Whereas, The Governing Board of the Los Angeles Unified School District passed the LAUSDATA: Los Angeles Unified Sharing Data for Accessibility, Transparency, and Accountability resolution (Res-021-17/18), which recognized the importance of open government, collective problem solving, trust and shared accountability and established the LAUSD Open Data portal which averages 1,372 monthly users;

Whereas, The Strategic Plan was aligned to budget investments in the OpenGov portal taking an important step towards tracking our investments connected to District goals and strategies, but currently lacks the ability to produce a report to understand usage;

Whereas, There are multiple places to access budget data which creates confusion, lack of clarity on the most up to date information, and budget allocation information is difficult to decipher, static, and only addresses high-level questions;

Whereas, Artificial Intelligence (AI) provides the possibility of enhancing efficiencies, expediting processing times, improved accuracy, and real-time customization for the user, and LA Unified is a leader in AI with applications such as Ed and presentations at renowned conferences;

Whereas, District students, parents, families, staff, and community members voice the importance of having access to readily available, easily understandable budget information so they can understand how the District is prioritizing its investments and to what extent those investments are impacting student experiences and achievement; and
