Career Technical Education Incentive Grant (CTEIG) 2022-23

May 9, 2023

Career Technical Education - Linked Learning/Division of Instruction

Action Proposed:

Ratify the Career Technical Education Incentive Grant (CTEIG) in the amount of \$9,751,322 (July 1, 2022 through December 31, 2024).

Background:

This annual California Department of Education (CDE) formula-based grant provides LAUSD with funding to strengthen and enhance the District's Career Technical Education (CTE) program. Per the CDE, students in CTE pathways have higher attendance rates, lower dropout rates, and increased post-secondary enrollment rates. All of the work we do with our grants support our students in over 450 career pathways while preparing them for college and career, with special emphasis on career (Pillar 1: Academic Excellence, Priority D: College and Career Readiness).

Expected Outcomes:

- Increase in the number of students who will:
 - Acquire technical and career-ready skills through growing CTE pathways
 - Earn industry-recognized certifications to gain employable skills
 - Earn post-secondary credits in their career pathway
 - Complete CTE pathways and transition to post-secondary institutions to advance their skills for careers of their choice
 - Experience a continuum of work-based learning opportunities
- Increase number of career pathways with industry-standard equipment, materials, and work-based learning integrated into their curriculum
- Increase industry sector pathways with high-wage and high-demand occupations as identified by current local labor market research
- Develop a deeper understanding of the purpose and benefits of CTE programs by all students and stakeholders
- Increase number of dual credit courses and articulation agreements through partnerships with Los Angeles Community College District postsecondary schools
- Increase number of District teachers with industry-relevant training and externships
- Increase recruitment and retention of CTE teachers

Board Options and Consequences:

If the Board ratifies the grant, students will have access to additional CTEIG-funded materials, equipment, work-based learning, and certifications within their CTE pathways, beginning in 2023-24.

If the Board does not ratify the grant, students will have reduced funding for and access to industry-specific, professional-grade materials, equipment, work-based learning, and certifications.

Policy Implications:

None

Budget Impact:

None. This grant is matched 2-1 to existing CTE-related expenditures.

Student Impact:

- Career exploration and guidance opportunities for students
- Pathway alignment with community colleges
- Better instruction via elevated teaching through CTEIG-funded trainings, externships, and professional development
- Increased attainment of industry-specific certifications and training

Equity Impact:

CTEIG funding gives LAUSD the opportunity and autonomy to address the specialized materials, equipment, and professional development needs of CTE pathways. CTE programs are evaluated based, in-part, on the measurement of equity and access for applicants' students. CTEIG funds build educator capacity to address the achievement gaps in special student populations and engage these students in CTE classrooms. The grant funds are also utilized to purchase industry-standard equipment and integrate work-based learning curriculum for CTE pathways to ensure all students are prepared for college and careers.

Component	Score	Score Rationale
Recognition	3	This CTEIG grant recognizes historical inequities as the California Department of Education (CDE) is deliberate in promoting equity and access to Career Technical Education (CTE) programs. CTE programs are evaluated, in-part, on the measurement of how an applicant provides opportunities for the participation of "pupils who are individuals with exceptional needs."
Resource Prioritization	3	Resource prioritization of this grant is based on student need as LAUSD prioritizes schools and pathways that have received less funds from other grant sources (e.g., Perkins, Strong Workforce Program, and previous CTEIG rounds). Grant funds also support CTE teacher professional development to build educator capacity in addressing the achievement gaps in special populations. The grant funds are also utilized to purchase industry-standard equipment and integrate work-based learning curriculum for CTE pathways to ensure all students are prepared for college and careers.
Results	3	CTE classes and pathways provide opportunities for students to explore careers and develop career-ready skills that lead to living wage employment that is much needed in areas with opportunity and achievement gaps.
TOTAL	9	

Issues and Analysis:

None

Projections for CTEIG R8 FY22-23 - Grant Award \$9,751,322

Category of Use		Budget	Notes
1	CTE Staff Salaries 2022-23	\$4,764,794.65	The following positions are responsible for the implementation and compliance of the grant and paid for from the grant: • CTE Supervisor (Dual Credit Supervisor) 1 • CTEIG Coordinators (Work-Based Learning Coordinators) 16 • CTEIG Coordinators (Dual Credit Coordinators) 4 • Grant Manager 1 • Grant Support Staff (Data & Finance) 4 Admin. Analysts, 1 Assistant Admin. Analyst, 1 Admin Staff Aide, 2 Senior Office Techs. • Public Information Officer 1
2	Supplementary Salaries for Professional Development, CTE Special Projects	\$400,000.00	• We offer a full schedule of professional development for our 400+ CTE teachers as well as special projects such as Pathway Connects (e.g.: We meet all pathway teachers at an exemplary site and have a day long learning session with industry and our experienced teachers leading the day) • If teachers want any grant funding, we are requiring them to offer at least one industry certification to students and many teachers need training in the certification and in the testing procedures. • We are emphasizing teacher externships to support our CTE teachers in attending a business or company for a period of time (3-5 days) to understanding current industry trends and the workplace. We have not offered this in the past and are hoping to have 50-100 teachers participate in the summer. They will produce a lesson or series of lessons from this experience. • Extra time for teacher/administrator covering Saturday programs, increasing CTSO participation, project-based learning, and advisory meetings.
3	Software License and Certification	\$1,200,000.00	• Purchases of curriculum, software, and services including training of industry-aligned certifications across all schools and pathways.
4	Capital and Non Capital Equipment	\$1,632,516.00	• CTE-related equipment and technology across all pathways including priority and emerging sectors and brand new pathways. • 3 new Mental and Behavioral Health pathways, 8 new Arts, Media and Entertainment, 1 new Building and Construction, 1 new Engineering and Architecture, 1 new Fashion and Interior Design, 1 new Health Science and Medical Technology, 2 new Hospitality, Tourism and Recreation, 3 new Information and Communication and Technology and 2 new Marketing, Sales and Service. They will all need materials and equipment in addition to supporting existing pathways.
5	Instructional Material/ Consumables	\$850,000.00	• Instructional materials and consumables for new pathway implementation & current pathway enhancements to maintain industry standards and alignment to post-secondary. • Each pathway is provided opportunity to order up to \$5,000 of consumables through our CTEIG grant since Perkins Federal funding does not allow it.
6	Professional Services	\$500,000.00	• Professional services contracts: curriculum development, software, including training and installation of industry-specific non-capital equipment and certifications. CTE promotional videos, and expanding industry-specific advisory committee. • Bus services for field trips to pathway-aligned industries, workplaces and colleges. • Portfolio subscriptions (e-portfolio). • CTE conferences and professional development opportunities for CTE teachers and staff. • Student Technical Leadership competitions and conferences
7	Indirect Costs	\$407,542.74	• Indirect Costs are the percentage of grant funds that the District takes from the grant for Administrative needs. • These funds do not go to our CTE programs or our department. • CTEIG grant Indirect Costs is not to exceed CDE-approved rate each year. • Indirect costs are not assessed on expenditures for capital outlay. • Our indirect cost rate will not exceed the maximum approved indirect rate for our LEA for FY 22-23 (4.36%)
Total Projections		\$9,754,853.39	

Career Technical Incentive Grant 2022-23 (February 2023 - December 2024)

All of the work we do with our grants supports our students in preparing them for college and career, with special emphasis on career (Pillar 1: Academic Excellence, Priority D: College and Career Readiness). The Career Technical Education Incentive Grant (CTEIG) will be administered by the CTE-Linked Learning Department, led by the CTE-Linked Learning Administrator, Esther Soliman.

The following positions are responsible for the implementation and compliance of the grant and paid for from the grant:

- CTE Supervisor (Dual Credit Supervisor) 1
- CTEIG Coordinators (Work-Based Learning Coordinators) 16
- CTEIG Coordinators (Dual Credit Coordinators) 4
- Grant Manager 1
- Grant Support Staff (data, finance) 4 admin. analysts, 1 assistant admin. analyst, 1 admin staff aide, 2 senior office techs.
- Public Information Officer 1

In addition, every year grant funding also supports:

- 450+ career pathways with new and upgrades of industry-aligned equipment. (Pathways fill out applications and based on previous funding, allowable expenses, and other criterion, they are awarded funding from Perkins or CTEIG)
- CTE teacher professional development
- New CTE teacher coaching and specialized professional development
- Students with opportunities to earn
 - industry-recognized certifications
 - participate in a continuum of work-based learning experiences
 - enroll in dual-credit classes, and visit community colleges.

For this grant-- areas funded that were not funded in the recent past:

- **Expand promotional materials:** the CTE Office team will create videos, career pathway posters, and other materials to promote CTE across the district and City to develop a deeper understanding of the purpose and benefits of CTE programs for all students and stakeholders.
- **Increase recruiting and retention efforts:** We need to increase these efforts. We currently use Indeed, and Edjoin. We needed to increase social media efforts as we currently have over 30 openings. We will also reach out to professional organizations.
- **Create and promote teacher externships:** We are emphasizing teacher externships to support our CTE teachers in attending a business or company for a period of time (3-5 days) to understanding current industry trends and the workplace. We have not offered this in the past and are hoping to have 50-100 teachers participate in the summer. They will produce a lesson or series of lessons from this experience.
- **New types of pathways:** Based on current local labor market needs, three new Mental and Behavioral Health (MBH) CTE pathways are starting at Elizabeth Learning Center, Hawkins and Polytechnic High Schools and we are frontloading three additional ones for next year. These pathways will need professional development support as well as equipment and materials. Increasing pathways is one of our strategies in our District Strategic Plan

- **New pathways:** In addition to the 3 Mental and Behavioral Health pathways, we have 24 new pathways this year! (8 Arts, Media and Entertainment, 1 Building and Construction, 1 Engineering and Architecture, 1 Fashion and Interior Design, 1 Health Science and Medical Technology, 2 Hospitality, Tourism and Recreation, 3 Information and Communication and Technology and 2 Marketing, Sales and Service. They will all need materials and equipment. Increasing pathways is one of the strategies in our District Strategic Plan.
- **Strategies to increase Pathway Completion Rates:** When students complete a sequence to two courses in the same pathway (Concentrator, Capstone) this is considered a Completer. Completer rates, along with just one college credit, allows students to be considered College and Career Ready on the CA Dashboard. Our completion rate is 15.3% and we have identified an increase to 27% by 2026 in the Strategic Plan as one measure of success. We created strategies to achieve this and grant funding will be used to support this such as PD for counselors and visits to community colleges.
- **Supporting counselors in understanding and supporting CTE and Career Readiness:** CTE teachers have indicated that counselors do not understand CTE and career readiness and counselors agree. We are planning a series of counselor professional development sessions for tracking CTE students career experiences, course sequencing, guidance on career & post-secondary options, and visits to community college Guided Pathways and meetings with college counselors. Fall campus visits include: LACC, ELAC, LAVC, and Pierce, West and Southwest in the spring.
- **CTE Dual Credit:** We are at the beginning stages of offering dual-credit courses (high school CTE with college Guided Pathway courses.) We are only offering 3 this semester. We will use this grant to expand the number of dual credit coordinators who will work with the 9 community colleges to increase the number of dual credit courses. We have identified this work in the Strategic Plan that we will increase this number to 60 dual enrollment classes by 2026.
- **Pathway Connect:** The CTE office team this year developed "Pathway Connect," a day-long meetings to visit a model CTE classroom, and discuss the industry with CTE teachers, industry partners and community college faculty. This is another opportunity to facilitate alignment with community colleges. Future planned Pathway Connect meetings are being developed for Transportation; Agriculture and Natural Resources; Information Communication Technology; Health Science and Medical Technology; Business and Finance, and Marketing, Sales, and Services.
- **Food Trucks:** Purchasing or leasing Food Trucks exclusively for CTE instruction, to benefit our Culinary, Business, and Marketing pathways.
- **Create Industry-Specific Advisories** This year we want to further develop our CTE Advisory Committee (industry, parents, students, representatives from specialized groups (Special Education, Foster, Homeless, EL) and also create Industry-Specific Advisories. By the end of 2023 we expect to have the following advisories (Arts, Media and Entertainment; Business and Finance; Energy, Environment and Utilities; Engineering and Architecture; Health Science and Medical Technology and Information Communication Technologies). Each advisory will be composed of a minimum of 20 professionals who will work with our pathways to ensure our curriculum, equipment and materials are industry standard and to expand student work-based learning experiences as this is in our District Strategic Plan.

RESOLUTIONS
