Mr. Melvoin, Ms. Goldberg - Excellence in Expanded Learning in LAUSD (Res-014-23/24) (For Action November 14, 2023)

Whereas, Expanded learning opportunities, including afterschool programs, support students, families and communities. They keep youth safe, inspire learning, and give working parents and guardians peace of mind;

Whereas, The Los Angeles Unified School District (District) is committed to delivering well-rounded, inspiring educational and enrichment experiences during the school day and after school as outlined in Pillar 1B of the 2022-2026 Strategic Plan;

Whereas, The average workday for full time workers is 8.4 hours according to the U.S. Bureau of Labor and Statistics, while the average school day for students in California is 6 hours;

Whereas, Quality expanded learning programs not only promote physical health and wellbeing, but also support academic and social-emotional development and provide a safe and supportive environment for students;

Whereas, According to research at the University of California, Irvine, the University of Wisconsin Madison, and Policy Studies Associates, Inc., students who regularly attended high-quality afterschool programs had significant gains in standardized math test scores;

Whereas, According to the Rose Institute at Claremont McKenna College, every \$1 invested in afterschool programs saves at least \$3 through increasing youth's earning potential, improving their performance at school, and reducing crime and juvenile delinquency;

Whereas, Effective expanded learning programs align with and complement the school day curriculum. This helps reinforce academic skills and concepts while providing additional enrichment and opportunities for hands-on learning;

Whereas, The District and its partners are committed to ensuring students have access to expanded learning opportunities in a safe and supportive environment that offers high-quality academic, enrichment, and recreation programs to motivate students to work towards their full potential. Most District students have access to an on-site afterschool program, although availability and quality may vary from school to school;

Whereas, There are challenges to providing quality expanded learning programs including attracting and retaining qualified, part-time afterschool employees, developing coherence between the school day and afterschool programs, and blending and braiding After School Education and Safety (ASES) funding, ELOP funding, grants, and other funding to meet the needs of all students while following the funding guidelines of each program;

Whereas, There remains unmet demand for high-quality expanded learning programs nationally, disproportionately impacting low-income families and families of color; now, therefore be it

Resolved, That the District recognizes and celebrates Lights on Afterschool Day annually in October. This event celebrates after school programs that keep youth safe, inspire them to learn, and help working families;

Resolved further, That advocacy for more coherent expanded learning funding and support be incorporated into the 2024 District's Advocacy Agenda as a legislative priority at the local, State, and national level;

Resolved further, That the District will develop an Excellence in Expanded Learning Plan focused on strengthening and defining goals for afterschool programming coherence, quality, developmental appropriateness, and accessibility and on recruiting and retaining high quality staff and partners to be presented to the Board in a public meeting within 120 days. The plan shall be informed by:

- An analysis of current afterschool programs serving District students and funding sources conducted by the Independent Analysis Unit to be completed within 30 days and made publicly available, including but not limited to
 - Number of students currently participating in afterschool programs, broken down by, grade level, race/ethnicity, school of attendance, SENI band, school designation (i.e., Priority school, Community School, BSAP), and region;
 - List of schools providing afterschool programs by type (i.e., District provided vs partner provided, paid program vs. no cost) broken down by, grade level, race/ethnicity, school of attendance, SENI band, school designation (i.e., Priority school, Community School, BSAP), and region;
 - Staffing vacancies associated with each type of afterschool provider;
 - Comparison of District programs, policies, and funding structures to other large school districts in California;
 - Student outcomes associated with participation in afterschool programs offered at District sites; and
 - An explanation of missing or unavailable data that would be beneficial to consider;
- Stakeholder input to improve the coherence, quality, and accessibility of expanded learning opportunities throughout the District; and, be it finally

Resolved, That the District will participate in local and State conversations and convenings related to expanded learning opportunities for youth including around quality standards and impact on student outcomes.
