder. Within this folder, create separate subfolders to store evidence corresponding to each section of the Community Impact Assessment and title each subfolder accordingly (e.g., “Section 1 Evidence”, “Section 2 Evidence”, etc.). Please ensure that all pieces of evidence included in each subfolder are clearly labeled with a unique file name.

In all sections below, there are spaces to include narrative responses to questions, as well as a separate area to list all evidence supporting the assertions in the narrative responses.

In the **Evidence** table for each section below, list each source of evidence on a separate row with a corresponding number in the “Citation” column. Each row should include the following:

- **File Name:** The name of the file as it appears in the evidence folder submitted to Dropbox.
- **Link*** (optional): A URL link to the file’s Dropbox location (hyperlinks or shortened links are preferred).
- **Description of Evidence:** A brief description of the evidence.

*Please note that some sources of evidence (e.g., CA School Dashboard data) may be updated by a third party. For this reason, a link to a time-stamped copy of the data (e.g., print out, screen shot, etc.) is preferable to a URL address of the original source.

Within the narrative response(s) of each section below, please clearly cite the specific evidence supporting each statement asserted by the petitioner using the number(s) from the “Citation” column in the Evidence table. If a statement is supported by more than one piece of evidence listed in the Evidence table, include all citation numbers, separated by commas. If a piece of evidence supports statement in multiple sections, please list the evidence in only one section’s Evidence table and refer to that citation number in each Narrative response as appropriate.

For example:

[Statement asserted by the petitioner] (1.2). *[Statement asserted by the petitioner]* (1.1, 2.6, and 5.3).

Types of evidence that may be provided as part of the Community Impact Assessment include, but are not limited to, emails and other correspondence, CA Dashboard reports, demographic data, maps, multilingual notices/flyers, presentation materials, meeting agendas, sign-in sheets, survey results, etc.

If there are more than 10 pieces of evidence for a particular section, please insert additional rows in the Evidence table for that section and number the citation number accordingly (e.g., 1.11, 1.12, 1.13, etc.).

Note: This document is subject to change. Prior to submission, please check the [CSD website](#) to ensure you are using the most current version of the template.

For additional reference, please review the *LAUSD Policy and Procedures for Charter Schools*.

COMMUNITY IMPACT ASSESSMENT TEMPLATE (Material Revision Request)

GENERAL INFORMATION	
Name of Charter School	New Horizons Charter Academy
Current location (street address, city, and zip code)	6501 Fair Avenue, North Hollywood, CA 91601
Current LAUSD Community of Schools	North Hollywood/Valley Village
Current LAUSD Board District	6
Current LAUSD Region (formerly Local District)	Northwest
Current Grade Levels Authorized to Serve per Approved Charter	TK-8
Current Enrollment Capacity Authorized per Approved Charter (Enrollment capacity is defined as the total number of students who may be enrolled in Charter School regardless of student residency.)	300
Indicate Requested Material Revision	☐ Expansion to one or more additional sites outside the community as defined by <i>LAUSD Policy and Procedures for Charter Schools</i> ☒ Change in location/address outside the community as defined by <i>LAUSD Policy and Procedures for Charter Schools</i> ¹ ☐ Expansion of additional grade levels served

¹ We respectfully disagree that relocating our ten year old public charter school from a Prop 39 co-location to a private facility warrants a Community Impact Assessment. (LAUSD Policy, p. 43.) At the same time that the Board of LAUSD is considering ways to minimize or even eliminate Prop 39 co-locations across the District, it is still requiring existing charter schools to complete this time- and resource-intensive CIA, inhibiting the process and increasing the costs to us of moving out of District property. Further, the law is clear that a material revision is only required when a charter school adds an additional facility. NHCA is moving from one facility to another, not adding a facility.

SECTION 1: IDENTIFICATION of the COMMUNITY for the PROPOSED MATERIAL REVISION
NARRATIVE
a. In the space below, identify and describe the community in which the proposed additional site or new site (for a move) will be located, or the proposed expansion of additional grade levels served will occur.
Starting with the 2024-25 school year, and pending the approval of LAUSD, New Horizons Charter Academy ("NHCA" or "Charter School") plans to change locations from the current Prop 39 co-location at Fair Avenue Elementary School ("Fair Avenue" or "Prop 39 site") to a private facility at 14701 Friar Street, Van Nuys, CA 91411 ("Friar Street") (1.1). The new site is approximately four miles from NHCA's current Prop 39 site in North Hollywood, CA 91601. (1.2) NHCA is proposing this location as a solution to Prop 39 challenges and believes this could be beneficial for both the Charter School and the Los Angeles Unified School District ("LAUSD" or "District"). Prior to 2023-24, NHCA operated two campuses, with approximately 159 students (grades 5-8) at the Prop 39 site and approximately 97 students (TK-4) at a private facility that was approximately one mile away on Lankershim Boulevard in North Hollywood. Our lease at Lankershim ended in July 2023, and for the 2023-24 school year, NHCA's TK-4th grade students have joined their older peers at the Fair Avenue Prop 39 site with the allocation of additional space from LAUSD. (1.2) While we are thrilled to have all of our students in grades TK-8 on a single campus for the first time – our 11th year in operations -- the conditions are not ideal. For the 2023-24 school year, NHCA entered into an Alternative Agreement with LAUSD for Prop. 39 classroom space, with additional classrooms for our TK-4 students. In order to meet the needs of our educational program, NHCA requested one additional exclusive use space that was available at Fair Ave ES. In exchange for granting us this single additional classroom, NHCA had to relinquish our shared-use of access to the Science Lab, Computer Lab, Parent Center, Faculty Lounge and Library. All of these shared-use areas were relinquished just to get one additional room, which is necessary to operate and provide for our special education program needs (pull-out services for RSP, Speech, OT and Counseling). Moving to the Friar Street location will give NHCA sufficient space for our own dedicated library, STEAM lab and more, along with sufficient space for special education and other intervention services. The Friar Street facility will enable NHCA to serve our students in a manner comparable to district facilities. NHCA has noted additional challenges arising from its co-location allocations to meet the needs of school operations and student programs below: 1) The one administrative space allocated is severely crowded to maintain both school office operations. Currently the office is shared by our pupil services clerk, Assistant Principal, Dean of Discipline and Executive Director/Principal. There is no space for our Office Manager, HR Manager, Enrollment clerk/registrar, Parent Coordinator, Operations Coordinator. This is the reason that NHCA leases a satellite business

office. It is not an efficient office arrangement to receive parents, students and deal with administrative duties. When a confidential meeting needs to occur, including student discipline and discussions about student mental health issues, conflict mediation and restorative justice meetings, this cannot happen in the office space allocated.

- 2) Special Education Program needs - NHCA has students who have direct pull-out services for RSP, Speech, OT and DIS Counseling. It is very difficult to have these services delivered with only 2 special education classrooms allocated to Charter. Prior to this school year, when we had just 5th-8th graders on the Fair Ave ES campus, we were allocated two classrooms for special education. For the 2023-24 school year, NHCA has added almost 100 TK-4th grade students to Fair Ave. ES co-location, thus adding several more students with special needs, and have received the same two classroom allocations. NHCA needs a minimum of three classrooms for special education, especially in light of our very limited office space.
- 3) Similarly, based on learning loss from COVID remote instruction and the 35% EL population, the need for both English Language Arts intervention and Math intervention is very difficult to accomplish based on number of classrooms allocated for entire TK-8th grade school.
- 4) Outdoor play area - NHCA has had multiple challenges arranging its schedule with Fair Ave. ES administrators for shared use of outside playground space for recess and physical education needs. NHCA enrolls middle school students, who participate in more required minutes of Physical Education than elementary students; we have had challenges sharing the outside blacktop space between the Fair Ave ES and NHCA use. Additionally, there are times when NHCA students cannot use some areas of blacktop for basketball, volleyball, handball and kickball courts because Fair Ave ES does not want students in those areas.
- 5) Covered eating area - In past this has not been an issue, however this year the new Fair Ave ES interim Principal has dictated that both covered patio areas are unavailable to NHCA students for the entire 30-minute lunch period, even though in the past we had no issues with this. NHCA had to move its lunch start time and adjust our bell schedules to accommodate this new challenge with the exterior shared space.

The new Friar Street campus has available capacity to accommodate our entire TK-8 school at full enrollment of 300 students. (1.3) The Friar Street site is permitted for use as a school and has served as both a private church-operated school as well as more recently hosting charter schools on the campus, including Valley International Prep, an LAUSD-authorized charter school.

The Friar Street site is located within the Van Nuys/Valley Glen Community of Schools, near the intersection of Victory Boulevard and Van Nuys Boulevard, and two blocks south from Van Nuys High School. The surrounding area is both commercial and residential, with small apartment buildings, multi-family housing and single-family homes in the blocks surrounding the campus, and a variety of retail stores, fast-food and other merchants along the main boulevards. According to the Los Angeles Times' Mapping L.A. site, Van Nuys had a population of approximately 110,747 people in 2008, in an 8.99 square mile area. (1.4). Van Nuys is 60.5% Latino, 23.1% White, 6.4% Asian and 6.0% Black. (Ibid.) Only 15.3% of adults over 25 hold a four-year college degree, while 43.7% have less than a high school diploma. (Ibid.) Almost half (49.8%) of Van Nuys' residents are foreign-born, predominantly from Mexico and El Salvador. (Ibid.) The average income is \$41,134 (2008 dollars), which ranks Van Nuys among the very lowest average income rates across greater Los Angeles: 223rd

out of 265 neighborhoods tracked by the Mapping L.A. project.

The neighboring Valley Glen community is smaller at just 4.8 square miles, with a 2008 population of 62,846, according to Mapping L.A. (1.5) Valley Glen is 45.2% Latino and 39.5% White, with 5.4% Asian and 3.9% Black. (Ibid.) Average income is slightly higher than Van Nuys at \$46,175 (in 2008 dollars), with Valley Glen ranking 208th out of 265 neighborhoods in Los Angeles. (1.6) Educational attainment is also slightly higher, with 21.3% of Valley Glen's residents over 25 having a four-year college degree, and 33.3% with less than a high school diploma. Like Van Nuys, almost half (49.0%) of Valley Glen's residents are foreign-born, predominantly from Mexico and Armenia. (1.5).

Currently, 34 of our students reside in the Van Nuys/Valley Glen community, which we note is rather similar to our current community of North Hollywood. North Hollywood has a similar racial/ethnic make-up, with 57.7% Latino, 27.0% White, 5.7% Asian and 5.6% Black; average income is \$42,791 (in 2008 dollars); 18.5% have a four-year degree and 39.8% did not complete high school; and finally, almost half (46.6%) are foreign-born, primarily from Mexico and El Salvador. (1.7) In other words, based on our ten-plus years of experience in serving the adjacent, and very similar neighborhood, we are confident in our ability to meet the needs of the students who reside in the community surrounding our new school site.

We do anticipate that the overwhelming majority of our currently enrolled students, other than matriculating 8th graders, will make the move with us and continue to be enrolled at NHCA. While we will admit new students in grades 1-8, our focus is on newly eligible young students entering grades TK/K. With just 25 spots open for TK/K for 2024-25, we anticipate that NHCA's impact on the surrounding community will be quite minimal. Moreover, NHCA currently draws enrollment from 44 different LAUSD-operated "resident" schools our students would otherwise attend, thus the impact to any single school in the District is nominal. We already have begun conducting outreach in the community immediately surrounding the school site, as detailed throughout this CIA, including distributing flyers and introducing NHCA to several preschools, day care centers, Head Start and other community service programs in the neighborhood.

LAUSD policy does not (and should not) require a rigorous, resource-intensive community impact assessment, with the voluminous data compilation associated with that effort, in a situation like this. Not surprisingly, the results indicate that this will have an overall positive "impact" on the community, if it has any impact at all.

b. In consideration of the existing District and charter schools operating within the Community of Schools and three-mile radius, please describe pertinent information identified regarding the community for the proposed material revision.

LAUSD provided NHCA with a list of schools "operating within the Community of Schools and three-mile radius," including all of the elementary, middle and span (TK-8) schools within the Van Nuys/Valley Glen and Panorama City Communities of Schools, as well as some schools within the Monroe, Reseda and Sun Valley Communities of Schools. (1.8) Specifically, the target area includes:

Van Nuys/Valley Glen Community of Schools (1.9)

Van Nuys Complex:

Cardenas ES
 Chandler ES
 Columbus Ave ES
 Hazeltine Ave ES
 Kester Ave ES (and Kester Avenue Magnet)
 Sherman Oaks ES Charter
 Sylvan Park ES (and School for Advanced Studies)
 Van Nuys ES
 Van Nuys MS

Grant Complex:

Coldwater Canyon ES
 Erwin ES (and School for Advanced Studies)
 James Madison MS (Madison Computer Science & Engineering Design Magnet; Medical, Math and Science Magnet; and School for Advanced Studies)
 John B Monlux ES (and MST Magnet School)
 Kittridge St ES (and School for Advanced Studies)
 Riverside Drive Charter School (and School for Advanced Studies)
 Louis Armstrong Middle School (and Performing Arts Magnet; and Social and Gender Equity Magnet)

Panorama City Community of Schools (1.10)

Burton ES
 Noble ES (and School for Advanced Studies)
 Michelle Obama ES
 Ranchito ES (and School for Advanced Studies)
 Robert Fulton College Prep (6-12) (Communication Arts and Music Magnet; and School for Advanced Studies)
 Valerio ES
 Vista MS (and Sports Medicine/College Prep Magnet; Gifted S.T.E.A.M. Magnet; Social Justice/Law & Government Magnet)

Monroe Community of Schools (1.11)

Chase ES
 Cohasset ES
 Panorama City ES

Reseda Community of Schools (1.12)

Bassett Street ES (and Basset Media Arts and Technology Magnet)
 Gault Street ES (and School for Advanced Studies)
 Mulholland MS (and Mulholland Magnet, and School for Advanced Studies)
 Hesby Oaks Leadership Center (K-8)
 Lake Balboa College Preparatory Magnet (K-12)

Sun Valley Community of Schools (1.13)

Saticoy ES (and School for Advanced Studies)

Independent Charter Schools (1.8)

Ararat Charter School

Girls Athletic Leadership School

High Tech LA Middle School

Ivy Bound Academy for Math, Sci, Tech

Valley Charter MS

EVIDENCE TABLE

SECTION 2: FACILITIES PLAN	
COMPLETE THIS SECTION FOR ADDITIONAL SITE(S) OUTSIDE THE COMMUNITY OR CHANGE IN LOCATION OUTSIDE THE COMMUNITY (MOVE) REQUESTS. FOR REQUESTS TO SERVE ADDITIONAL GRADE LEVELS, PROCEED TO SECTION 3: COMMUNITY ENGAGEMENT	
Anticipated Timeline to Operate (i.e., provide public education to students) on the Proposed Additional Site or New Location	30-year lease with an option to purchase the property, starting with the 2024-25 school year.
Proposed Location (street address, city, and zip code)	14701 Friar Street, Van Nuys, CA 91411
LAUSD Community of Schools of the Proposed Location	Van Nuys/Valley Village
LAUSD Board District of the Proposed Location	3
LAUSD Region of the Proposed Location	West
Current Enrollment Capacity Authorized per Approved Charter (Enrollment capacity is defined as the total number of students who may be enrolled in Charter School regardless of student residency.)	300
Request to Change Currently Authorized Enrollment Capacity	☒ No ☐ Yes If "Yes", indicate proposed Enrollment Capacity:
NARRATIVE	
a. In the space below, briefly describe the facilities plan for the proposed additional site or new site (for a move) including, but not limited to, the steps the charter school has taken to research and/or secure facilities within the proposed community, and how the facilities plan serves the interests of the entire community.	
Like many charter schools in urban Los Angeles, NHCA has found that securing a suitable and long-term facility for our school has been one of our biggest operational challenges. Our entire school community has long desired a true "home" for NHCA, and we are delighted to have finally found one. Starting in May, 2017, NHCA retained three different private brokers to aggressively look for a new site for NHCA. The owner/landlord from NHCA's private site located at 5955 Lankershim	

Blvd, North Hollywood indicated they would not renew NHCA's lease beyond the second term of the private site lease, expiring at the end of June, 2023. Additionally, there have been many limitations and challenges associated with NHCA's Prop39 co-location allocation and arrangements, even before we moved our TK-4th graders to the Fair Ave ES campus. NHCA secured several private brokers to identify potential locations in the North Hollywood, Van Nuys, Valley Village community we serve. The Charter School has been in multiple negotiations with several locations over the years and yet until now, we were unable to secure an appropriate deal for our school.

The Friar Street location represents an ideal fit in terms of both size and positioning for our dynamic school community. NHCA has already taken significant steps to advance our plans, including collaboration with experienced architects (2.1) and a school facilities project management firm, as well as initiating the conformance desk review with LA City Planning and the LA Department of Building and Safety.

The project team already have designed plans for tenant improvements to the existing two-story educational building that are in substantial conformance with all previous city approvals. Importantly, NHCA's plans do not involve any significant alterations to the site or floor plans and the educational building will have minor upgrades to the site, systems and finishes. Exterior and Interior improvements will be made to bring the building up to current standards, focusing on ADA compliance, fire life safety, Title 24 energy requirements and other applicable codes as required by the city of Los Angeles Department of Building and Safety.

To ensure a seamless execution of this project, NHCA has engaged the expertise of Educational Facilities Group (EFG) a school facilities project management group, responsible for overseeing the entire project. EFG is actively coordinating with LA City Planning, the LA Department of Building and Safety, architects, and the construction team and will facilitate the timely completion of minor tenant improvements once NHCA's move is approved by LAUSD. (2.3 Tenant Improvement Budget). During recent discussions, both the LA City Planning department and the LA Department of Building and Safety indicated that, given the historical use of the site as school, the previous approvals of the construction and use of the educational building, the absence of any significant changes to the educational building and the alignment of our intended use with the property's previous school usage, there is a consensus that the existing Zoning Administrator approvals can be utilized and that a Conditional Use Permit (CUP) is not necessary.

NHCA is enthusiastic about securing LAUSD's consent for this relocation, which will allow us to move beyond the conditional lease term and commence tenant improvements, estimated to take six months for completion. Additionally, once LAUSD approves the move, we are ready to conduct an extensive outreach campaign within the surrounding neighborhood (beyond what has been completed to date in order to comply with this CIA) to ensure full community awareness of NHCA's new location and to provide everyone with an opportunity to attend.

NHCA's proposed move to a private facility will serve the interests of the entire community in various ways. First and foremost, it will alleviate Prop 39 pressure on the District by moving approximately 245 students from a Prop 39 co-location to a private facility. The LAUSD Board has recently discussed the challenges of Prop 39 co-locations and may adopt a more stringent policy in that regard. Second, NHCA will be investing approximately \$4.6M in revitalizing a long-abandoned property situated in this densely populated community. This revitalization endeavor promises an array of advantages for the local residents, ranging from

improved infrastructure to enhanced amenities and increased overall livability. Beyond the potential for property value appreciation, this investment contributes to a safer and more vibrant community, while elevating the overall quality of life in the area. Third, NHCA draws enrollment from a broad swath of the San Fernando Valley. The 245 students we currently have enrolled represent 44 different “resident” LAUSD schools across the San Fernando Valley. (2.2) With students coming to NHCA from a large variety of District “resident” schools, no single LAUSD school will see any measurable impact on their school community as a result of NHCA’s move to Van Nuys.

b. Provide a specific description, with supporting documentation, of each identified public or private site’s ability to accommodate the charter school’s enrollment projection.

The Friar Street property includes a two-story, 22,277 square foot school building and approximately 44,946 square feet of land. The site has ample space for our TK-8 program, including at full enrollment of 300 students. The occupancy of the school building is 1,200 people – four times the enrollment of our school and more than sufficient to accommodate faculty/staff, and even parents and community members for school events. (1.3) NHCA’s tenant improvements of the existing building will result in a facility with 14 classrooms (which each can accommodate as many as 35 students, though our planned class sizes will remain 20-30 students), a multipurpose room, five administrative offices, a conference room, a scullery, a computer lab, a STEM lab, a library, a 4,500 square foot paved outdoor play area with a covered patio, tether ball and wall ball court (in addition to existing play structures at the site), a new accessible chair lift, and an automatic fire sprinkler system. (2.3) The site’s current multipurpose room will be modernized and will serve both educational and athletic purposes, as well as providing an indoor space for students to enjoy meals.

PRIVATE SITES	
Is the charter school planning to utilize a private site (i.e., non-District site) for the proposed additional site or new site (for a move)?	☒ Yes ☐ No
If the charter school checked "Yes," please proceed to the next question in this section. If the charter school checked "No," please skip to the "DISTRICT SCHOOL SITE (Prop. 39)" table below.	
Has the charter school identified (e.g., has a current site, researched a site, leased a site, etc.) any specific potential private sites within the target community?	☒ Yes ☐ No
If the charter school checked "Yes," please complete the remainder of the table below for each potential private site. If the charter school checked "No," please skip to the "DISTRICT SCHOOL SITE (Prop. 39)" table below. If the charter school has identified more than two potential private sites, please copy and re-number the table below, as needed, for each additional site.	
Potential Private Site #1	
In the space below, please describe the specific steps the charter school has taken/is taking to research and secure this site. Please ensure the response includes the anticipated timeline to operate (i.e., provide public education to students) on the proposed site.	

A lease has been signed, contingent on various conditions being met, including LAUSD approval. Students will occupy the site starting August 2024 for the 2024-25 school year.

Tenant Improvement plans are completed and are being reviewed by the city of Los Angeles. It is anticipated that the Building and Safety department will review the plans and be ready to issue a construction permit in December 2023, and that construction will take approximately 6 months to complete. This will allow for move in to the site to take place in July 2024 and students will occupy the site in August 2024.

In the space below, please include a specific description, with supporting documentation, of this identified site's ability to accommodate the charter school's enrollment projection in its first year of operation at the proposed site and each subsequent year for the term of the charter, at this proposed site. Please also describe the extent to which the site is approved for the specific use in accordance with requirements of applicable building authorities, applicable laws, and expectations set forth in Section "I" (Facilities) of the *LAUSD Policy and Procedures for Charter Schools*.

As noted above, the site has a current occupancy of 1,200, per city records. NHCA's enrollment capacity, in accordance with the terms of its charter authorized by LAUSD, is 300 students, and at full enrollment we will have approximately 35 faculty and staff members.

The Friar Street site originally was designed as a school and it has operated as a school – including a public charter school – for many years. NHCA is reutilizing the existing site and two-story educational building primarily in its current configuration. The site plan and floor plans will remain the same as they are now. The tenant improvements to the building are to bring the building up to current applicable codes as well as modernize the finishes. The exterior site work will improve outdoor spaces while meeting ADA and other applicable requirements. The site has a long history of city approvals of the educational building, which include:

1. Permit #1958VN23031 (2.4) – Permit for addition of an educational building which states the existing and proposed use as “educational facilities and church.” This permit includes a site plan depicting the “educational addition” which is the two-story educational building where the proposed Project would continue to operate.
2. Letter of Determination for ZA-17750 (1966) (2.5): This Zoning Administrator (ZA) determination acknowledges the previous and historical use of the school facilities and provides conditions specifically for the four classrooms on the ground floor, to be operated as a nursery school for younger children. The Project would comply with these conditions by utilizing these classrooms for the youngest students.
3. Permit #1966VN96301 (2.6): This permit and site plan correspond to the ZA-17750 approval, as it is stamped with the case number. As ZA-17750 is the prevailing CUP entitlement, the proposed project would maintain substantial conformance to this site plan. The proposed project does not include an increase in number of classrooms, capacity, or changes in the use of each space within the building which means that the improvements are considered minor and are in ‘substantial conformance’ with previous city approvals and actions.

4. Email discussion with Mayela Villa of the City of Los Angeles DSC Counter (2.7). We conducted a meeting with her and provided her these documents to review. Based on the email feedback she provided, she and her supervisor suggested that this project may be permitted with just a building permit if the existing approvals and conditions were complied with. City staff will complete a substantial conformance review of the tenant improvement plans and will provide final confirmation in the coming weeks.

Refer to the current Certificate of Occupancy (COO), or equivalent document issued by the applicable jurisdictional authority, for the private site to provide the information requested in the rows below. Please ensure that a copy of the COO (or equivalent) is included in the Section 2 Evidence folder and listed in the Section 2 Evidence Table above.

Address: 14701 Friar Street, Van Nuys, CA 91411

Maximum Occupancy: 1,200

Approved Use(s): School Building

Issuing Authority (e.g., "City of Los Angeles"): City of Los Angeles

Does the site require* any construction-related activities or other facilities improvements to prepare the site for use as described in the petition (including, but not limited to, the site's ability to accommodate the school's enrollment roll out plan)?

☒ Yes x
☐ No

*Please refer to "Charter Schools Facilities Requirements" on p. 71 of the *LAUSD Policy and Procedures for Charter Schools* for applicable requirements.

If any construction-related activities or other facilities improvements to the site are necessary to comply with applicable law, please provide a brief description (e.g., scope, itemized construction-related activities, and estimated cost) of these construction-related activities or other facilities improvements in the space below.

As noted above, Exterior and Interior improvements will be made to bring the building up to current standards, focusing on ADA compliance, fire life safety, Title 24 energy requirements and other applicable codes as required by the city of Los Angeles Department of Building and Safety, Los Angeles City Fire and other applicable city departments. ADA improvements include exterior grading, a new elevator or HC lift and accessible ramp(s); fire life safety upgrades include a monitored fire alarm system and fire sprinklers; new or retrofitted doors and windows to meet accessibility requirements as well as Title 24 provisions; new lights and wall outlets; new HVAC system; upgraded plumbing fixtures; and other improvements as required by the city of Los Angeles. Landscaping will be provided throughout. Additionally the site will receive cosmetic improvements including new finishes and fixtures such as new flooring, paint, windows, doors, and bathroom accessories, as required. (2.3)

All work will be done to current applicable codes through the city of Los Angeles Department of Building and Safety.

The projected cost of the tenant improvements is approximately \$4.6M, which NHCA plans to finance via a construction loan/line of credit. The budget attached to this CIA includes specific details about the financing costs and repayment terms, built in the budget for the coming years.

Please provide the requested information in the rows below, consistent with the description above.

Projected maximum occupancy of the site as the result of the above-described planned construction-related activities or other facilities improvements: The site is authorized to house 1,200 individuals.

Projected Cost: Approximately \$4,600,000

Projected Schedule (start date / completion date): We anticipate that the Building and Safety department will review the plans and be ready to issue a construction permit in December 2023. Construction will take approximately six months to complete. Based on the Charter School Division's posted calendar of timelines for Material Revisions, by submitting this Material Revision request and CIA in mid-September, we would be scheduled for an LAUSD Board vote January 23, 2024. ***Since this Material Revision is an administrative decision that does not require LAUSD Board authorization, we respectfully request that CSD staff help us expedite this request so that we can commence construction as soon as the construction permit is issued.*** With construction complete in June or July 2024, our staff will move in and students will commence their first day of school at the new location on August 19, 2024.

Potential Private Site #2

In the space below, please describe the specific steps the charter school has taken/is taking to research and secure this site. Please ensure the response includes the anticipated timeline to operate (i.e., provide public education to students) on the proposed site.

Not applicable.

In the space below, please include a specific description, with supporting documentation, of this identified site's ability to accommodate the charter school's enrollment in its first year of operation and each subsequent year for the term of the charter, at this proposed site. Please also describe the extent to which the site is approved for the specific use in accordance with requirements of applicable building authorities, applicable laws, and expectations set forth in Section "I" (Facilities) of the *LAUSD Policy and Procedures for Charter Schools*.

Refer to the current Certificate of Occupancy (COO), or equivalent document issued by the applicable jurisdictional authority, for the private site to provide the information requested in the rows below. Please ensure that a copy of the COO (or equivalent) is included in the Section 2 Evidence folder and listed in the Section 2 Evidence Table above.	
Address: Click or tap here to enter text.	
Maximum Occupancy: Click or tap here to enter text.	
Approved Use(s): Click or tap here to enter text.	
Issuing Authority (e.g., "City of Los Angeles"): City of Los Angeles	
Does the site require* any construction-related activities or other facilities improvements to prepare the site for use as described in the petition (including, but not limited to, the site's ability to accommodate the school's enrollment roll out plan)?	☐ Yes ☐ No
*Please refer to "Charter Schools Facilities Requirements" on p. 71 of the <i>LAUSD Policy and Procedures for Charter Schools</i> for applicable requirements.	
If any construction-related activities or other facilities improvements to the site are necessary to comply with applicable law, please provide a brief description (e.g., scope, itemized construction-related activities, and estimated cost) of these construction-related activities or other facilities improvements in the space below.	
Please provide the requested information in the rows below, consistent with the description above.	
Projected maximum occupancy of the site as the result of the above-described planned construction-related activities or other facilities improvements: Click or tap here to enter text.	
Projected Cost: Click or tap here to enter text.	
Projected Schedule (start date / completion date): Click or tap here to enter text.	

DISTRICT SCHOOL SITE (Prop. 39)

Does the charter school intend to submit a request for use of District facilities pursuant to Education Code § 47614 (Prop. 39) for this proposed additional site or change of location (for a move)?

☐ Yes
☒ No

Per the *LAUSD Policy and Procedures for Charter Schools*, a petitioner's stated intention to use District facilities pursuant to Proposition 39, by itself, will not be deemed against the entire community's interest, but the petitioner shall include, in its facilities plan, detailed information and analysis regarding the specific District school site(s) where the petitioner wishes to locate.

Facts related to District facilities (e.g., sale of property, increases in enrollment, etc.) are subject to change.

Proposition 39 facilities are determined on an annual basis through a separate annual process, pursuant to applicable law and regulation. As such, petitioners should not make assertions that may be inconsistent with that regulatory process and requirements.

NOTE: Completion and submission of this section *does not* constitute a facilities request under California Education Code § 47614 and its implementing regulations.

**SECTION 3:
EVIDENCE of COMMUNITY ENGAGEMENT**

NARRATIVE

a. In the space below, describe and provide documented evidence of transparent, inclusive, and active community engagement activities and outreach specific to the proposed action (i.e., addition of a site, move, or expansion of grade levels served) within the target community (i.e., the community, as defined in the *LAUSD Policy and Procedures for Charter Schools*, that the charter school proposes to serve) in which the proposed additional site or new site (for a move) seeks to locate or the proposed expansion of additional grade levels served will occur, including, but not limited to, engagement with the following stakeholder groups:

- ☐ Parents in the community
- ☐ Existing public schools (as indicated on the list of Schools within the Community provided by the CSD)
- ☐ Neighborhood councils
- ☐ Community-based organizations
- ☐ Elected representatives
- ☐ LAUSD Region(s) and Community of Schools leadership
- ☐ LAUSD Board of Education members

With the move of current, existing students from the Prop 39 site to Friar Street, we do not agree that the level of community outreach required by LAUSD policy applies in this case. As noted above, the 245 students we currently have enrolled represent 44 different “resident” LAUSD schools across the San Fernando Valley. (2.2). As a successful charter school in operation for ten years now, the broader San Fernando Valley community is aware of NHCA.

Nevertheless, in an effort to be expedient and meet District staff requests, we notified our own parent community as well as the broader community surrounding the school about a Town Hall event we were able to host at the new Friar Street location, thanks to the cooperation of our property owner. While only three parents attended the Town Hall on September 6th, (3.1) we will host several additional events in the coming months once LAUSD approves the move. NHCA also contacted the Van Nuys Neighborhood Council (3.2) and also wrote to LAUSD Board Members Kelly Gonez and Scott Schmerelson (3.3, 3.4).

In addition to the above, NHCA also did the following:

Stakeholder Outreach:

Parents in the Community: NHCA is dedicated to conducting regular outreach to current and prospective families. In July 2023 we were thrilled to add our first Parent Coordinator to our staff, Yahjaira Arevalo. Ms. Arevalo will be leading NHCA's outreach efforts in the community, focusing on underserved students in the area, including students who are English Learners and students with disabilities.

For the purpose of this community impact assessment, the school engaged in the following activities to inform parents and community members of this plan through two bilingual written notices and a Town Hall informational meeting with translation services:

Specific Actions Taken to Inform Parents:

- Bilingual Social Media Post on Patch notifying parents in the community about the intended move. The post included contact information for school representatives, inviting community members to reach out with questions or comment. Additionally, the post included an invitation for the Town Hall informational meeting we held at the Friar Street site. (3.5)
- The Town Hall informational meeting was held on September 6, 2023. Translation services were available in Spanish and Armenian for the meeting. (3.6)
- Bilingual flyers about NHCA and the Town Hall were distributed to preschools, Head Starts and day care centers (listed below), laundromats, churches, and active streets. Virtually the post was also uploaded on the school website and emailed to stakeholders as detailed below. (3.7-3.9)

Existing Public Schools: Ms. Arevalo, our Parent Coordinator, sent an email communication to each of the public and charter schools serving grades TK-8 that were identified by LAUSD as being “within the Community of Schools and a three mile radius” from the Friar Street site (1.8), notifying them of the plan to move from our current Prop 39 co-location on the Fair Avenue Elementary School campus to a private facility in Van Nuys starting with the 2024-25 school year. (3.10, 3.11)

Local District Leadership: In addition to outreach to existing public and charter schools, Ms. Arevalo also emailed a similar communication to David Baca, Superintendent for Local District Northwest. (3.12)

Community of School Leadership: In addition, Ms. Arevalo also emailed a similar communication to Vicky Damonte, Administrator for the Van Nuys/Valley Glen Community of Schools. (3.13)

Elected Officials: NHCA also conducted significant outreach to several local elected officials to inform them of the town hall and seek support for NHCA’s facility move.:

Specific Action Taken to Inform Elected Officials:

- Ms. Arevalo sent an email to Imelda Padilla, Councilmember of Los Angeles City Council District 6, (3.__, 3.__) notifying her of the plan to move from our current Prop 39 co-location on the Fair Avenue Elementary School campus to a private facility in Van Nuys starting with the 2024-25 school year.
- Ms. Arevalo sent an email to Kathy Schreiner, Board President of the Van Nuys Neighborhood Council, (3.2) notifying her of the same plan.
- Ms. Arevalo sent an email to Kelly Gonez, Board Member of the LAUSD Board of Education and representing Board District 6, (3.3) notifying her of the same plan.
- Ms. Arevalo sent a similar email to Assemblymember Jesse Gabriel. (3.16)
- Ms. Arevalo sent a similar email to State Senator Caroline Menjivar. (3.17)

Community Based Organizations: Given that the openings in our school are predominantly in TK/K, we focused our outreach at this point on local preschools, Head Starts and day care centers in the surrounding area. We notified several agencies such as CCRC and Buonora that provide a variety of services to families, including child care placements for younger

children. NHCA distributed physical town hall flyers and information about NHCA to the following preschools and day care centers (3.18):

1. Head Start Preschool: 5944 Woodman Ave, Van Nuys, CA 91401
2. CCRC Sherwood: 7224 Woodley Ave, Van Nuys, CA 91406
3. CCRC Head Start Sepulveda: 15435 Rayen St, North Hills, CA 91343
4. Buonora Child Development Center: 19325 Sherman Way, Reseda, CA 91335
5. Van Nuys Civic Child Development: 14350 Sylvan St, Van Nuys, CA 91401
6. Church of the Valley Preschool: 6565 Vesper Ave. Van Nuys, CA 91411
7. Van Nuys Christian Preschool: 6260 Tyrone Ave, Van Nuys, CA 91401
8. Beginnings Learning Center: 6903 Tyrone Ave, Van Nuys, CA 91405
9. Apple School Early Childhood Educational Center: 14123 Victory Blvd, Van Nuys, CA 91401
10. Montessori House of Children: 6252 Woodman Ave, Van Nuys, CA 91401
11. ABC Little Schools: 11728 Moorpark Street Studio City, CA 91604/6447 Woodman Ave, Van Nuys, CA 91401
12. The Sherman Oaks Nursery School: 14435 Killion St, Sherman Oaks, CA 91401
13. Sherman Oaks Child Care: 14415 Magnolia Blvd. Los Angeles, CA 91423
14. Smile Learning Academy: 16930 Sherman Way, Van Nuys, CA 91406
15. Harmon Oaks Nursery School: 7028 Balboa Blvd, Lake Balboa, CA 91406
16. Happy Preschool Land: 5727 Vanowen St, Van Nuys, CA 91406
17. Sunflower Montessori: 15520 Sherman Way. Van Nuys, CA 91406
18. Hrashq Pre-School: 7220 Hazeltine Ave. Los Angeles, CA 91405
19. The Nurtury Preschool: 14401 Dickens St, Sherman Oaks, CA 91423
20. First Steps Family Daycare: 13811 Archwood St, Van Nuys, CA 91405

b. In the space below, describe how various communications media have been used to reach diverse constituencies. Please provide a record of outreach efforts specific to the proposed action and audiences reached (e.g., multilingual notices, materials, meeting agendas, sign-in sheets, survey results, etc.) in the Evidence Table below.

As detailed in the preceding section: information was shared on social media, at a public Town Hall, via emails, physically delivering and posting information and flyers. All information provided has been in both English and Spanish. NHCA also has Armenian translation available.

NHCA has dedicated and professional staff who translate all written communications and who are available for translation during events and conferences. The following specific bilingual outreach was conducted regarding this community impact assessment:

- Bilingual communication to NHCA families (3.) with notice of the Town Hall and opportunity to attend.
- Bilingual Social Media Post on Patch notifying parents in the community about NHCA's plan to move. Contact information was included in the notification inviting parents to reach out with questions or comments. (3.)
- Translation in Spanish and Armenian was available at the Town Hall at the Friar Street location. (3.)

c. In the space below, please provide a summary of the responses received from stakeholders. In the Evidence Table below, include publicly disclosable information/documentation of stakeholders' responses (to the extent possible) which will be shared with the LAUSD Board.

Responses were received from the following stakeholders:

- Senator Menjivar: The District Representative, Jasmin Hernandez, wrote: "We would like to know in which ways our office can be of support to your team or organization. Is there any opportunity to visit the North Hollywood campus and discuss?" (3.19)
- Chandler Elementary: "Thank you." (3.20)
- Girls Athletic Leadership School: "Received." (3.21)
- Sylvan Park: ""Welcome to our neighborhood... Looking forward to meeting you and working together to serve the Van Nuys community." (3.22)
- Van Nuys Middle: "Thank you for your email. Best wishes for a great 23-24 school year." (3.23)

EVIDENCE TABLE
(Add additional rows as needed)

Citation	File Name	Link (optional)	Description of Evidence
3.1	3.1 Town Hall Sign-in		Sign-in sheet of attendees at town hall
3.2	3.2 Van Nuys Neighborhood Council Outreach		Emailed outreach to board president of Van Nuys Neighborhood Council
3.3	3.3 Board Member Gonez Outreach		Emailed outreach to Board Member Gonez
3.4	3.4 Board Member Schmerelson Outreach		Emailed outreach to Board Member Schmerelson
3.5	3.5 Patch Posting		Social media posting on Patch

3.8	3.8 Physical Town Hall Postings		Sample of physical postings of town hall meeting in surrounding neighborhoods

3.9	3.9 Website Town Hall Posting		Posting of town hall meeting on NHCA website
3.10	3.10 Existing Public Schools Outreach 01		Outreach to public schools from LAUSD list of schools (first set)
3.11	3.11 Existing Public Schools Outreach 02		Outreach to public schools from LAUSD list of schools (second set)
3.12	3.12 Superintende nt for Local District NW Outreach		Outreach to Superintendent for Local District Northwest
3.13	3.13 Van Nuys_Valley Glen CoS Administrator Outreach		Outreach to Administrator for the Van Nuys/Valley Glen Community of Schools
3.14	3.14 City Councilmemb er Padilla Email Outreach		Outreach to City Councilmember Padilla
3.15	3.15 City Councilmemb er Padilla Instagram Outreach		Outreach to City Councilmember Padilla
3.16	3.16 Assemblyme mber Jesse Gabriel Outreach		Outreach to Assemblymember Jesse Gabriel Outreach
3.17	3.17 State Senator Caroline Menjivar Outreach		Outreach to State Senator Caroline Menjivar Outreach
3.18	3.18 Sample of Preschools_ Daycares		Sample of preschools/daycares where town hall fliers were physically distributed

3.19	3.19 Senator Menjivar Response		Emailed response from Senator Menjivar's office
3.20	3.20 Chandler Elementary Email Response		Emailed response from Chandler Elementary
3.21	3.21 GALS Email Response		Emailed response from Girls Athletic Leadership School
3.22	3.22 Sylvan Park Email Response		Emailed response from Sylvan Park
3.23	3.23 Van Nuys Middle Response		Emailed response from Van Nuys Middle

**SECTION 4:
ASSESSMENT of DUPLICATION of PROGRAMS CURRENTLY OFFERED
BY EXISTING PUBLIC SCHOOLS IN THE COMMUNITY**

NARRATIVE

a. In the space below, please list and provide brief descriptions of all key programs offered by the charter school (inclusive of the proposed additional grade levels being requested, if applicable). For each program listed, please also include citations to the applicable page(s) in the charter wherein the program is described. For purposes of this section, a **“program” consists of systemized activities, services, and/or strategies implemented to meet identified education goal(s) for students with measurable outcomes that are regularly monitored.** If a program focuses on goals/benefits for a specific student group (e.g., English Learners, Students with Disabilities, etc.), please indicate this in the brief description of the program.

Here, LAUSD effectively asks us to chop up our already comprehensive 383-page charter petition in a way that is neither logical to the way we operate nor required by the state charter law. Our “program” is a carefully designed, integrated set of strategies and research-based “best practices” that are careful personalized and differentiated to meet each individual student’s needs. We use blended learning, integrating tech-based tool for personalization, along with project-based learning, co-teaching in an inclusive learning community with push-in and pull-out services and supports for individuals and groups of students (including integrated and designated ELD for English Learners). The following highlights some of our key strategies and practices, which, **collectively**, are not duplicated by any other school across LAUSD, to our knowledge.

Programs for Improving Student Learning:

Unique Set of Research-Based Curriculum Design and Implementation Practices

- New Horizons Charter Academy utilizes curricula with a proven track record and research base: (Pages 138-166, 151; for your convenience a copy of the charter petition is included in the Section 4 Evidence folder) Subjects include math, English language arts, designated and integrated English language development, science, social studies, visual and performing arts, physical education, and life skills. Curricular design also includes supplemental curricula that is used under NHCA’s blended learning model.
- Backwards Design: (Pages 138-140) New Horizons Charter Academy teachers plan units of study collaboratively with an emphasis on mastering the CA State Standards using the ‘backwards design’ guidelines described in *Understanding by Design*.
- State-of-the-art STEMLab program. Our STEMLab is complete with 17 independent learning modules for students in grades 4-8 (Drones, Computer building, Lasers, Structural Engineering, 3D-Printing, Robotics, Rockets, Flight Simulator, Video Production, Audio Production, Textiles, Culinary Arts). Students rotate three times weekly into the STEMLab, where they learn the theory of STEM behind each of the career modules at the same time they build a functional product in collaborative pairs. NHCA has been visited by multiple middle and high schools to observe the amazing learning, collaboration and production occurring in this lab.

Unique set of research-based and continuously refined pedagogies and instructional practices

- Learning Projects (Pages 110 – 111): Students' interests and previous knowledge are valued as teachers prompt students to engage in projects that require them to investigate, explore, test, refine, reflect and more.
- Differentiating Instruction to Meet the Needs of All Learners (Pages 139-140, 152): Teachers design innovative instructional strategies by differentiating the content, process, and products delivered to students in order to provide equal access for all learners (including English learners and students with special needs). NHCA makes intentional use of live data to drive real-time instructional decisions and empower students.
- Extended Instructional Opportunities (Pages 134 and 136): Students at NHCA have the opportunity to attend Saturday School, which is held twice a month, 9 am to 1 pm, after the end of the 1st Quarter. Each teacher holds tutoring for our Rtl-identified students twice weekly from 3:00 pm to 3:30 pm.

Increase Learning Opportunities for All, with Special Emphasis on Students with Special Needs

- Co-teaching Model & Inclusive Learning Community (Pages 112-113): Classes use a co-teaching model and all students benefit from instruction that is thoroughly planned by general and special education teachers in partnership. Co-teaching across grade levels includes active instruction delivered jointly along with joint planning and assessment.
- Blended Learning Rotational Instructional Design (Pages 150 - 151): The Blended Learning Model provides up to three daily student rotations for both Mathematics and English Language Arts, with additional weekly rotations for Science and Social Studies.
- Visual and Performing Arts Program (Pages 14, 160 - 161): A part-time visual arts specialist and part-time music specialist travels to all classrooms weekly, with lessons aligned to the California State Content Standards for the Visual and Performing Arts.
- Life Skills Curriculum (Page 161 - 163): New Horizons Charter Academy's Cloud9 Social-emotional curriculum incorporates a rigorous and developmentally appropriate program of values and character education to prepare students to thrive in high school, college and the world.
- Daily Clubs (Page 95): Daily clubs provide English learners, students with special needs and all of our students with more opportunities to showcase their strengths and to practice the skills they need to be successful in school. In our clubs program, students to self-select an area they are interested in and grow in that area. Our intention is that students find a club they are passionate about and be more engaged during the school day knowing that participation in the club is a reward for successfully completing the day.
- Special Education Staffing Model (Page 94): NHCA's Case Manager of Special Education Services directs the SpEd team which includes our Resource Teacher, Speech Therapist, Nurse, Occupational Therapist, Adapted PE instructor, and Behaviorist and Special Education. All provide integral support, training and collaboration with our classroom teachers, in addition to push-in and pull-out services for the students with special needs
- Designated and Integrated EL Program (Pages 183-184, 185-187, 191): Integrated ELD takes place in the general education classroom with SDAIE strategies and is led by the general education teacher. Designated ELD takes place during the morning

ELA block, delivered by the classroom teacher and reading intervention specialist.

- Response to Intervention and Student Success Team (Pages 198-200): NHCA meets the needs of students achieving below grade level students using the three-tiered Response to Intervention (RTI) model. For students with low Istation Reading and Math, DIBELS, NWEA MAP and SIPPS results, or for students who are not demonstrating adequate progress with classroom interventions, that student may be referred for a Student Success Team (SST) meeting. Two unique interventions are the Reading and Math Success classes where rotations in class are used to support students with the use of a distinct set of software programs *IStation Reading, Istation Math, Freckle and Wonders, BrainPOP, EPIC, DiscoverEducation, RevolutionK12, and Pearson Digits*.

Unique set of research-based academic and nonacademic accountability systems and practices

- Aligning Assessments to Desired Results (Pages 138-139): Teachers assess student mastery of standards-aligned content throughout the unit of study using a variety of methods, including both formative and summative assessments.
- Varied and Authentic Assessments (Pages 213-215; 229-233): NHCA outcome measurement process uses a variety of resources to ensure that assessment guides instruction and that major outcomes are met. The process consists of a series of assessment tools, including Entry-Level, Monitoring, and Summative assessments.
- Data Analysis and Reporting (Pages 215 - 235): NHCA regularly utilizes quarterly benchmark and weekly assessment data to make changes in the implementation of the educational program, professional development activities, and resource allocations. Data analysis and reporting process components include: a variety of assessments (from school designed, to publisher designed, to standardized, to observations); weekly mini and quarterly benchmarks review and analysis; incorporation of varied and authentic assessments; the data management system; disaggregation of data at the school, class, individual student, and subgroup levels. Teachers are provided time during the bell schedule to collaborate, as well as early dismissal sessions on Wednesdays to collaborate, review data, engage in targeted professional development and coaching.

Technology integration in core academic areas to improve student's level of understanding, and increase interest in learning (Pages 164 – 165)

- All the classrooms have Interactive and SMART boards (including SMART Notebook software) to provide instruction to reach students' multiple learning modalities, support struggling students at their level of performance, and challenge other pupils to advance to their next level of academic achievement
- All classrooms and all students have supervised access to the Internet, and state-of-the-art educational technology, such as SMART Boards, flat screen computers, Chromebooks and iPads.

Distinct Mix of School Culture and Discipline Design

School Climate and Discipline System (Pages 92, 297 - 302): NHCA bases its Discipline Foundation Policy on guiding principles outlined in our Mandala Words. The word "mandala" means circle. It represents wholeness, and can be seen as a model for the organizational structure of life reminding us of our relation to the infinite, the world that extends both beyond and within our bodies and minds. NHCA also

implements a three-tiered Restorative Justice model in conjunction with School-wide Positive Behavior Intervention and Support. The Restorative Justice Framework includes training in Dynamic Mindfulness for teachers and scholars to support development of emotional control, stress management and response to trauma.

Programmatic Focus on College Readiness and Awareness + College/University Partnerships

- College Readiness and Awareness (Pages 81 and 134): To ensure college graduation, we emphasize college readiness and awareness starting in kindergarten. Students along with their families visit local universities as early as kindergarten.
- California State University, Los Angeles and Northridge Partnerships (Page 13): Our staff, university, and community partners collaborate to offer monthly workshops to parents which include culturally responsive education, Response to Instruction and Intervention Program, health awareness and nutrition, behavior modification/management strategies and approaches to nurture and motivate students. California State University Los Angeles and Northridge faculty also meet with the NHCA parents to address topics and workshops relevant to student learning and parenting issues.

Programming to Increase Parent Participation and Student Supports:

- Parent Education Classes and Workshops (Page 13): Parent education classes are held at NHCA. Kindergarten teachers develop parent workshops focused on modeling effective strategies to build phonemic awareness, health and nutrition, and oral language development activities. Our school also involves parents in Language Arts-Math-Science Night.
- Regular Communication with and Supports for Parents (Pages 12-13): Includes parent orientation and conferences, progress reports and report cards, bi-annual student awards, parent newsletter, and on the website – homework assignments, upcoming tests, learning benchmarks NHCA offers parents after-school student supervision, homework support, sports, and other enrichment learning activities through the services of Youth Policy Institute and grant-writing opportunities.

Programming on Developing Quality Staff, Including Shared Responsibility in Enhancing School Model:

- "The College-Ready Promise" (TCRP) Teacher Observation Framework (Page 178): NHCA utilizes "The College-Ready Promise" (TCRP) Framework which provides an observation framework for teacher evaluations with rubrics that can be accessed with a tablet or laptop.
- Supporting Teachers' Pursuit of Professional Development (Pages 14-15): NHCA promotes and supports teachers' pursuit of academic research to enhance the effectiveness of the learning programs they are responsible to teach. NHCA teachers participate in local, state and national conferences, workshops and seminars, as resources allow.

b. If applicable, in the rows below, please provide a brief description of each of the key programs offered by the charter school (inclusive of the proposed additional grade levels being requested, if applicable) that the petitioners assert are **not** currently offered by the existing public schools in the community. Provide responses to all the questions for each key program listed. Ensure

that these program descriptions are consistent with the description of the instructional program in the charter petition and include applicable citations (i.e., reference to the specific pages describing the program in the school's charter).

(Add additional rows to the table below as needed)

NHCA RESPONSE TO 4.b. LAUSD's requests appear to exceed the intent and purpose of the state charter school law. If an existing, successful charter school wants to move *within the same district* to a new facility, it should not first be required to prove that it will not duplicate existing schools.

Thoroughly completing this request, as written, could take hundreds of hours to provide a complete response, especially because it is unclear where we would even gather this information, since it is not readily available.

Furthermore, this section of the CIA asks charter schools to isolate "programs" that do not operate in isolation. At NHCA, our strategies and approaches are integrated and do not operate in segregated silos. Our "program" is thoroughly detailed in our most recent charter petition, approved by the LAUSD Board, including details about how many students are served, the activities and/or services related to the program, the educational goals of the program and so on. This request is akin to asking a baker to identify all the nearby bakeries that also use flour, or sugar, assuming that if they do, they must be doing things in the exact same way as the first baker. NHCA has been serving the San Fernando Valley for 10 years now. CSD staff have been to the school and evaluated it favorably on an annual basis, and the charter has been renewed by the LAUSD Board.

Name of Program and brief description (Include applicable charter citation(s))	Please provide responses to all six questions below for <i>each</i> program
Program 1 Name: Brief description: Applicable charter citation(s):	Program 1 (Responses) 1. Which student groups does/will the program serve? How many students currently/will participate? 2. How is the program currently or proposed to be implemented? Describe the activities and/or services related to the program. 3. What is the educational goal(s) of the program? 4. How are the educational goal(s) of the program aligned to identified academic need(s) in the community? 5. What are the measurable expected outcomes of the program? 6. How and when is the program monitored/proposed to be monitored?
Name of Program and brief description	Please provide responses to

(Include applicable charter citation(s))	all six questions below for <i>each</i> program
Program 2 Name: Brief description: Applicable charter citation(s):	Program 2 (Responses) 1. Which student groups does/will the program serve? How many students currently/will participate? 2. How is the program currently or proposed to be implemented? Describe the activities and/or services related to the program. 3. What is the educational goal(s) of the program? 4. How are the educational goal(s) of the program aligned to identified academic need(s) in the community? 5. What are the measurable expected outcomes of the program? 6. How and when is the program monitored/proposed to be monitored?
Name of Program and brief description (Include applicable charter citation(s))	Please provide responses to all six questions below for <i>each</i> program
Program 3 Name: Brief description: Applicable charter citation(s):	Program 3 (Responses) 1. Which student groups does/will the program serve? How many students currently/will participate? 2. How is the program currently or proposed to be implemented? Describe the activities and/or services related to the program. 3. What is the educational goal(s) of the program? 4. How are the educational goal(s) of the program aligned to identified academic need(s) in the community? 5. What are the measurable expected outcomes of the program? 6. How and when is the program monitored/proposed to be monitored?
c. In the space below, discuss the extent to which the charter school's instructional program proposed to be implemented at the additional site, new site (for a move), or for the requested additional grades, would or would not duplicate the current programs offered by public schools (District and charter) operating (currently providing public education to students) within the target community which serve any of the same grade levels to be served by the charter school. As applicable, discuss and cite any research supporting your response.	

We are not aware of a single school within LAUSD that is duplicative of NHCA's comprehensive model, including the schools identified on LAUSD's list of schools for purposes of this CIA.

Based on publicly available information about each of the District's traditional and magnet schools (which is limited), and the charter schools in the surrounding area, **none** of these schools offers the same combination of blended learning; co-teaching; extra learning time; learning projects; technology integration; life skills curriculum; visual and musical arts and PE; discipline policy based on Mandala Words, restorative justice and PBIS; university partnerships; comprehensive parent education; and more, that is uniquely offered at NHCA in our small school environment with just 300 students max in grades TK-8.

To research the 38 surrounding schools LAUSD identified for this CIA, we looked at each school's website, School Mint, and their School Plans for Student Achievement. The availability of specific information about each school varied widely. Our research focused on the 5 schools that are within 1.0 miles of the NHCA new site, as well as the closest middle school. All are part of the Van Nuys/Valley Glen Community of Schools.

Cardenas ES: Emphasizes math, science, and technology; developing effective communication skills; and the ability to problem solve and provide community through inquiry- and project-based learning. The arts program includes dance, instrumental music, and visual arts. Students participate daily in the school's character program, with lessons on empathy, conscience, respect, self-control, tolerance, fairness and kindness. An Intervention Lab serves students from any grade who are reading below grade level. A Parent Center provides workshops for enrolled families and the community. The school also offers a preschool program, as well as after-school programming via LA's Best and Youth Services. (4.1, 4.2)

It does not appear that Cardenas ES offers blended learning or tech-integration throughout the school with SMART Boards, online learning and assessments, or the degree of differentiation and personalization in a data-driven environment that NHCA offers. It is unclear how they emphasize math, science and tech or whether they have something like our STEMLab, but they do not appear to offer the unique modules we have developed for our STEMLab program. They do not appear to offer extra learning time (Saturday school), the amount of teacher coaching, evaluation and professional development that we offer, parent education led by university partners, college visits starting in kindergarten, or much more. NHCA is not duplicative of Cardenas ES.

Columbus Ave ES: Columbus Avenue Elementary promotes a safe, respectful environment that fosters each child's maximum academic potential in order to become a successful member of the community and society. The administration organizes and delivers parent workshops and parent meetings on student formative data. The school's art program offers dance, music, and visual arts; their after-school programs provide extracurricular activities such as soccer, football, basketball, softball, dance, and the Science fair. (4.18, 4.19)

Columbus Ave ES does not appear to offer blended learning or tech-integration throughout the school with SMART Boards, online learning and assessments, STEMLab, or the degree of differentiation and personalization in a data-driven environment that NHCA offers, or project-based learning. They do not appear to offer extra learning time (Saturday school), the amount of teacher coaching, evaluation and professional development that we offer, parent education led by university partners, college visits starting in kindergarten, or much more. NHCA is not duplicative of Columbus ES.

Sylvan Park ES (School for Advanced Studies): Sylvan Park maintains high expectations for all students while providing rigorous, standards-based, and real-world learning experiences. The program emphasizes partnership with its families and community, e.g. providing parent workshops in Dynamic Indicators of Basic Early Literacy Skills (DIBELS), math, and phonological awareness. Among its staff are a full-time nurse and psychologist, two instructional coaches (ELA & math), and a part-time IT support position. Their art program includes theater arts and vocal music. Before- and after-school programming includes LA's Best; Ready, Set, Go!; and Youth Services. The school maintains a Parent and Family Center. (4.53, 4.54)

Again, Sylvan Park ES does not appear to offer blended learning or tech-integration throughout the school with SMART Boards, online learning and assessments, STEMLab or the degree of differentiation and personalization in a data-driven environment that NHCA offers, or project-based learning. They do not appear to offer extra learning time (Saturday school), the amount of teacher coaching, evaluation and professional development that we offer, parent education led by university partners, college visits starting in kindergarten, or much more. We also do not operate a separate, test-based admission program for our "gifted" students and instead have an integrated program where all students learn together, side by side, in a highly collaborative co-teaching model. NHCA is not duplicative of Sylvan Park ES.

Van Nuys ES: As a community school, Van Nuys Elementary strives to provide a learning environment where all children can learn and thrive and for our school to be the hub for the community where families access health, social-emotional, mental health, and enrichment support for students. Cognitively guided instruction is a key pedagogy at the school, where all staff are trained in how to facilitate math sense routines, purposeful questioning, and problem-solving skills in the classroom. Before- and after-school programming includes LA's Best; Ready, Set, Go!; and Youth Services. The school maintains a Parent and Family Center. Its art program includes theater arts and vocal music. (4.58, 4.59)

As with the other schools, Van Nuy ES does not appear to offer blended learning or tech-integration throughout the school with SMART Boards, online learning and assessments, STEMLab, or the degree of differentiation and personalization in a data-driven environment that NHCA offers, or project-based learning. They do not appear to offer extra learning time (Saturday school), the amount of teacher coaching, evaluation and professional development

that we offer, parent education led by university partners, college visits starting in kindergarten, or much more. NHCA is not duplicative of Van Nuys ES.

Van Nuys MS & S.T.E.A.M. Magnet: This school, focused on college and career readiness, is comprised of a home school and the S.T.E.A.M. Magnet school. At the magnet school, students participate in STEAM-related field trips, have opportunities to apply engineering to improve products, can join a buddy program that pairs 6th and 8th-graders, and the during homeroom period can participate in acceleration, remediation, test preparation, or enrichment based on their needs. The school also includes a “small learning community” of students that attend the Valley Environmental Academy (VEA), a School for Advanced Studies for identified gifted students, and designed for students who have a strong interest in science and the preservation of the planet. Additionally, the school hosts a parent organization and offers students after-school programs via YS Plus and Youth Services. Arts programming includes band, general art and music, mariachi, theater, strings, and wind percussion. (4.61 – 4.63)

While Van Nuys MS, and especially its SAS for gifted students and magnet program for STEAM, appears to offer some differentiation, yet students appear to be segregated by ability (i.e., the SAS program), while at NHCA our students all learn together in an inclusive classroom, with push-in and pull-out services and supports for individuals and small groups as needed. Like the nearby elementary schools, Van Nuys MS does not appear to offer blended learning or tech-integration throughout the school with SMART Boards, online learning and assessments, or the degree of differentiation and personalization in a data-driven environment that NHCA offers. It is unclear how the magnet program teaches STEAM other than field trips and engineering, or whether they have something like our STEMLab, but they do not appear to offer the unique modules we have developed for our STEMLab program. They do not appear to offer extra learning time (Saturday school), the amount of teacher coaching, evaluation and professional development that we offer, parent education led by university partners, college visits, or much more.

Beyond these five closest schools, LAUSD identified 33 additional public schools – traditional, magnet and charter – “that are within the Community of Schools and 3.0 miles” of the NHCA new site, as detailed above.

Out of the total 38 schools identified:

- 5 schools are independent charter schools (Ararat, Girls Athletic Leadership Academy, High Tech LA Middle, Ivy Bound, and Valley Charter Middle)
- 5 schools are LAUSD-affiliated charter schools (Armstrong Middle, Hesby Oaks Leadership, Riverside Drive, Sherman Oaks Elementary)
- 2 schools are whole-school magnets (Lake Balboa College Prep, Monlux)
- 6 schools have one or more magnets within the school (Armstrong Middle, Bassett Elementary, Kester Avenue Elementary, Madison Middle, Mulholland Middle, Vista Middle)
- 2 schools offer deaf/hearing impaired programs (Saticoy Elementary, Vista Middle)
- 11 schools offer School of Advanced Studies (SAS) programs for qualifying gifted/talented students (Erwin Elementary, Fulton College Prep, Gault Street, Kittridge

Street Elementary, Madison Middle, Mulholland Middle, Noble Avenue Elementary, Ranchito Avenue Elementary, Riverside Drive Charter, Saticoy Elementary, and Sylvan Park Elementary).

Among the 38 schools, based on their website content, School Mint, and/or School Plan for Student Achievement:

- 28 mention having before and/or after-school program(s), typically LA's Best and Beyond the Bell at LAUSD public schools, though a few schools also mention enriching after-school activities such as music and art
- 34 schools mention having music, visual art and/or other VAPA programs during the school day;
- 17 schools specifically mention offering coding, robotics or other computer/tech-related core programs or electives;
- 8 schools mention hands-on science curricula such as FOSS or Amplify Science;
- 2 schools mention utilizing CGI math strategies;
- 6 schools reference project-based learning in some aspect of their program;
- 20 schools mention differentiated learning and/or intervention support offered to students in need;
- 7 schools mention providing students with access to a school psychologist or counselor, offering art therapy, or other similar or related supports;
- 24 schools mention having a parent center and/or offering parent education workshops; and
- 1 school mentions having CTE pathways for its students.

Again, while these isolated components are similar to NHCA, none of these schools offer the same comprehensive model that NHCA offers. NHCA will be an important option for families in the Van Nuys/Valley Glen community, just as it has been an important option for families in the adjacent community these past ten years.

**SECTION 5:
CONSIDERATION of ACADEMIC PERFORMANCE**

NARRATIVE

a. In the space below, discuss the current academic performance levels (i.e., California School Dashboard outcomes) of existing public schools (District and charter) within the target community which serve any of the same grade levels (inclusive of the proposed additional grade levels, if applicable) served by the requesting charter school (as indicated on the list of Schools within the Community provided by the CSD).

The academic performance levels of the schools identified on the LAUSD list for purposes of this CIA are quite varied, as might be expected when looking at 38 different schools. As noted above, 11 schools offer Schools of Advanced Studies (SAS) programs (Erwin Elementary, Fulton College Prep, Gault Street, Kittridge Street Elementary, Madison Middle, Mulholland Middle, Noble Avenue Elementary, Ranchito Avenue Elementary, Riverside Drive Charter, Saticoy Elementary, and Sylvan Park Elementary). There are a total of eight schools that are whole-school magnets, or offer one or more magnet programs offered among these 38 schools. Both SAS and magnet programs require an admissions process (and in the case of SAS or gifted programs, academic qualifications for admissions).

Twenty-seven of the 38 schools rate “low” or “very low” in ELA and 29 of the 38 rate “low” or “very low” in Math. (Please refer to 5.1 for a summary data table based on the California Dashboard reports for all 38 schools.) Vista MS (-71.0 in ELA and -124.8 in math) and Fulton College Prep (-70.5 in ELA and -138.9 in math) both have “Very Low” status in both ELA and Math. (Ibid.) Conversely, six of the 38 schools rated “high” or “very high” in both ELA and Math: Chandler ES, Kester Ave ES (includes gifted magnet), Sherman Oaks ES (LAUSD-affiliated charter), Dixie Canyon ES (LAUSD-affiliated charter), Riverside Drive (SAS LAUSD-affiliated charter), and Hesby Oaks Leadership Center (LAUSD-affiliated charter). Louis Armstrong Middle (LAUSD-affiliated charter with two magnet programs) and High Tech LA Middle (independent charter) both achieved a “high” status level in ELA, but not Math. (Ibid.)

English Learner Progress Indicator (ELPI) results ranged from 36.6% making progress (Fulton College Prep) to 84.6% (GALS charter) – the state average in 2022 was 50.3%, with 18 of the 38 schools falling below the state average. (Ibid.) Among the 38 comparison schools, all but two schools have a “High” or “Very High” status for Chronic Absenteeism on the 2022 CA Dashboard reports, and 15 schools have Chronic Absenteeism rates higher than 40%. (Ibid.) Suspension rates range from zero to 3.8%; while almost all of the schools achieved a “Very Low” status, there were three “Low,” two were “Middle,” and one was “High.” (Ibid.)

b. In the space below, discuss the current academic performance levels (i.e., California School Dashboard outcomes) of the requesting charter school. Please ensure this discussion includes consideration of all applicable California School Dashboard indicators.

Like most schools, NHCA experienced pandemic learning loss. Our 2022 CAASPP scores for students in grades 3-8 were -35.1 DFS in ELA and -67.4 in Math. (5.1) While lower than state averages for 2022 (-12.2 in ELA and -57.7 in Math), NHCA's students still outperformed most of the schools on the LAUSD list. NHCA's ELA performance was higher than 20 of the 38 schools in the community, and NHCA's Math performance was higher than 14 of the schools, and within a few points of another six schools, thus effectively in the middle of the

pack for both ELA and Math. This is not surprising given the number of SAS/gifted and magnet programs in the community.

NHCA's ELPI rate of 44.8% in 2022 was slightly below state average (50.3%), yet higher than several of the schools in the community. NHCA has implemented extensive learning groups, intervention, tutoring, after-school academies, RtI practices and hired additional staff to support learning loss, particularly for EL and SWD populations. Like most of the area schools, and schools across the state, chronic absenteeism has been a challenge for us since the pandemic, and was 42.5% on the 2022 Dashboard. In 2022-23 we realized a small improvement to 37.3%. (Internal data.) We are working hard to dramatically lower this figure significantly to our pre-pandemic rates and lower. We note, however, that our chronic absenteeism rate was on par or lower than the rates of 15 of the schools in the community.

In 2021-22, our suspension rate was 3.1% -- a notable increase from our pre-pandemic suspension rate in 2019 of zero. In 2023-24 this rate decreased slightly to 2.9%. (Internal data.) We note that as a particularly small school with approximately 254 students, even one suspension represents a larger percentage than at many of our nearby schools that are significantly larger.

c. In the space below, discuss how the proposed action (additional site, new site (for a move), or additional grade levels) will meet the academic needs of students the charter school proposes to serve and support increased student achievement in the target community, informed by the analyses of academic performance noted in 5.a and 5.b above.

As we have explained above, finally having a campus that has plenty of room for all of our students – indoors and outdoors – that will support our highly differentiated and collaborative model is a dream we have had since our founding 10+ years ago.

**(OPTIONAL) SECTION 6:
ADDITIONAL INFORMATION**

The charter school may present additional information for consideration in the Community Impact Assessment, including but not limited to information pertaining to the needs and achievement of historically underserved students (e.g., Foster Youth, English Learners, Socioeconomically Disadvantaged students, etc.), and the proposed allocation of resources and/or investments to improve student outcomes. Petitioners are encouraged to cite and address the District's goals and/or priority areas.

NARRATIVE

In the space below, present any additional information for consideration in the Community Impact Assessment, consistent with the italicized language above.

Not applicable, especially since the community will not be impacted by our move from a District-owned facility to a private facility.
