Board of Education Report

File #: Rep-048-24/25, Version: 1

Approval of Procurement Actions

October 22, 2024

Procurement Services Division

Action Proposed:

Ratify the contract actions taken by the Procurement Services Division within delegated authority as listed in Attachment "A" including the approval of award of Professional Service Contracts not exceeding \$250,000: New Contracts; Purchase Orders; Goods and General Services Contracts: Purchase Orders; District Card Transactions; Rental of Facilities; Travel/Conference Attendance; General Stores Distribution Center; and Book/Instructional Material Purchase Orders; and approve Professional Service Contracts (exceeding \$250,000): New Contracts; and Goods and General Services Contracts (exceeding \$250,000): New Contracts; and Piggyback Contracts; and After the Fact transactions (ATF) as listed in Attachment "B."

Background:

Procurement Services staff prepares monthly reports for contract actions necessary for the execution of the projects approved by the Board for the educational and operational requirements of the District in accordance with Board delegated authority to the Superintendent.

Expected Outcomes:

Approval of these items will allow the goods and services provided by these contracts furnishing the equipment, supplies, or services to the Los Angeles Unified School District that support Board policies and goals.

Board Options and Consequences:

The Board can approve all actions presented, or postpone selected actions pending receipt of additional information. Non-ratification of actions awarded under delegated authority in Attachment "A" will result in immediate unavailability of products or discontinuance of services, or both. While non-ratification may be legally defensible, it would likely result in costly litigation over discontinued payments or if the District attempts to reclaim payments made to a vendor. District costs will likely increase as fewer vendors compete for future procurements. Postponement of actions presented for approval in Attachment "B" will delay contract award or delivery dates.

Policy Implications:

This action does not change District policy and conforms to *California Education Code section 17604* that permits the Board of Education to delegate authority for Procurement Services (Board Report 444-17/18), which the Board exercised on May 8, 2018.

Budget Impact:

The contract actions presented are within the budget authority previously approved by the Board. Ratification of contracts awarded under delegation of authority and within their Board approved budget listed in Attachment "A" includes:

File #: Rep-048-24/25, **Version:** 1

- Award of Professional Service Contracts not exceeding \$250,000: New Contracts; Purchase Orders; and
- Goods and General Services Contracts not exceeding \$250,000: Procurement Transactions - Purchase Orders; Rental of Facilities; Travel/Conference Attendance; District Card Transactions; General Stores Distribution Center; and Book/Instructional Material Purchase Orders.

Request for Approval of Procurement Actions not under delegated authority listed in Attachment “B” includes:

- Professional Service Contracts (exceeding \$250,000): New Contracts; and
- Goods and General Services Contracts (exceeding \$250,000): New Contracts; Piggyback Contracts; and
- After the Fact transactions (ATF)

Student Impact:

Not applicable.

Equity Impact:

See attached for applicable items.

Issues and Analysis:

There are no policy implications on these agreements. The Business and Government Services Team, Office of the General Counsel, has reviewed and approved the agreements as to form.

California State University, Los Angeles	C3883	01/11/24 – 06/01/26	Computer Science Supplementary Authorization Incentive Grant (100%)	\$150,000

Ratification of a single-source named-in-grant teacher residency contract for teacher reimbursement in the Computer Science Supplementary Authorization program (CSSA) designed for practicing teachers with an interest in adding an introductory supplemental authorization in computer science, which will be offered as an online synchronous course. Completing the courses in a focused area of computer science meets the requirements set forth by the California Commission on Teacher Credentialing.

California State University, Los Angeles (CSULA or Cal State LA) will provide coursework for 60 LAUSD teachers over the course of three years (20 per year/cohort) to obtain a Computer Science (CS) Supplementary Authorization.

The contract is needed for continued support of the Computer Science Supplementary Authorization Program for LAUSD in-service teachers.

This grant will strengthen District efforts to address the growing computer science teacher shortage in K-9 schools. This grant will address the computer science teacher shortage by providing an accessible and affordable program to teachers to obtain their Computer Science Supplementary Authorization through the CSSA at Cal State LA.

There are currently 220 teachers teaching computer science courses Districtwide. Through this collaboration, the target for the CSSA at Cal State LA will be 60 additional authorized computer science teachers at elementary and middle schools. Increasing the number of authorized teachers ensures more students across the District have equitable access to appropriately trained teachers who have the skills and pedagogy to implement rigorous computer science instruction. Finally, this grant also supports the District’s commitment to providing computer science education for all students before they graduate.

LAUSD will announce the opportunity to all teachers across school sites via emails, flyers, and online/off-line bulletin boards and solicit applications. Any interested teacher is eligible to apply for the grant program. Annually, dedicated District program personnel will select 20 teachers based on the need of the applicant’s site location.

Approval to award five (5) new formally competed contracts procured through a Request for Proposals (RFP) process, to be added to the existing bench of 11 contracts* (Board Report No. 049-22/23) via “refresh”, and increase capacity by \$6,000,000, to support the implementation of the Social Emotional Learning (SEL) programs within the District. The authority to increase or decrease the amounts of these contracts will be limited to the updated aggregate value of \$16,000,000.

Vendors provide access to digital lessons and activities that are evidence-based and aligned with the CASEL framework and the District's SEL Competencies and are differentiated for application with a variety of stakeholders. Access to vendor platforms include PD and site support for implementation for schools. Access to aligned curricular materials are included, including support to access and use the materials with targeted learners. Specifically, the added vendors will provide support staff with access to SEL instructional activities and strategies to provide students in support of District Goal 4.

The current bench focuses primarily on Tier 1 SEL instruction in the classroom, whereas the added vendors support the District’s transformative SEL instructional approach which is most effective in achieving student application of SEL byway of SEL integration. The added vendors provide schools specific instructional tools for support staff such as: MTSS support staff, counselors, administrators, special education staff, PSAs, PSWs, restorative justice staff, school climate advocates and paraprofessionals.

REQUEST FOR APPROVAL OF PROCUREMENT CONTRACTS NOT UNDER DELEGATED AUTHORITY

The goal is to use SEL to increase positive outcomes for students, educators and support staff, including increased social emotional competence in self-management, self-efficacy, growth mindset and social awareness. With the exception of the Division of Instruction's (DOI) primary Tier 1 instructional curriculum contractors (Committee for Children and Inner Explorer), who's services are funded centrally with Title IV funds for Districtwide licenses, other District departments and schools may purchase services from the remaining contractors to support District Goal 4. DOI will support schools with SEL integration by providing access to professional development and resources designed to assist school teachers and support staff in providing SEL lessons, activities and strategies that best fit the needs of their students and stakeholders.

Direct instruction in SEL, combined with supportive programs, is essential for improving both adult and student outcomes in SEL competencies. Effective SEL instruction must extend beyond the classroom, influencing administrative practices and operations with the adoption of SEL curricula. The primary goal is to enhance social emotional competencies such as self-management, self-efficacy, growth mindset, and social awareness among students, educators, and support staff, ultimately leading to improved academic outcomes and increased staff performance. To achieve these goals, the District requires curricula consisting of two modules: professional learning in the use of evidence-based SEL curricula and/or the integration of social emotional learning into academic content; and curricula for direct instruction. This refreshed bench of SEL contractors were selected to address these needs.

Twenty proposals were received and five were deemed qualified. The source selection committee consisted of seven subject matter experts in the Division of Instruction, four from the SEL Department and three Administrative Coordinators. Firms were evaluated on qualifications and experience; qualifications and experience of personnel; technical solution/project approach; Small Business Enterprise (SBE) participation; Work Based Learning Partnership (WBLP) plan; and price.

This action supports the District's Strategic Plan, specifically Pillar 2-2C, Strong Social-Emotional Skills. One hundred percent of students in elementary, middle, and high school will engage in integrated evidence-based SEL instruction by 2026 as evidenced by classroom curriculum usage reports. By 2026, 50% of students will access and upload artifacts using the SEL portfolio in grades 2, 5/6, 8, 10, and 12 to deepen our understanding of student development in SEL and provide recommendations for multi-tiered systems of support.

Franklin Covey has been doing business with the District for 11 years, providing valuable services and resources. Character Strong has been a partner for one year, while Harmony Academy has been collaborating with the District for 11 years. School Connect and Sown to Grow are both new vendors, bringing fresh perspectives and offerings to our education community.

The original budget of \$10,000,000 was nearly exhausted by year two. An increase in the aggregate contract capacity is necessary to support the portfolio rollout and the anticipated rise in professional development needs for the 2024-25 and 2025-2026 school years.

Authorization to increase the aggregate contract capacity of 65 formally competed contracts by \$45,000,000, in support of schools serving the Black Student Achievement Plan (BSAP) for students and families. Services will be provided in the following two categories: (1) Community Based Safety Program (CBSP) Program, and (2) Community Partnerships ([List of 65 BSAP Contractors](#)). The authority to increase or decrease the amounts of these contracts will be limited to the updated aggregate value of \$105,000,000.

The vendors for BSAP programs: community-based safety and community partnerships will provide specialized services. Moreover, within each of these categories, specific support services will be provided, including, but not limited to, parent education, foster youth education, restorative justice practices and strategies, college planning and participation, small group mentoring, job training, student mentoring and academic support not limited to California State Standards, and students' leadership development. The bench contracts will provide services that benefit up to 35,000 kindergarten through twelfth-grade students (and their guardians) attending the 215 [List of BSAP Schools](#), with primary focus of these services being for BSAP Group 1 schools.

The bench of 65 contracts was established in 2023 and updated in 2024 via a "refresh". The Source Selection Committee (SSC) consisted of 59 combined subject matter experts from community-based safety and community partnerships departments. Factors utilized to score the proposals were based on meeting the District's stated minimum qualifications and fell within the competitive range established by the SSC.

Prior to the establishment of the bench, (38) of the 65 vendors had worked with LAUSD. The remaining vendors were new to the District and most of them are non-profit organizations with experience in serving local communities and public agencies within the City of Los Angeles and Los Angeles County. Since the bench contracts were executed, an additional five vendors have provided services to LAUSD.

This action supports the District's Strategic Plan Pillar 2-2A and speaks to the need for schools to ensure students have access to "safe passage" to and from school through coordination with local civic and safety organizations. Additionally, the Strategic Plan Pillar 1-1A calls for the need for students to have access to high-quality, inclusive instruction that is culturally responsive. The community development services to be provided will support the implementation of the Strategic Plan, specifically in eliminating opportunity gaps (Pillar 1-1C) and leading for impact (Pillar 3-3C). The CBSP Program and Community Partnerships services will provide safe and healthy environments that promote joy and wellness, thus aligning with Pillar 2 of the Strategic Plan. In addition, the contractors will provide essential services to schools with a high enrollment of Black students, addressing student safety, building solid social-emotional skills, and increasing opportunities for parental involvement in the school community.

Approval of a single source contract to offer the Employee Assistance Service for Education (EASE) Health and Wellness Program to LAUSD employees. EASE is a confidential, voluntary service offering professional counseling, consultation and education to classified and certificated school district employees. The program supports employees in addressing personal and professional challenges that may impact job performance.

Investing in health and wellness services is critical to fostering supportive school environments, which in turn enhances staff well-being. Prioritizing the health and wellness of teachers and school staff is essential for ensuring that students succeed and reach their full potential.

Membership in EASE extends benefits to employees and their families, including access to counseling services, after-hours emergency support, worksite consultation, and critical incident response. The program also offers a 24/7 counseling hotline and mobile crisis response for critical incidents. All LAUSD employees are entitled to these comprehensive services.

EASE is a not-for-profit employee assistance program dedicated to educational organizations. Established in 1982 through a Joint Powers Agreement, EASE serves 72 educational organizations across Los Angeles County, including school districts, community colleges, and Head Start programs.

This contract aligns with Pillar 5 of the Strategic Plan, specifically addressing the priority area of Staff Wellness. A key success measure in the Strategic Plan is increased usage and participation in the EASE program.

PowerSchool Group LLC.	C3882 (RFP 2000003513)	10/23/24 – 10/22/29 includes two (2) one- year renewal options	Software/ Hardware Maintenance (100%)	\$5,784,627

Approval of a formally competed contract procured through a Request for Proposal (RFP) process conducted by the Procurement Services Division for a Learning Management System (LMS). A Learning Management System (LMS) serves as a centralized online platform where teachers deliver lessons, assignments, and assessments, and students can easily access materials, submit work, and receive feedback. It streamlines classroom management, enhances communication, and ensures that learning can continue seamlessly from any location.

These District-wide services are needed to ensure students have access to instructional materials.

Four (4) proposals were received and deemed qualified. The Source Selection Committee was comprised of three (3) subject matter experts from the Division of Instruction and Information Technology Services. The proposals were scored based on the following evaluation criteria: experience and qualifications of the firm and personnel; technical solution and project approach; price proposal; Small Business Enterprise (SBE) Participation; and Work Based Learning Partnership (WBLP) plan. The selected firm was the highest scoring proposer.

PowerSchool Group, LLC has provided the District's LMS since 2020. They have done business with the District since 2015, and provided similar services to Cypress-Fairbanks ISD, Loudoun County Public Schools, and Miami-Dade County Public Schools.

These services align with: Pillar 1 Academic Excellence by providing students with rigorous, standards-based, and personalized learning opportunities.

Recognition	2	The solution will be available to all students and vaguely recognizes historical inequities. The solution can be used to identify learning gaps with historically underserved students.
Resource Prioritization	1	The solution will be available to all stakeholders (students, parents, teachers, and administrators) and does not prioritize resources based on student need.
Results	3	The solution is available to students 24/7, giving them access to assignments, assessments, and grades. Data analytics (i.e., Benchmark, formative, summative and social emotional survey and assessment results) derived from the proposed system could be used to drive future decisions. The ability to do progress monitoring throughout the year will allow for additional targeted support. Implementation of this solution is likely to result in closing the achievement gap.

Approval of a formally competed contract procured through a Request for Proposal (RFP) process to provide electronic court filing services for the District.

Office of the General Counsel (OGC) represents the District in legal matters that often lead to litigation. The District saves on litigation costs when these lawsuits are handled in-house by OGC attorneys rather than by outside counsel. To effectively and successfully handle litigation in-house, OGC attorneys require and need support from certified professional legal support providers such as an Electronic Filing Service Provider (ESFP), “attorney service” providers or messenger service.

In January 2019, the Los Angeles Superior Court mandated electronic filing for all documents filed in the Limited and Unlimited Civil Divisions. The ESFPs must be approved and designated as such by the Courts. The District is not an ESFP and therefore, cannot provide these types of services.

One proposal was received and deemed qualified. The Source Selection Committee was comprised of three OGC staff members. Factors utilized to score the proposal included qualifications and firm experience; fees for services, Small Business Enterprise (SBE) Participation, and Work-Based Learning Partnership (WBLP) Plan.

First Legal Network has been providing services to the District since 2019.

This contract supports Pillar 4: Operational Effectiveness.

Approval of formally competed capacity contracts procured through an Invitation for Bid (IFB) process to provide routine inspection, maintenance, and repair services of specialized heating, ventilation, and air conditioning (HVAC) chillers for schools and the Beaudry Headquarters Building (the only District administrative site with chillers). The authority to increase or decrease the amounts of these contracts will be limited to the aggregate value of \$5,000,000.

The Maintenance and Operations (M&O) Branch will procure the requested services at the lowest competitive prices through contracts with these vendors. The M&O Branch will ensure that all awarded vendors perform the services properly.

Five bids were received for this solicitation, with NSWC Mechanical Service, LLC (NSWC); Trane U.S. Inc. (Trane); Carrier Corporation (Carrier); and Mesa Energy Systems, Inc. dba Emcor Services Mesa Energy (Mesa Energy) being selected as the successful bidders. These companies were identified as the lowest, responsive, and responsible bidders. NSWC has been delivering reliable and cost-effective services to the District since June 2020, Trane since February 2012, Carrier since July 2008, and Mesa Energy since June 2017.

The proposed action aligns with the District's Strategic Plan Pillar 2, Joy and Wellness and Pillar 4, Operational Effectiveness. It is imperative to regularly maintain HVAC chillers through proper inspection and servicing to ensure that HVAC systems are consistently operational, thereby fostering the health and productivity of students and staff.
